	Change ZC24-01

#### Explanation:

Exhibit B to Attachment C, at pages 68-129, has been revised as it relates to whether "Single-Family Dwelling or Mobilehome" are allowed uses in R2, R3, and R4 Districts. Table 7-9-32.2 now correctly reflects that "Single-Family Dwelling or Mobilehome" uses are not principal permitted uses in R2, R3, and R4 Districts. Other minor technical edits were made to Exhibit B to Attachment C. Revised pages 68-129 of Exhibit B are attached to this Memo and should replace what was originally provided to the Clerk of The Board.

In addition, Attachment F has been revised to fix typos and delete sections that were not revised. Attachment F should be replaced in its entirety.

# NOW, THEREFORE, THE BOARD OF SUPERVISORS OF THE COUNTY OF ORANGE DOES ORDAIN AS FOLLOWS:

SECTION 1. Section 7-9-22.2 is hereby amended as follows:

#### Sec. 7-9-22.- Organization of the Zoning Code.

#### Sec. 7-9-22.2. - Types of regulations.

Four (4) types of zoning regulations control the use and development property to which this Code applies:

- (a) Land use regulations. These regulations specify land uses permitted, conditionally permitted, or specifically prohibited in each zoning district, and include special requirements, if any, applicable to specific uses. Land use regulations for base zoning districts and for overlay and other districts are in Subarticles 2 and 3 of this Code. Certain regulations, applicable in some or all of the districts, and performance standards which govern special uses, are in Subarticles 4 and 5.
- (b) Development regulations. These regulations control the height, bulk, location, and appearance of structures on development sites. Development regulations for base zoning districts and for overlay and other districts are in Subarticles 2 and 3 respectively of this Code. Development standards and site regulations that apply throughout most or all of the unincorporated area of the county are in Subarticle 4. These include regulations for parking, setbacks, landscaping, and irrigation. Development regulations and procedural requirements applicable to specific uses in some or all districts are in Subarticle 5. These include regulations for accessory uses, signs, antennas, wireless communications facilities, and nonconforming uses.
- (c) Administrative regulations. These regulations in Subarticle 6 of this Code contain detailed procedures for the administration of zoning regulations, and include procedures, processes, and standards for discretionary and ministerial permit applications and other permits.
- (d) *General Terms*. Subarticle 7 provides a list of use classifications and definitions used in the Code. However, definitions contained in specific Zoning Code sections are to be used specifically for those sections.

SECTION 2. Section 7-9-23.3 is hereby amended as follows:

#### Sec. 7-9-23- General rules for construction of language and interpretation.

#### Sec. 7-9-23.3. – Fractions.

Whenever this Code requires consideration of distances, parking spaces, dwelling units, or other aspects of development or the physical environment that are expressed in numerical quantities and the result of a calculation contains a fraction of a whole number, the results shall be rounded as follows:

- (a) *General rounding*. Fractions of one-half (0.5) or greater shall be rounded up to the nearest whole number, and fractions of less than one-half (0.5) shall be rounded down to the nearest whole number, except as otherwise provided.
- (b) *Dwelling unit rounding.* Numerical quantities and the result of a calculation that contain a fraction of a whole number, shall be rounded up to the nearest whole number.

SECTION 3. Section 7-9-25.2 is hereby amended as follows:

#### Sec. 7-9-25. - Zones and districts.

#### Sec. 7-9-25.2. - Establishment of districts and interpretation of district boundaries.

SECTION 8. Section 7-9-33.1 is hereby amended as follows:

### Sec. 7-9-33. - Commercial Districts.

### Sec. 7-9-33.1. Purpose and Intent.

The purpose of the Commercial Districts is to accommodate a range of retail, office and community uses and services to serve surrounding neighborhoods, the larger community, and the region

and are sited at appropriate locations and compatible with surrounding development. Commercial development and other non-residential uses and services shall be sited at locations accessible to all transportation modes where a safe means of travel can be provided to users along the right-of-way. Residential rental projects that are one hundred percent (100%) affordable and emergency shelters, multi-service centers, and low-barrier navigation centers that provide services for persons experiencing homelessness, are also permitted in Commercial Districts, pursuant to section 7-9-44, "Housing Opportunities" Overlay District.

