Subject: Support "opting out" of sanctuary city status.

Dear Orange County Board of Supervisors,

I support Michelle Steel, and other board members, in any decision to OPT OUT of any sanctuary city status for Orange County's communities. Governor Brown's sanctuary city declaration appears to be nothing but an insult to our nation's heralded stature as a "nation of laws."

Subject: NO SANCTUARY STATE, NO SANCTUARY COUNTY, NO SANCTUARY CITIES - Take Back Our State

Thank you to the Board of Supervisors for growing a backbone and standing up for AMERICANS.

The citizens, the law abiding citizens of this great state are sick and tried of Illegal Aliens from any country, putting us in harms way.

We are tired of being political Sheep Pawns for the Progressive Anti American, Anti Federal and State Constitution and it's time to stand up!!.

Thank you because it took little Los Alamitos with 11,000 residents to stand up against a corrupt pro Mexican take over of the state I was born in in 1949.

Thank you, Thank you, Thank you.

Subject: Resolution Regarding NOT remaining a Sanctuary County by the Board of Supervisors

To All Concerned,

I write you today regarding the Resolution being considered today, March 27, 2018 regarding removing Orange County from Sanctuary Status as is the status of the State of California.

I strongly urge and compel you as Supervisors of Orange County to remove Orange County from Sanctuary Status as the State of California has so ludicrously imposed on our citizens of this state.

The homelessness of Orange County is at an all time high, as well you know. Los Angeles is at 55,000! I have heard and know we are well on our way to reaching the same number! For this reason and others I will list below I implore you all to remove our beautiful and "safe" county from "Sanctuary Status."

1) Safety.
We are all well aware of the number of thefts, crimes of all kinds, gangs, illegal drug possession, and distribution (sales) that have increased significantly in our County since illegal aliens have had open doors here in our County.

2) Our Children
Orange County is a family oriented county. With the numbers of homeless and illegals entering and being welcomed by our state, we are hearing of vicious crimes, trafficking, felons being released into society and so much more. This must stop! We must keep our children safe!

3) Health
We are well on our way to having the next outbreak of Hepatitis A such as the Health Emergency in San Diego which has cost San Diego County money, time, and sadly deaths at least 20 people and hospitalizations. The mayor, I am told has earmarked nearly "$80 Million" in funds to bring this outbreak under control! Orange County certainly could be the next. Los Angeles has reported cases already!

It is also a widely shared concern amongst our medical community and citizens, that the number of diseases we are seeing in our county and also in our state are due to illegal aliens and encroaching homelessness because they have not been given the proper immunizations and they bring in diseases that our people do not have immunity's too, because they come from other regions of the world.

4) Money and Fiscal Responsible Management
You must as our representatives, as our Orange County Supervisors, be responsible for the finances of the people of Orange County. As you know, people are moving out of Orange County and our state in the most outrageous numbers! We live in the most beautiful state in the union. Now none of us can afford to live here unless we are extremely wealthy or extremely poor. We are losing our middle class and with that we are losing billions of dollars as we lose our middle class and they take their money with them.

We will also be losing federal funds, which we cannot afford to lose, to help sustain this beautiful area and our wonderful people who live in Orange County .

These are only a few of the reasons we need to pass the resolution today to opt out of "Sanctuary Status." I beg you to remember your responsibility as our representatives and as American citizens to this state and to this country.

Please, Save our County, help save California, be responsible Americans and Representatives!

Very sincerely,

Dennis and Robin Long

Subject: Sanctuary State

Dear Supervisors,

Please get us out of this sanctuary state policy. It's a horrible idea. If an illegal commits a crime then they shouldn't get to live here any longer. If they have family here, then their family can move back with them. They don't have to be split up. It should be that simple. If a person makes a bad choice there has to be consequences. If there aren't, people will keep doing the wrong things. You can't have a country if you don't have laws.

Please do something about getting rid of the tent cities too. I think with all the rehabs for addiction in this state, it brings addicts from all over this country to California and they just stay here when the rehab fails them. Maybe we need to put a stronger limit on that. Rehabs only for state full time residents.

