ARTICLES

GENERAL TERMS AND CONDITIONS

1. Governing Law and Venue:

This Contract has been negotiated and executed in the state of California and shall be governed by and construed under the laws of the state of California. In the event of any legal action to enforce or interpret this Contract, the sole and exclusive venue shall be a court of competent jurisdiction located in Orange

County, California, and the parties hereto agree to and do hereby submit to the jurisdiction of such court, notwithstanding Code of Civil Procedure Section 394. Furthermore, the parties specifically agree to waive any and all rights to request that an action be transferred for adjudication to another county.

2. Entire Contract:

This Contract contains the entire Contract between the parties with respect to the matters herein, and there are no restrictions, promises, warranties or undertakings other than those set forth herein or referred to herein. No exceptions, alternatives, substitutes or revisions are valid or binding on County unless authorized by County in writing. Electronic acceptance of any additional terms, conditions or supplemental Contracts by any County employee or agent, including but not limited to installers of software, shall not be valid or binding on County unless accepted in writing by County's Purchasing Agent or designee.

3. Amendments:

No alteration or variation of the terms of this Contract shall be valid unless made in writing and signed by the parties; no oral understanding or agreement not incorporated herein shall be binding on either of the parties; and no exceptions, alternatives, substitutes or revisions are valid or binding on County unless authorized by County in writing.

4. Taxes:

Unless otherwise provided herein or by law, price quoted does not include California state sales or use tax. Out-of-state Contractors shall indicate California Board of Equalization permit number and sales permit number on invoices, if California sales tax is added and collectable. If no permit numbers are shown, sales tax will be deducted from payment. The Auditor-Controller will then pay use tax directly to the State of California in lieu of payment of sales tax to Contractor.

5. Delivery:

Time of delivery of commodities and services is of the essence in this Contract. County reserves the right to refuse any commodities and services and to cancel all or any part of the commodities not conforming to applicable specifications, drawings, samples or descriptions or services that do not conform to the prescribed scope of work. Acceptance of any part of the order for commodities shall not bind County to accept future shipments nor deprive it of the right to return commodities already accepted at Contractor's expense. Over shipments and under shipments of commodities shall be only as agreed to in writing by County. Delivery shall not be deemed to be complete until all commodities or services have actually been received and accepted in writing by County.

6. Acceptance Payment:

Unless otherwise agreed to in writing by County, 1) acceptance shall not be deemed complete unless in writing and until all the commodities/services have actually been received, inspected, and tested to the satisfaction of County, and 2) payment shall be made in arrears after satisfactory acceptance.

7. Warranty:

Contractor expressly warrants that the commodities covered by this Contract are 1) free of liens or encumbrances, 2) merchantable and good for the ordinary purposes for which they are used, and 3) fit for

the particular purpose for which they are intended. Acceptance of this order shall constitute an agreement upon Contractor's part to indemnify, defend and hold County and its indemnitees as identified in the Insurance and Indemnification section, and as more fully described in the Insurance and Indemnification section harmless from liability, loss, damage and expense, including reasonable counsel fees, incurred or sustained by County by reason of the failure of the goods/services to conform to such warranties, faulty work performance, negligent or unlawful acts, and non-compliance with any applicable state or federal codes, ordinances, orders, or statutes, including the Occupational Safety and Health Act (OSHA) and the California Industrial Safety Act. Such remedies shall be in addition to any other remedies provided by law.

8. Patent/Copyright Materials/Proprietary Infringement:

Unless otherwise expressly provided in this Contract, Contractor shall be solely responsible for clearing the right to use any patented or copyrighted materials in the performance of this Contract. Contractor warrants that any software as modified through services provided hereunder will not infringe upon or violate any patent, proprietary right, or trade secret right of any third party. Contractor agrees that, in accordance with the more specific requirement contained in the Insurance and Indemnification section, it shall indemnify, defend and hold County and County Indemnitees harmless from any and all such claims and be responsible for payment of all costs, damages, penalties and expenses related to or arising from such claim(s), including, costs and expenses but not including attorney's fees.

9. Assignment:

The terms, covenants, and conditions contained herein shall apply to and bind the heirs, successors, executors, administrators and assigns of the parties. Furthermore, neither the performance of this Contract nor any portion thereof may be assigned by Contractor without the express written consent of County. Any attempt by Contractor to assign the performance or any portion thereof of this Contract without the express written consent of County shall be invalid and shall constitute a breach of this Contract.

10. Non-Discrimination:

In the performance of this Contract, Contractor agrees that it will comply with the requirements of Section 1735 of the California Labor Code and not engage nor permit any subcontractors to engage in discrimination in employment of persons because of the race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, or sex of such persons. Contractor acknowledges that a violation of this provision shall subject Contractor to penalties pursuant to Section 1741 of the California Labor Code.

11. Termination:

In addition to any other remedies or rights it may have by law, County has the right to immediately terminate this Contract without penalty for cause or after 30 days' written notice without cause, unless otherwise specified. Cause shall be defined as any material breach of contract, any misrepresentation or fraud on the part of Contractor. Exercise by County of its right to terminate Contract shall relieve County of all further obligation.