- (a) The C1 "Local Business" District is established to provide for the development and maintenance of medium-intensity commercial uses serving the needs of both the surrounding neighborhood and the local community. All commercial uses and their related products in the C1 districts shall be contained entirely within a completely enclosed structure, except for parking and loading areas, and except for outdoor uses expressly permitted by an approved Site Development Permit or Use Permit.
- (b) The C2 "General Business" District is established to provide for the development and maintenance of high-intensity commercial uses which serve the local community but which may not be compatible with surrounding residential uses or certain commercial uses.
- (c) The CN "Commercial Neighborhood" District is established to provide for the development and maintenance of low-intensity commercial uses which serve the immediate needs of the surrounding neighborhood. Such uses are to be grouped in small areas of three (3) to eight (8) acres and designed so that adverse impacts on residential properties are minimized. Business hours in the CN District shall be limited to the hours between 6:00 a.m. and 10:30 p.m. unless otherwise provided for by a Use Permit approved by the Zoning Administrator. All commercial uses and their related products in the CN district shall be contained entirely within a completely enclosed structure, except for parking and loading areas and except for outdoor uses expressly permitted by an approved Site Development Permit or Use Permit.

SECTION 9. Section 7-9-33.2 is hereby amended as follows:

## Sec. 7-9-33.2. - Land Use Regulations.

Table 7-9-33.2 and section 7-9-33.4, "Supplemental regulations," prescribe the land use regulations for Commercial Districts. The regulations for each district are established by letter designations listed below. These designations apply strictly to the permissibility of land uses; applications for buildings or structures may require discretionary review.

- (a) "P" designates principal permitted uses.
- (b) "SDP" designates uses that are principal permitted uses subject to the approval of a Site Development Permit.
- (c) "UP" designates uses that are principal permitted uses subject to the approval of a Use Permit.
- (d) "#" indicates the use classification shall comply with specific limitations listed at the end of the table.
- (e) "—" designates uses that are not permitted.

(f) "NA" designates development standards that are not applicable.

Land use classifications and definitions are in sections 7-9-134 and 7-9-135. In cases where a specific land use or activity is not defined, the Director shall assign the land use or activity to a classification that is substantially similar in character. Use classifications and sub-classifications not listed in the table or not found to be substantially similar to the uses below shall be prohibited. The table also notes additional use regulations that apply to various uses. Section numbers in the right-hand column refer to other related sections of this Zoning Code.

SECTION 12. Section 7-9-34.1 is hereby amended as follows:

### Sec. 7-9-34. - Employment Districts.

### Sec. 7-9-34.1. - Purpose and Intent.

The Employment Districts are areas intended for use by employment generators, which are usually light and service industries or professional-administrative uses that have few nuisance or hazard problems. The uses shall be compatible with one another and with surrounding development. Locations

shall be transit accessible and provide opportunities for transportation demand management measures to reduce the potential for congestion and facilitate access to transit. Sites shall be designed to promote safe and comfortable travel by pedestrians, bicyclists, and public transportation riders.

(a) The M1 "Light Industrial" District is established to provide for the development and maintenance of light industrial uses and industry-supporting activities. Industrysupporting activities are those activities which tend to promote the vitality of light industrial areas by providing a convenient location for services incidental to the conduct of business of the permitted uses, thus internalizing vehicle trips for such services. Industry-supporting activities are typically those which naturally locate in an industrial area because the principal part of their business activity is derived from such areas. It is intended that these regulations promote the effective operation of light industrial uses by site design and by excluding incompatible uses. It is also intended that potentially significant adverse environmental impacts on the surrounding community be prevented. In those areas of the district where a wide mix of older general retail commercial uses have been established, a secondary intent shall be to support appropriate new uses of high quality over simple consistency with these older, established uses. Residential rental projects that are one hundred percent (100%) affordable and emergency shelters, multi-service centers, and low-barrier navigation centers that provide services for persons experiencing homelessness, are also permitted in the M1 "Light Industrial" District, pursuant to section 7-9-44, "Housing Opportunities" Overlay District.