Thank you for your consideration,

Linda Wooters

Dear Supervisors of the County of Orange:

As a citizen of California and a resident of Orange County I want to submit my opposition to the Board's vote to join the lawsuit of the Trump Administration against California over sanctuary law. The premise of the President's policies concerning immigrants in our Country is based on assumptions and not facts. I would also add that his basic stand on immigration is racially and religiously motivated and therefor unconstitutional. This has been born out by his rhetoric, tweets and actions.

The people of this State, our Country, and this President have used undocumented immigrants to farm our lands, clean our homes and hotel rooms, maintain our yards and build Mr. Trump's hotels for many, many years. They have contributed billions of dollars to the economy, just in Southern California. To characterize them as a drain on our public resources, stealing our jobs and/or bringing crime to our Country is a gross over statement that cannot be substantiated by the facts. Pew Research shows that none of these accusations is true. Lastly, these same immigrants have worked for less pay and benefits, which has resulted in reduced costs to business owners and consumers, and have often worked in jobs most Americans don't want. Our businesses, and we as consumers, have benefited from their presence in our Country and now we want to throw them out with no basis. Instead, we should be giving them a pathway to citizenship.

To support this President in perpetuating his lies is to be complicit in the gross injustices he and his Administration intends to inflict on some of the most vulnerable people in our Country. The President and his Administration also shows absolutely no constraint or concern for how his policies will affect law abiding families in our Country.

I respectfully request that the Board of Supervisors re-consider their support of the President's lawsuit against our State. Instead, you should be standing with the State on this issue and doing what is right and just.

Sincerely,

Subject: California Sanctuary Law SB 54

To Whom It May Concern:

I am writing to voice my opposition to the Orange County Board of Supervisor's decision to oppose California Sanctuary Law SB 54. In Chapter 17.25, Section 7284.2, this law sets forth that California deems immigrants as valuable members of our community and indicates that this law is designed to establish trust with these communities. These are values that I believe we should uphold as a state and as a County.

My family came over on the Mayflower and I am a Fourth generation Californian, but I don't begrudge the people who came here after me, no matter how recently they came. I married a man whose mother immigrated from Poland, and I have gotten the opportunity to learn about a different culture through that experience. I went to school with children that had immigrated from Latin America, Iran, China, India, and South Korea and made friends with these wonderful human beings. Immigrants have made Orange County a beautifully diverse place and have enriched the experience of our people.

Opposing the California Sanctuary Law is unnecessarily alienating a part of our community and causing them to feel fear instead of standing by them, as our neighbors and as fellow human beings. What this county, this state, this country, and this world needs is unity not division. Immigrants aren't what we should be afraid of. We should be afraid of this growing rhetoric of "otherness" that is dividing our communities from within. As my representatives, I request that you look beyond party lines, national lines, and race and see the Orange County that could be. A County of individuals of different backgrounds that work together and learn together to make this County a better place. Thank you.

Sincerely,
Mira Tyni, Esq.

Subject: Disappointing regarding your decision to join Trump's lawsuit

Dear OC Board of Supervisors,

I am very disappointed at your decision to join Trump's lawsuit against the state of CA. California is the place of diversity, and Orange County exemplifies it. You cannot go to any places in Orange County without surrounding yourselves with Vietnamese, Mexican, Korean and other ethnic foods. You hear different languages besides English spoken in places in Orange County as if they are the primary languages. Immigrants are the backbone of Orange County, and they make Orange County great. As a result, it should be your duty to protect immigrants from unnecessary and unjust actions from Trump and its misplaced immigration policy. However, you chose to side with Trump and against the people who voted for you in the first place. Voters do remember, and the next time I am at the poll. I will also remember to vote all of you out since you do not represent the values of the people, the state that you are living in.

Best regards,
Phat T Dang

RE: RESOLUTION TO CONDEMN SENATE BILL 54 (SB 54), ITEM NUMBER S14A OPPOSE

Dear Chairman Do,

On behalf of the Coalition for Humane Immigrant Rights (CHIRLA), I am writing to strongly oppose the resolution introduced by Supervisor Steel seeking to condemn Senate Bill 54, authored by California State Pro Tem Emeritus Kevin de Leon, as well as the ask by Supervisor Nelson for Orange County Counsel to join existing litigation filed by the United States Department of Justice (DOJ) against SB 54 or initiate a separate legal action.