12. Consent to Breach Not Waiver:

No term or provision of this Contract shall be deemed waived and no breach excused, unless such waiver or consent shall be in writing and signed by the party claimed to have waived or consented. Any consent

by any party to, or waiver of, a breach by the other, whether express or implied, shall not constitute consent to, waiver of, or excuse for any other different or subsequent breach.

13. Independent Contractor:

Contractor shall be considered an independent contractor and neither Contractor, its employees, nor anyone working under Contractor shall be considered an agent or an employee of County. Neither Contractor, its employees nor anyone working under Contractor shall qualify for workers' compensation or other fringe benefits of any kind through County.

14. Performance Warranty:

Contractor shall warrant all work under this Contract, taking necessary steps and precautions to perform the work to County's satisfaction. Contractor shall be responsible for the professional quality, technical assurance, timely completion and coordination of all documentation and other commodities/services furnished by Contractor under this Contract. Contractor shall perform all work diligently, carefully, and in a good and workmanlike manner; shall furnish all necessary labor, supervision, machinery, equipment, materials, and supplies, shall at its sole expense obtain and maintain all permits and licenses required by public authorities, including those of County required in its governmental capacity, in connection with performance of the work. If permitted to subcontract, Contractor shall be fully responsible for all work performed by subcontractors.

15. Changes:

Contractor shall make no changes in the work or perform any additional work without County's specific written approval.

16. Change of Ownership/Name, Litigation Status, Conflicts with County Interests:

Contractor agrees that if there is a change or transfer in ownership of Contractor's business prior to completion of this Contract, and the County agrees to an assignment of the Contract, the new owners shall be required under terms of sale or other transfer to assume Contractor's duties and obligations contained in this Contract and complete them to the satisfaction of the County.

Notwithstanding other notice or termination provisions contained herein, County reserves the right to immediately terminate this Contract, as of the date on which the County provides written determination of termination of this Contract under this provision anytime upon or after assignment, in the event that the County determines that the assignee is not qualified or is otherwise unacceptable to the County for the provision of services or commodities under this Contract. In the event of an immediate termination under this provision, the Contractor shall promptly refund the County an amount equal to the pro rata portion of any charges the County paid in advance for any remaining portion of the Contract after the date of termination. Likewise, the County shall not be liable for payment for any remaining services not yet provided and accepted by the County under this Contract after the date of termination for any payments to be made in arrears pursuant to the terms of the Contract.

17. Force Majeure:

Contractor shall not be assessed with liquidated damages or unsatisfactory performance penalties during any delay beyond the time named for the performance of this Contract caused by any act of God, war, civil

disorder, employment strike or other cause beyond its reasonable control, provided Contractor gives written notice of the cause of the delay to County within 36 hours of the start of the delay and Contractor avails himself of any available remedies.

Contractor acknowledges that County is relying on Contractor to ensure such compliance, and pursuant to the requirements of the Insurance and Indemnification section, Contractor agrees that it shall defend, indemnify and hold County and County Indemnitees harmless from all liability, damages, costs and expenses arising from or related to a violation of such laws.

Contractor shall remain in compliance and in good standing, maintaining current and active business entity and/or nonprofit registration status, with all applicable federal, state and local registration requirements at the time of execution of the contract through the duration of the term of the Contract, and shall provide annual confirmation of current and active status to County through the term of the Contract.

20. Freight:

Prior to County's express acceptance of delivery of products. Contractor assumes full responsibility for all transportation, transportation scheduling, packing, handling, insurance, and other services associated with delivery of all products deemed necessary under Contract.

21. Severability:

If any term, covenant, condition or provision of this Contract is held by a court of competent jurisdiction to be invalid, void, or unenforceable, the remainder of the provisions hereof shall remain in full force and effect and shall in no way be affected, impaired or invalidated thereby.

22. Attorney Fees:

In any action or proceeding to enforce or interpret any provision of this Contract, each party shall bear their own attorney's fees, costs and expenses.

23. Interpretation:

This Contract has been negotiated at arm's length and between persons sophisticated and knowledgeable in the matters dealt with in this Contract. In addition, each party had been represented by experienced and knowledgeable independent legal counsel of their own choosing or has knowingly declined to seek such

counsel despite being encouraged and given the opportunity to do so. Each party further acknowledges that they have not been influenced to any extent whatsoever in executing this Contract by any other party hereto or by any person representing them, or both. Accordingly, any rule or law (including California Civil Code Section 1654) or legal decision that would require interpretation of any ambiguities in this Contract against the party that has drafted it is not applicable and is waived. The provisions of this Contract shall be interpreted in a reasonable manner to effect the purpose of the parties and this Contract.