SECTION 13. Section 7-9-34.2 is hereby amended as follows:

### Sec. 7-9-34. - Employment Districts.

### Sec. 7-9-34.2 - Land Use Regulations.

Table 7-9-34.2 and section 7-9-34.4, "Supplemental regulations," prescribe the land use regulations for the Employment District. #### Sec. 7-9-70.9. - Alternatives to off-street parking regulations.

- (a) *Required Findings for Approval*. In addition to the required findings for approval of any Use Permit in section 7-9-126.2 Required Findings, an application for a Use Permit for a parking reduction shall only be approved if the decision-making body makes all of the findings of this section that are applicable to the particular project, as stated.
  - (1) All Projects. For any project for which a parking reduction is requested, the decisionmaking body make all of the following findings based on information in the record:
    - a. The use will adequately be served by the proposed parking demand requirement as determined in the parking study; and
    - b. If required, a parking study prepared by an independent traffic engineering professional approved by the County supports the proposed reduction.
  - (2) Shared (Joint) Parking. Where a shared parking facility serving more than one use is proposed, a parking study shall be required and the decision-making body shall only approve a parking reduction if it finds that:
    - a. The peak hours of use shall not overlap or coincide to the degree that peak demand for parking spaces from all uses shall be greater than the total supply of spaces;
    - b. The proposed shared parking to be provided shall be adequate to serve each use; and
    - c. A written agreement between landowner(s) and the County, in a form satisfactory to County Counsel, has been submitted to and approved by the Director. This agreement shall be in a form capable of and subject to being recorded to constitute a covenant running with the land and shall include:
      - 1. A guarantee that there shall be no substantial alteration in the uses that will create a greater demand for parking;
      - 2. A guarantee among the landowner(s) for access to and use of the shared parking facilities;
      - 3. A provision that the County may require parking facilities in addition to those originally approved upon a finding that adequate parking to serve the use(s) has not been provided; and
      - 4. A provision stating that the agreement shall not be modified or terminated without the approval of the Director.
  - (3) Other Parking Reductions. Use Permits to the Zoning Administrator for a parking reduction that do not involve a shared parking facility shall be approved by the decision-making body only if a finding can be made that special conditions including, but not limited to, the nature of the proposed operation; proximity to frequent transit service; transportation characteristics of persons residing, working, or visiting the site; or because

the applicant has undertaken a transportation demand management program shall reduce parking demand at the site below the level of the normal requirement.

(b) Monitoring of TDM Programs. Any project that is granted a parking reduction based on measures that intended to reduce parking demand shall submit an Annual Status Report to the County. The report shall be in a manner prescribed by the Director, and shall describe the implementation and maintenance of trip reduction measures and the parking demand generated by the project. Annual Status Reports shall be reviewed to determine if property owners have implemented and/or maintained the trip reduction program. The Director may request auditable documentation to determine compliance.

# RESOLUTION NO. 2024-01 RESOLUTION OF THE PLANNING COMMISSION OF ORANGE COUNTY, CALIFORNIA May 8, 2024

On Motion of Commissioner Bartlett, duly seconded and carried, the following Resolution was adopted:

WHEREAS, the County of Orange is in the process of completing its Housing Element Update for the 6th Housing Element Update Cycle, as mandated by State law; and

WHEREAS, the 6<sup>th</sup> Cycle Housing Element Update (2021-2029) will provide goals, policies, and objectives the County will pursue in order to meet its existing and projected housing needs for the next eight-year planning period, including a land inventory addressing the County's allocation of the Regional Housing Needs Assessment (RHNA) assigned by Southern California Association of Governments (SCAG); and

