**Subject:** June 23rd Meeting, Item #48

Dear Supervisors:
Please reinstate your mandatory mask order. I ask you to refer to recent U.S. published studies which prove the effectiveness of masks in preventing the spread of Covid-19. (see June 13, 2020 study https://www.forbes.com/sites/alicegwalton/2020/06/13/face-masks-may-be-the-key-determinant-of-the-covid-19-curve-study-suggests/, June 1, 2020 study https://www.thelancet.com/journals/lancet/article/PIIS0140-6736(20)31183-1/fulltext, and https://academic.oup.com/jtm/article/27/3/taaa056/5822103).
Furthermore, scientists at Cambridge University published a new study on June 10, 2020 proving the effectiveness of masks. https://www.reuters.com/article/us-health-coronavirus-masks-study-idUSKBN23G37V
Additionally, European doctors at https://arxiv.org/abs/2004.13553 and Asian doctors at https://arxiv.org/abs/2003.07353 all have concluded the same, i.e. that wearing cloth masks will protect others from micro-droplets expelled by the wearer, which is accomplished by humidity forming inside the mask which weighs down the droplets. Said studies predict that if 80% of the population wore masks then a second wave and thousands of deaths may be avoided.
These published medical studies represent the standard of care that masks best protect your constituents. New infections and hospitalizations are the highest to date in Orange County, and we must be more vigilant than ever. Please make masks mandatory when in public.
Sincerely,
Christine Kuei

Board members,
I wish to express my full support for the reinstatement of the mask mandate. This pandemic is far from over. I know that you have been vilified and harassed by members of the community by standing for public health in the past, but I want you to know that the majority recognizes the severity of this pandemic. Please, put safety above the whims of a few conspiracy theorists. Reinstate the mask mandate.
Best,
Eamon Morris

**Subject:** Comments for upcoming Board meetings

Greetings,
My husband and I own a small business in Mission Viejo (a restaurant).

We are currently doing our best to re-build our business and get our employees back on track financially, all while doing our utmost to keep our employees and customers safe according to the best science-backed recommendations.

The OC Board of Supervisors lack of support for Dr. Quick and the mask requirement is an abdication of the board's responsibility. By relaxing the requirement, the board has done the wrong thing for public health, and essentially left small business owners without any cover as they struggle to protect the health and safety of patrons and employees.

I am truly disappointed in the board and sincerely hope this decision will be reconsidered as soon as possible.

Sincerely,
Catherine Beirne
Mission Viejo, CA

Subject: OC Should Mandate Wearing Masks in Public!

The OC Board of Supervisors and Department of Health should be protecting the public safety of all OC residents and the greater good, not pandering to the selfish demands of a few vocal bullies who seem to feel their personal "freedom" somehow gives them the right to put others at risk. No one seems to have any trouble with requirements to wear shoes and shirts in restaurants--why all the fuss about wearing a mask for PUBLIC SAFETY IN THE MIDST OF A GLOBAL PANDEMIC TO PROTECT AGAINST A HIGHLY-CONTAGIOUS, DEADLY VIRUS WITH NO KNOWN CURE?

Grow a backbone, listen to science/medical experts, exercise some civic LEADERSHIP and reinstate a mask mandate that protects ALL residents, including workers, first responders, grocery clerks, restaurant personnel and all those who are in public spaces. Even if your motivation is only to "reopen" the economy, know that most of us will only visit or patronize places that mandate mask wearing. If we don't feel safe going out, we will stay home and continue to shop on line and send our dollars to Amazon--not our local businesses. Do the right thing!

Sincerely,

Julie Humphreys