24. Employee Eligibility Verification:

Contractor warrants that it fully complies with all Federal and State statutes and regulations regarding the employment of aliens and others and that all its employees performing work under this Contract meet the citizenship or alien status requirement set forth in Federal statutes and regulations. Contractor shall obtain, from all employees performing work hereunder, all verification and other documentation of employment eligibility status required by Federal or State statutes and regulations including, but not limited to, the Immigration Reform and Control Act of 1986, 8 U.S.C. §1324 et seq., as they currently exist and as they may be hereafter amended. Contractor shall retain all such documentation for all covered employees for the period prescribed by the law. Contractor shall indemnify, defend with counsel approved in writing by County, and hold harmless, County, its agents, officers, and employees from employer sanctions and any other liability which may be assessed against Contractor or County or both in connection with any alleged violation of any Federal or State statutes or regulations pertaining to the eligibility for employment of any persons performing work under this Contract.

The inspection and/or audit will be confined to those matters connected with the performance of Contract including, but not limited to, the costs of administering Contract. County will provide reasonable notice of such an audit or inspection.

Contractor agrees to allow interviews of any employees or others who might reasonably have information related to such records. Further, Contractor agrees to include a similar right to County to audit records and interview staff of any subcontractor related to performance of this Contract.

Should Contractor cease to exist as a legal entity, Contractor's records pertaining to this Contract shall be forwarded to County's project manager.

26. Contingency of Funds:

Contractor acknowledges that funding or portions of funding for this Contract may be contingent upon state budget approval; receipt of funds from, and/or obligation of funds by, the state of California to County; and inclusion of sufficient funding for the services hereunder in the budget approved by County's Board of

Supervisors for each fiscal year covered by this Contract. If such approval, funding or appropriations are not forthcoming, or are otherwise limited, County may immediately terminate or modify this Contract without penalty.

27. Expenditure Limit:

County will not be responsible for any expenditure overruns and will not pay for work exceeding the dollar limit on Contract unless a change order to cover those costs has been issued.

INDEMNIFICATION AND INSURANCE PROVISIONS

1. Indemnification

Contractor agrees to indemnify, defend with counsel approved in writing by County, and hold County, its elected and appointed officials, officers, employees, agents and those special districts and agencies which County's Board of Supervisors acts as the governing Board ("County Indemnitees") harmless from any claims, demands or liability of any kind or nature, including but not limited to personal injury or property damage, arising from or related to the services, products or other performance provided by Contractor pursuant to this Contract. If judgment is entered against Contractor and County by a court of competent jurisdiction because of the concurrent active negligence of County or County Indemnitees, Contractor and County agree that liability will be apportioned as determined by the court. Neither Party shall request a jury apportionment. Notwithstanding anything stated above, nothing contained herein shall relieve Contractor of any insurance requirements of obligations created elsewhere in this Contract.

2. General Insurance Requirements

Prior to the provision of services under this Contract, the Contractor agrees to carry all required insurance at Contractor's expense, including all endorsements required herein, necessary to satisfy the County that the insurance provisions of this Contract have been complied with. Such proof of insurance must be maintained by Contractor through the entirety of this Contract for inspection by County representative(s) at any reasonable time.

All self-insured retentions (SIR)'s shall be clearly stated on the Certificate of Insurance. Any SIR in excess of Fifty Thousand Dollars \$50,000 shall specifically be approved by the County's Risk Manager, or designee. The County reserves the right to require current audited financial reports from Contractor. If Contractor is self-insured, Contractor will indemnify the County for any and all claims resulting or arising from Contractor's services in accordance with the indemnity provision stated in this contract.

13. Conditions Affecting Work:

Contractor shall be responsible for taking all steps reasonably necessary to ascertain the nature and location of the work to be performed under this Contract and to know the general conditions which can affect the work or the cost thereof. Any failure by Contractor to do so will not relieve Contractor from responsibility for successfully performing the work without additional cost to County. County assumes no responsibility for any understanding or representations concerning the nature, location(s) or general conditions made by any of its officers or agents prior to the execution of this Contract, unless such understanding or representations by County are expressly stated in Contract.

The provisions and pricing of this Contract may be extended, at the option of Contractor, to any Municipal, County, Public Utility, Hospital, Educational Institution, or any other non-profit or governmental organization (the "Cooperative Program"). Parties in a Cooperative Program wishing to use this Contract will be responsible for issuing their own purchase documents / price agreements, providing for their own

acceptance, and making any subsequent payments. Contractor shall be required to include in any agreement entered into with another agency or entity that is entered into pursuant to the provisions and pricing of this Contract a clause that binds the parties to the agreement to “indemnify, defend with counsel approved in writing by the County of Orange, California (“County”), and hold County, its elected and appointed officials, officers, employees, agents and those special districts and agencies which County’s Board of Supervisors acts as the governing Board (“County Indemnitees”) harmless from any claims, demands or liability of any kind or nature, including but not limited to personal injury or property damage, arising from or related to the services, products or other performance provided” under the agreement.. Failure to so include this clause voids the Contract’s extension to a Cooperative Program and will be considered a material breach of this Contract and grounds for immediate Contract termination. The cooperative entities are responsible for obtaining all certificates of insurance and bonds required. The County of Orange makes no guarantee of usage by other users of this Contract.