WHEREAS, the Housing Element Update will specifically (1) analyze existing housing stock, projected housing needs, and availability of housing for special needs groups; (2) provide a Land Inventory (an inventory of land suitable for residential development); (3) identify and analyze potential and actual barriers to the construction of new housing units; and (4) identify specific programs the County will undertake to achieve its stated goals and objectives; and

WHEREAS, the County's Land Inventory must include sites realistically available for housing development during the 6<sup>th</sup> Housing Element Cycle and these sites must be zoned to provide enough density to adequately accommodate the County's RHNA allocation of 10,406 new housing units at all income levels; and

WHEREAS, in the Housing Element, the County must also include a description of the programs it will implement to ensure the housing needs of the unincorporated area will be met during the 6<sup>th</sup> Housing Element Cycle including how the County will facilitate the construction of 10,406 new housing units; and

WHEREAS, one of the programs included in the Housing Element Update is designed to facilitate the development of housing that meets the needs of all segments of the population including affordable housing and households with specialized needs; and

WHEREAS, in the Comprehensive Zoning Code, the County must account for new and updated legal requirements when using non-vacant sites to cover the County's RHNA obligation for all income categories. Specifically, under Government Code Section 65583.2, the County can demonstrate realistic capacity for RHNA purposes by re-zoning or updating development standards to allow for a minimum site density of 30 dwelling units per acre; and

Page 1 of 4

WHEREAS, OC Development Services staff propose amendments to the multifamily site development standards in the County's Comprehensive Zoning Code and rezoning of specific residential professional and commercial parcels to demonstrate realistic capacity to meet the County's RHNA; and

WHEREAS, modifying site development standards of multifamily zoning districts to comply with mandated minimum densities, converting commercial districts to mixed-use, and changing the zoning applied to specific parcels also requires an amendment of the County's Land Use Element to ensure internal consistency; and

WHEREAS, in addition, minor technical revisions to the Comprehensive Zoning Code are proposed; and

WHEREAS, on February 14, 2024, the Planning Commission approved authorization to initiate proposed General Plan Amendment LU 24-01 (Land Use Element), Zoning Code Amendment CA 24-01 (Multifamily development standards), and Zone Change ZC 24-01 (Specific Commercial and Residential Sites) (collectively, the "Amendments"); and

WHEREAS, on April 10, 2024, the Planning Commission conducted a study session to receive a presentation from staff and comments from members of the public concerning the Amendments; and

WHEREAS, on May 8, 2024, the Planning Commission conducted a public hearing regarding proposed the Amendments ; and

#### Sec. 7-9-22.- Organization of the Zoning Code.

#### Sec. 7-9-22.2. - Types of regulations.

Four (4) types of zoning regulations control the use and development property to which this Code applies:

- (a) Land use regulations. These regulations specify land uses permitted, conditionally permitted, or specifically prohibited in each zoning district, and include special requirements, if any, applicable to specific uses. Land use regulations for base zoning districts and for overlay and other districts are in Subarticles 2 and 3 of this Code. ### Sec. 7-9-34. - Employment Districts.

### Sec. 7-9-34.1. - Purpose and Intent.

The Employment Districts are areas intended for use by employment generators, which are usually light and service industries or professional-administrative uses that have few nuisance or hazard

problems. The uses shall be compatible with one another and with surrounding development. Locations shall be transit accessible and provide opportunities for transportation demand management measures to reduce the potential for congestion and facilitate access to transit. Sites shall be designed to promote safe and comfortable travel by pedestrians, bicyclists, and public transportation riders.