Founded in 1986 CHIRLA is a California leader, with national impact, made up of diverse immigrant families and individuals who act as agents of social change to achieve a world with freedom of mobility, full human rights, and true participatory democracy, fully inclusive of refugees and immigrants. CHIRLA prides itself in its work to serve the immigrant community through civic engagement, community education, organizing, the provision of legal immigration services, and advocacy at the forefronts of local, state, and federal government.

The premise for this resolution, which states that SB 54 could be preempting federal law, is inherently flawed. The language of SB 54 clearly states that "[it] would apply those provisions to the circumstances in which a law enforcement official has the discretion to cooperate with immigration authority... [and] a law enforcement official shall have discretion to cooperate with immigration authorities only if doing so would not violate any federal, state, or local law."[1] As a result, the language of SB 54 is not in direct conflict with federal immigration law, rather in line, therefore protected under the Tenth Amendment of the United States Constitution.

Additionally, through the legislative process, SB 54 underwent various amendments and revisions from experts in various fields including law enforcement entities. The California Police Chiefs Association stated the following, "the compromise reached on Senate Bill 54 does two things: it addresses the significant public safety concerns we raised during this debate, and it reaffirms what we have held since the beginning, which is that California law enforcement should not be used to assist in mass deportations."[2] Simultaneously, SB 54 also garnered the

CHIRLA
Coalition for Humane Immigrant Rights

support of prominent law enforcement officials such as Chief Charlie Beck of the Los Angeles Police Department (LAPD), and former United States Attorney General Eric Holder.

The Orange County Opportunity Initiative indicates that "Orange County's foreign-born labor force accounts for 32.3% of the $80.1 billion dollars and it is home to the 4th largest foreign-born population."[3] Given the diversity of the residents that make up the county, the passage of this resolution would be an insult to a large portion of the population. This resolution is at its best flawed and at worse misleading to the public. We respectfully urge you to vote NO on this resolution.

Thank you for considering our perspective, should you have any questions contact Mariana Magaña Gamero at mmagana@chirla.org.

Sincerely,

Joseph Villela

Subject: SB 54 vote

I was born and raised in Orange County, living in El Toro, Huntington Beach, Laguna Beach, and now Corona del Mar. I am positively DISGUSTED at the vote to sue the state over SB 54. Michelle Steel's representative was horribly misleading and uninformed when I called to ask Michelle's reasons for her vote. I am concerned that you elected officials are voting for things based on emotion and not based on facts and logic:
* SB 54 would NOT prevent local law enforcement from contacting federal officials when someone who had committed a felony and was here illegally was being let out of jail

*SB 54 promotes public safety by encouraging undocumented residents to communicate freely with police to prosecute crimes without fear of deportation

* SB 54 promotes FAMILY VALUES by not allowed the ferreting out and deporting of caretakers of AMERICAN children who have not committed any crimes.

Please know that I had no idea who my county supervisors were before. Now I do. This goes for many other voters who have voted Republican in the past, but no longer feel that our elected officials reflect Christian compassion for families and American values and ethics.

Plus, suing the state for the right to persecute undocumented residents who are paying taxes and raising their families is a waste of hard-earned taxpayer dollars.

Here is an article that explains SB 54: http://www.latimes.com/politics/la-pol-sac-sanctuary-state-bill-explained-20170413-htmlstory.html

Importance: High

Dear O.C. Board of Supervisors,

Our family would like to thank you for taking a stand on behalf of the citizens of the United States! We live in a sovereign country where the "rule of law" prevails and which demands that our policy leaders fight the trend toward anarchy coming from the Socialista ruling-class in Sacramento. And we need to fight against rent control which would rob mom-and-pop landlords (owners of 4 units or less) of their ability to earn a living. The Board needs to take another look at how they are dealing with the homeless problem. Please reinstate vagrancy as a crime and have the miscreants and drug addicts arrested! This is the only viable solution (short or long-term) which the voters will accept. Thank you for this opportunity to express our family's opinion.