As a cost-recovery mechanism for County, a 2 percent administrative rebate on total sales from all subordinate contracts will be paid to the County for any contracts the Contractor agrees to enter into with another agency or entity, other than the County of Orange or a department thereof, under the provisions and pricing of this Contract. The County has partnered with Pavilion, a third-party administrator, responsible for managing all reporting and payments under this Cooperative Program. The Contractor shall provide quarterly Volume Sales Reports about additional sales to other entities under the provisions and pricing of this Contract. The Reports shall include the ordering agency, detail of items sold including description, quantity, and price, and shall include all transactions pertaining to sales under the Contract provisions and pricing for that Reporting Period. Contractor shall provide the Volume Sales Reports regardless of whether or not any sales have been conducted. Failure of the Contractor to provide quarterly reports as required may be deemed by the County as a material breach of the Contract. A late penalty of 15 percent on the value of the rebate may be assessed to the Contractor for each month the payments are not received.

Subordinate contracts must be executed prior to the expiration or earlier termination of this Contract and may survive the expiration of this Contract. This Cooperative Contract provision shall survive expiration or termination of this Contract.

All materials, documents, data or information obtained from County data files or any County medium furnished to Contractor in the performance of this Contract will at all times remain the property of County. Such data or information may not be used or copied for direct or indirect use by Contractor after completion or termination of this Contract without the express written consent of County. All materials, documents, data or information, including copies, must be returned to County at the end of this Contract.

16. Default – Re-Procurement Costs:

In case of Contract breach by Contractor, resulting in termination by County, County may procure the commodities and services from other sources. If the cost for those commodities and services is higher than under the terms of the existing Contract, Contractor will be responsible for paying County the difference between Contract cost and the price paid, and County may deduct this cost from any unpaid balance due Contractor. The price paid by County shall be the prevailing market price at the time such purchase is made. This is in addition to any other remedies available under this Contract and under law.

17. Disputes – Contract:

The parties shall deal in good faith and attempt to resolve potential disputes informally. If the dispute concerning a question of fact arising under the terms of this Contract is not disposed of in a reasonable period of time by the Contractor's Project Manager and the County's Project Manager, as specified in Article titled "Notices" below, such matter shall be brought to the attention of the County DPA by way of the following process:

- A. The Contractor shall submit to the agency/department assigned Deputy Purchasing Agent a written demand for a final decision regarding the disposition of any dispute between the parties arising under, related to, or involving this Contract, unless County, on its own initiative, has already rendered such a final decision.
- B. The Contractor's written demand shall be fully supported by factual information, and, if such demand involves a cost adjustment to Contract, Contractor shall include with the demand a written statement signed by a senior official indicating that the demand is made in good faith, that the supporting data are accurate and complete, and that the amount requested accurately reflects Contract adjustment for which Contractor believes County is liable.

Pending the final resolution of any dispute arising under, related to, or involving this Contract, Contractor agrees to diligently proceed with the performance of this Contract, including the delivery of commodities and/or provision of services. Contractor's failure to diligently proceed shall be considered a material breach of this Contract.

Any final decision of County shall be expressly identified as such, shall be in writing, and shall be signed by County Deputy Purchasing Agent or his designee. If County fails to render a decision within 90 days after receipt of Contractor's demand, it shall be deemed a final decision adverse to Contractor's contentions. Nothing in this section shall be construed as affecting County's right to terminate Contract for cause or termination for convenience as stated in Article "Termination" herein.

The pricing quoted by Contractor shall apply to serving County’s needs regardless of the circumstances. If Contractor is unable to supply the goods/services under the terms of Contract, then Contractor shall provide proof of such disruption and a copy of the invoice for the goods/services from Contractor’s supplier(s). Additional profit margin as a result of supplying goods/services during an emergency or a declared disaster shall not be permitted. In the event of an

emergency or declared disaster, emergency purchase order numbers will be assigned. All applicable invoices from Contractor shall show both the emergency purchase order number and Contract number.

21. Error and Omissions:

All reports, files and other documents prepared and submitted by Contractor shall be complete and shall be carefully checked by the professional(s) identified by Contractor as Project Manager and key personnel attached hereto, prior to submission to the County. Contractor agrees that County review is discretionary, and Contractor shall not assume that the County will discover errors and/or omissions. If the County discovers any errors or omissions prior to approving Contractor's reports, files and other written documents, the reports, files or documents will be returned to Contractor for correction. Should the County or others discover errors or omissions in the reports, files or other written documents submitted by the Contractor after County approval thereof, County approval of Contractor's reports, files or documents shall not be used as a defense by Contractor in any action between the County and Contractor, and the reports, files or documents will be returned to Contractor for correction.

ATTACHMENT A - SCOPE OF WORK

1. Introduction

The A-E shall provide OC Waste & Recycling (OCWR) with landfill regulatory compliance support services. The routine services provided by the firm shall include providing training, preparation of regulatory compliance reports, updating compliance plans, and general support related to the following compliance programs:

- **Task A:** National Pollutant Discharge Elimination System (NPDES)
- **Task B:** Spill Prevention, Control, and Countermeasure (SPCC)
- **Task C:** Waste Discharge Requirements (WDR)

Specific details and deadlines for each of the tasks are further described below.

2. TASK A: NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES)

A. Overview

OC Waste & Recycling (OCWR) has three active landfill sites: Olinda Alpha in Brea, Frank R. Bowerman (FRB) in Irvine, and Prima Deshecha in San Juan Capistrano. Operations at these three sites are subject to the National Pollutant Discharge Elimination System (NPDES) permit program which regulates point source stormwater discharges into Waters of the United States. Specifically, these three sites are enrolled under the Statewide General Permit for Stormwater Discharges Associated with Industrial Activities, Order 2014-0057-DWQ (Industrial General Permit), which was issued by the State Water Resources Control Board (State Water Board) and last amended in 2018. In accordance with the Industrial General Permit (IGP), Stormwater Pollution Prevention Plans (SWPPPs) and Monitoring Implementation Plans (MIPs) were previously prepared and implemented for each of the three sites.

B. Scope and Deliverables

Scope and deliverables outlined below for Task A fulfill routine requirements of OCWR's NPDES IGP compliance program.

1. NPDES and IGP General Support

The A-E shall provide general support to OCWR as it pertains to the implementation of OCWR's IGP compliance program, including providing stormwater sampling guidance, compilation and evaluation of stormwater monitoring data against Numeric Action Levels (NALs) and Numeric Effluent Limitations (NELs), recommending minimum and advanced Best Management Practices (BMPs), and assisting with Stormwater Multiple Application and Report Tracking System (SMARTS) reporting. OCWR staff will be responsible for collecting the required qualified storm event (QSE) samples and submitting the samples for laboratory testing. OCWR staff will also be responsible for submitting the laboratory results to SMARTS. The A-E shall also provide general technical assistance to OCWR, addressing and responding to any NPDES or IGP regulatory issues that may arise at the three active landfill sites.

2. IGP Annual Evaluations

Each of OCWR's three active landfill sites are required by Section XV of the IGP to conduct one Annual Comprehensive Facility Compliance Evaluation (Annual Evaluation) each reporting year (July 1st – June 30th). The A-E shall conduct OCWR's Annual Evaluations during the second quarter of each calendar year. The Annual Evaluations consist of both a records review and a site inspection.

As part of the records review, the A-E shall review at minimum the following types of records prepared or obtained by OCWR staff: monthly dry weather visual observations forms, QSE sampling and visual observations logs, and QSE sampling chain of custodies and laboratory results.

As part of the site inspections, the A-E shall visit all three sites to assess onsite conditions, including:

- A. Visually inspecting areas of industrial activity, minimum and advanced BMPs, and the equipment needed to implement and maintain BMPs.
- B. Assess adequacy and effectiveness of implemented BMPs.
- C. Identify any necessary SWPPP updates.

The A-E shall anticipate spending approximately half a day at each site for the inspections and will be accompanied by the appropriate OCWR staff. Within a week of conducting the inspection, the A-E shall provide via email a signed and completed Annual Evaluation form, and if applicable, a list of corrective actions needed.

3. SWPPP Updates

Each of OCWR's three active landfill sites are required to amend their SWPPPs as appropriate based on the findings of the Annual Evaluation. The amendments shall be implemented within 90 days of the Annual Evaluation. Furthermore, the SWPPPs shall be amended throughout the year when required.

Following the Annual Evaluations, the A-E shall recommend updates to the SWPPP, including the Pollutant Source Assessment, Minimum and Advanced BMPs, and Monitoring Implementation Plan (MIP). Furthermore, the A-E shall review OCWR's SWPPPs and confer with OCWR Staff at least quarterly to check for upcoming relevant facility or regulatory changes. When SWPPP amendments are required, the A-E shall amend the SWPPP for compliance with current regulations, appropriateness of monitoring locations and parameter lists, and sampling frequencies and procedures, and to reflect changing site conditions.

The A-E shall submit a draft copy of the amended SWPPP to OCWR via email for review. Upon completion of incorporating any feedback from OCWR's review, the A-E shall submit a final copy of the amended SWPPP for signing by OCWR's Legally Responsible Person or their Duly Authorized Representative. The A-E shall then upload the final signed copy of the amended SWPPP to SMARTS and OCWR staff will be responsible for certifying it in SMARTS. Both draft and final copies of the amended SWPPPs shall be in PDF format with optical character recognition (OCR) applied to make the documents easily searchable.

4. IGP Annual Report

Each of OCWR's three active landfill sites are required to prepare, certify, and electronically submit an Annual Report by July 15th using the standardized format and checklists in SMARTS.

The A-E shall assist OCWR with preparing Annual Reports in SMARTS, including any applicable attachments. The A-E shall prepare a draft of the Annual Reports for OCWR review by June 30th. OCWR staff will be responsible for certifying and submitting the final Annual Report in SMARTS.

5. Other IGP Required Reports

Depending on the laboratory results of the required QSE sampling, additional reports may be required by the IGP compliance program. All the reports mentioned below may require that the SWPPP also be amended.

The first time an exceedance occurs of a monitoring parameter's NAL, the site will move from the Baseline Exceedance Response Action (ERA) Level to ERA Level 1 for that specific monitoring parameter. In this situation, the A-E shall provide recommendations for operational level control measures and shall prepare a Level 1 ERA Evaluation and Report.

If any future NAL exceedances occur for the same monitoring parameter, the site will move from its current ERA Level to ERA Level 2. In this situation, the A-E shall provide recommendations for implementing structural control measures and shall prepare a Level 2 ERA Action Plan and Technical Report.

If two or more NEL exceedances occur at the same discharge location in one reporting year, the A-E shall recommend operational changes and additional BMPs to eliminate the exceedance and shall prepare a Water Quality Based Corrective Actions (WQBCA) Report.

The A-E shall submit a draft copy of each required report to OCWR via email for review at least two weeks prior to the regulatory deadline. OCWR staff will provide comments from their review within one week of receiving the draft copy. Upon completion of incorporating any feedback from OCWR's review, the A-E shall submit a final copy for signing by OCWR's Legally Responsible Person or their Duly Authorized Representative. The A-E shall then upload the final copy to SMARTS and OCWR staff will be responsible for certifying it in SMARTS. Both draft and final copies of the reports shall be in PDF format with optical character recognition (OCR) applied to make the documents easily searchable.

6. Annual NPDES Trainings

Each of OCWR's three active landfill sites are required to conduct annual NPDES training for all staff that are designated as Pollution Prevention Team members in each site's SWPPP.

The A-E shall prepare and provide the required annual NPDES training each calendar year to applicable OCWR staff. One training presentation shall be prepared for each calendar year and

be presented in-person a total of three times, one training session held at each site. The training sessions shall be held during the third quarter of each calendar year.

Each training presentation shall cover material applicable to all three sites to provide flexibility for OCWR staff to attend any of the three training sessions. Furthermore, the three in-person training sessions shall also be hosted through an online meeting platform with recording abilities, such as Microsoft Teams, to allow OCWR staff the option to also attend virtually.

Each training presentation shall consist of a PowerPoint presentation, designed to last 60-90 minutes in length, which covers, at a minimum:

- A. Stormwater Regulatory Overview
- B. IGP Compliance Program Components and Requirements
- C. Summary and Feedback on Previous Reporting Year
- D. Recommendations for Next Reporting Year
- E. Other Relevant Stormwater Regulatory Updates

While preparing each training presentation, the A-E shall review the Annual Evaluation and Annual Report completed for the previous reporting year, as well as review any new or pending legislation that may impact future NPDES or IGP requirements. The A-E shall incorporate feedback and suggestions from their review on how OCWR may improve NPDES and IGP related regulatory compliance into the training presentation. The training shall be presented by Qualified Industrial Stormwater Practitioners (QISP).

Periodically, OCWR may request to add an optional section to the end of the training sessions for in-person attendees, such as a field demonstration or a tour of pertinent areas of the landfill site. These requests will be communicated at least a month prior to the training session to allow for adequate coordination time.

The A-E shall provide an electronic copy of the final PowerPoint presentation by noon the day prior to the training session to allow time for OCWR staff to print out handouts for in-person attendees. If requested, the A-E shall also submit an electronic draft copy of the PowerPoint presentation to OCWR for review at least one week prior to the training sessions. The A-E shall provide electronic Certificates of Completion for attendees; OCWR staff will be responsible for sign-in sheets and will provide the A-E with the final list of attendees.

7. NPDES Training Material Development

The A-E shall assist OCWR with developing standalone NPDES training material. The target audience of this training material is site operational staff that are responsible for routine NPDES and IGP related tasks, such as installing erosion & sediment control BMPs, conducting monthly visual observations, or collecting stormwater samples. The material will be shared when necessary to help train new employees, as well as serve as a refresher tool for existing staff. The final training material will be shared with OCWR staff through Eureka, the County's online training platform.

C. Cost Estimate Assumptions

As outlined in the pricing table in Attachment B, the A-E shall perform all scope of services described above for Task A on an annual lump sum basis, except for NPDES Training Material Development, which will be its own separate subtask (A-T). Subtask A-T is listed in the pricing table in Attachment B under As-Needed Work. A-E shall not exceed \$100,000 for all As-Needed Work.

All required monitoring and sampling will be performed by either OCWR staff or contractors. Laboratory testing of collected samples will be performed by a certified laboratory contracted directly by OCWR. Therefore, the A-E shall not be responsible for monitoring, sampling, or laboratory costs. The scope of Task A also does not include non-routine activities related to compliance with other NPDES permits, such as the Municipal General Permit (MGP) or the Construction General Permit (CGP).

3. TASK B: SPILL PREVENTION, CONTROL, AND COUNTERMEASURE (SPCC)

A. Overview

OC Waste & Recycling (OCWR) has three active landfill sites: Olinda Alpha in Brea, Frank R. Bowerman (FRB) in Irvine, and Prima Deshecha in San Juan Capistrano. Operations at these three sites includes storage of petroleum products in aboveground storage tanks (ASTs). As each site's respective total storage capacity of ASTs (55 gallons or greater) exceeds 1,320 gallons, all three sites are subject to the Federal Oil Pollution Prevention Regulation and the State of California Aboveground Petroleum Storage Act. Specific Federal and State regulatory requirements are contained in Title 40 of the Code of Federal Regulations (CFR), Part 112, and Chapter 6.67 of the California Health and Safety Code, Section 2570, respectively. In accordance with 40 CFR Part 112, Spill Prevention, Control, and Countermeasure (SPCC) Plans were previously prepared and implemented for each of the three sites.

B. Scope and Deliverables

The scope and deliverables outlined below for Task B fulfill routine requirements of the regulations stated above and SPCC Plans.

1. Annual SPCC Trainings

Each of OCWR's three active landfill sites are required to conduct annual SPCC training for all staff that have contact with any of its above-ground petroleum storage tanks or mobile refueling equipment, as well as those who are involved with the California Unified Program Agency (CUPA) regulations and reporting.

The A-E shall prepare and provide the required annual SPCC training each calendar year to applicable OCWR staff. One training presentation shall be prepared for each calendar year and be presented in-person a total of three times, one training session held at each site. The training sessions shall be held during the third quarter of each calendar year.

Each training presentation shall cover material applicable to all three sites to provide flexibility for OCWR staff to attend any of the three training sessions. Furthermore, the three in-person

training sessions shall also be hosted through an online meeting platform with recording abilities, such as Microsoft Teams, to allow OCWR staff the option to also attend virtually.

Each training presentation shall consist of a PowerPoint presentation, designed to last 45-90 minutes in length, which covers, at a minimum:

- A. SPCC Regulatory Framework
- B. SPCC Applicability to OCWR Landfills
- C. SPCC Plan Purpose and Requirements
- D. OCWR Staff Responsibilities
- E. Notification Requirements

While preparing each training presentation, the A-E shall review the monthly visual inspection reports completed by OCWR staff during the previous year, as well as review any new or pending legislation that may impact future SPCC or CUPA requirements. The A-E shall incorporate feedback and suggestions from their review on how OCWR may improve SPCC related regulatory compliance into the training presentation. Suggestions may include tips on better housekeeping near the petroleum tanks, common errors found in the monthly visual inspection reports, or errors found in incident reports.

Periodically, OCWR may request to add an optional section to the end of the training sessions for in-person attendees, such as a mock spill demonstration or a tour of pertinent areas of the landfill site. These requests will be communicated at least a month prior to the training session to allow for adequate coordination time.

The A-E shall provide an electronic copy of the final PowerPoint presentation by noon the day prior to the training session to allow time for OCWR staff to print out handouts for in-person attendees. If requested, the A-E shall also submit an electronic draft copy of the PowerPoint presentation to OCWR for review at least one week prior to the training sessions. The A-E shall provide electronic Certificates of Completion for attendees; OCWR staff will be responsible for sign-in sheets and will provide the A-E with the final list of attendees.

2. SPCC Plan Updates

Each of OCWR's three active landfill sites are required to amend their SPCC Plan within 6 months of a relevant facility change and at minimum, review their SPCC Plan at least once every 5 years.

The A-E shall review OCWR's SPCC Plans and confer with OCWR Staff at least semi-annually to check for upcoming relevant facility or regulatory changes. When SPCC Plan amendments are required, the A-E shall update the SPCC Plan and submit a draft copy to OCWR for review. The final copy of the amended SPCC Plan shall be certified by a licensed Professional Engineer. Both draft and final copies of the amended SPCC Plans shall be submitted to OCWR electronically; they shall also be in PDF format with optical character recognition (OCR) applied to make the report easily searchable.

3. SPCC Formal External Inspections

Each of OCWR's ASTs with volumetric capacities greater than 5,000 gallons require a formal external inspection to be performed by a certified inspector at least once every 20 years. The last round of formal external inspections was conducted in May 2008 and the next round is due prior to May 2028. OCWR has a total of four ASTs that will require formal external inspections: one AST at Olinda Alpha, two ASTs at FRB, and one ASTs at Prima Deshecha.

The A-E shall perform the formal external inspection of OCWR's four ASTs with volumetric capacities greater than 5,000 gallons prior to May 2028. The inspector shall be certified by either the Steel Tank Institute (STI) or the American Petroleum Institute (API). The inspection shall be documented in a certified report and submitted to OCWR electronically. The A-E shall also update OCWR's three SPCC Plans to document the completion of the formal external inspection.

4. SPCC General Support

The A-E shall provide general technical assistance to OCWR, addressing and responding to any SPCC regulatory issues that may arise at the three active landfill sites.

5. SPCC Training Material Development

The A-E shall assist OCWR with developing standalone SPCC training material. The target audience of this training material is site operational staff that are responsible for routine SPCC related tasks, such as routine handling procedures, conducting monthly visual inspections, or using cleanup spill kits. The material will be shared as needed to help train new employees, as well as serve as a refresher tool for existing staff. The final training material will be shared with OCWR staff through Eureka, the County's online training platform.

C. Cost Estimate Assumptions

As outlined in the pricing table in Attachment B, the A-E shall perform all scope of services described above for Task B on an annual lump sum basis, except for SPCC Training Material Development, which will be its own separate subtask (B-T). Subtask B-T is listed in the pricing table in Attachment B under As-Needed Work. A-E shall not exceed \$100,000 for all As-Needed Work.

For SPCC Plan Updates, the A-E shall assume an average of two Plan Updates per calendar year. For SPCC Formal External Inspections, the A-E shall include this scope in subtask B-28 (2028 SPCC Support).

4. TASK C: WASTE DISCHARGE REQUIREMENTS (WDR)

A. Overview

Each of OC Waste & Recycling (OCWR)'s three active landfills (Olinda Alpha, FRB, and Prima Deshecha) and two of its closed landfills (Santiago Canyon and Coyote Canyon) operate under Waste Discharge Requirements (WDRs) and Monitoring & Reporting Programs (M&RPs) issued by the Regional Water Quality Control Boards (RWQCB) in accordance with Federal and State

Standards. Prima Deshecha is regulated by the San Diego RWQCB, and the other four landfill sites are regulated by the Santa Ana RWQCB.

B. Scope and Deliverables

The scope and deliverables outlined below for Task C fulfill routine requirements of the M&RPs for the aforementioned five landfill sites, including: compilation and evaluation of water quality monitoring data and preparation and submittal of compliance reports.

For each of the five sites, the M&RPs require the preparation and submittal of various routine compliance reports. The A-E shall prepare the following three types of compliance reports for all five sites by the RWQCB assigned deadlines listed below:

- Semi-Annual Water Quality Monitoring Reports
 - Required semi-annually and due on April 30th and October 31st.
- Annual Summary Report
 - Required annually and due on April 30th.
- Constituents of Concern (COC) Testing Reports
 - Required every five years, with the next submittal due on April 30th, 2026.

The A-E shall prepare these compliance reports in compliance with the sites' current M&RPs and any approved applicable M&RP amendments or supplementary work plans. The A-E shall also prepare these compliance reports in a format similar to previously prepared versions of the same compliance report.

The A-E shall compile and evaluate the following types of water quality monitoring data collected for the five sites from the fourth quarter of 2024 through the third quarter of 2029:

- Groundwater depth measurements shall be used to calculate groundwater elevations and evaluate groundwater flow direction and velocity.
- Laboratory chemical results of organic compounds in groundwater and surface water samples shall be analyzed using the non-statistical analysis method specified in the M&RP to evaluate if a release of organic constituents has occurred in the groundwater or surface water.
- Laboratory chemical results of inorganic constituents (metals surrogates) shall be analyzed using the Shewart-CUSUM or other intra-well statistical analysis methods (using Sanitas® software) to evaluate changes in inorganic groundwater quality. The results of other inorganic constituents (metals and general minerals) shall be plotted on time-series charts and compared to applicable concentration limits.
- If a tentative release is indicated, the A-E shall recommend additional sampling, if needed, for confirmation of the results.
- The field monitoring and laboratory chemical results of gas probe samples shall be analyzed to evaluate whether landfill gas has impacted the vadose zone and the groundwater.

- As applicable, the laboratory chemical results of leachate, condensate, and landfill gas samples shall be documented, as well as any consequential updates made to the monitoring parameters or COC lists.
- As applicable, the volumes of liquids extracted, collected, treated, or disposed shall be reviewed to document the operation of extraction, collection, treatment, and/or disposal systems.
- As applicable, the waste monitoring data shall be documented to evaluate the types and quantities of wastes received at each site and the waste disposal location(s) at each site.
- Any additional monitoring data required by each individual M&RP.

The A-E shall provide an electronic draft copy of each required compliance report to OCWR for review at least two weeks prior to the RWQCB assigned deadline. OCWR staff will provide comments from their review within one week of receiving the draft copy. The final copy of each compliance report shall be certified by a licensed Professional. The final copy shall also be in PDF format with optical character recognition (OCR) applied to make the report easily searchable. The A-E shall provide an electronic final copy of each required compliance report to OCWR by 10:30 a.m. the working day prior to the RWQCB assigned deadline. OCWR staff will be responsible for uploading the final compliance reports to the State Water Resources Control Board's (SWRCB) online data management system (GeoTracker) by the RWQCB assigned deadline. The A-E shall upload the remainder of the required monitoring data (laboratory result EDFs and water level measurements in GEO_WELL format) to GeoTracker within one month of the RWQCB assigned deadline. The A-E shall also provide one hardcopy of each required compliance report within one week of the RWQCB assigned deadline. Periodically, OCWR may request additional hardcopies.