- (a) The RP "Residential Professional" District is established to provide for the development and maintenance of moderate density/intensity residential and office uses to produce an integrated mixed-use neighborhood of superior quality. All commercial uses and their related products in the RP district shall be contained entirely within a completely enclosed structure, except for parking and loading areas, and except for outdoor uses expressly permitted by an approved Site Development Permit or Use Permit.
- <u>(a)</u> The M1 "Light Industrial" District is established to provide for the development and maintenance of light industrial uses and industry-supporting activities. Industrysupporting activities are those activities which tend to promote the vitality of light industrial areas by providing a convenient location for services incidental to the conduct of business of the permitted uses, thus internalizing vehicle trips for such services. Industry-supporting activities are typically those which naturally locate in an industrial area because the principal part of their business activity is derived from such areas. It is intended that these regulations promote the effective operation of light industrial uses by site design and by excluding incompatible uses. It is also intended that potentially significant adverse environmental impacts on the surrounding community be prevented. In those areas of the district where a wide mix of older general retail commercial uses have been established, a secondary intent shall be to support appropriate new uses of high quality over simple consistency with these older, established uses. Residential rental projects that are one hundred percent (100%) affordable and emergency shelters, multi-service centers, and low-barrier navigation centers that provide services for persons experiencing homelessness, are also permitted in the M1 "Light Industrial" District, pursuant to section 7-9-44, "Housing Opportunities" Overlay District.

## Sec. 7-9-34.2 - Land Use Regulations.

Table 7-9-34.2 and section 7-9-34.4, "Supplemental regulations," prescribe the land use regulations for the Employment District. The regulations for the district are established by letter designations listed below. These designations apply strictly to the permissibility of land uses; applications for buildings or structures may require discretionary review.

- (a) "P" designates principal permitted uses.
- (b) "SDP" designates uses that are principal permitted uses subject to the approval of a Site Development Permit.
- (c) "UP" designates uses that are principal permitted uses subject to the approval of a Use Permit.
- (d) "#" indicates the use classification shall comply with specific limitations listed at the end of the table.
- (e) "—" designates uses that are not permitted.
- (f) "NA" designates development standards that are not applicable

Land use classifications and definitions are in sections 7-9-134 and 7-9-135. In cases where a specific land use or activity is not defined, the Director shall assign the land use or activity to a classification that is substantially similar in character. Use classifications and sub-classifications not listed in the table or not found to be substantially similar to the uses below shall be prohibited. The table also notes additional use regulations that apply to various uses. Section numbers in the right-hand column refer to other related sections of this Zoning Code.

In the Employment Districts, the following uses are prohibited:

(a) Mining or processing of cement, sand, gravel, clays, and other minerals or earth products.

# Sec. 7-9-70.9. - Alternatives to off-street parking regulations.

- (a) *Required Findings for Approval*. In addition to the required findings for approval of any Use Permit in section <u>7-9-126.2</u> TBD Required Findings, an application for a Use Permit for a parking reduction shall only be approved if the decision-making body makes all of the findings of this section that are applicable to the particular project, as stated.
  - (1) All Projects. For any project for which a parking reduction is requested, the decisionmaking body make all of the following findings based on information in the record:
    - a. The use will adequately be served by the proposed parking demand requirement as determined in the parking study; and
    - b. If required, a parking study prepared by an independent traffic engineering professional approved by the County supports the proposed reduction.
  - (2) Shared (Joint) Parking. Where a shared parking facility serving more than one use is proposed, a parking study shall be required and the decision-making body shall only approve a parking reduction if it finds that:
    - a. The peak hours of use shall not overlap or coincide to the degree that peak demand for parking spaces from all uses shall be greater than the total supply of spaces;
    - b. The proposed shared parking to be provided shall be adequate to serve each use; and
    - c. A written agreement between landowner(s) and the County, in a form satisfactory to County Counsel, has been submitted to and approved by the Director. This agreement shall be in a form capable of and subject to being recorded to constitute a covenant running with the land and shall include:
      - 1. A guarantee that there shall be no substantial alteration in the uses that will create a greater demand for parking;
      - 2. A guarantee among the landowner(s) for access to and use of the shared parking facilities;
      - 3. A provision that the County may require parking facilities in addition to those originally approved upon a finding that adequate parking to serve the use(s) has not been provided; and
      - 4. A provision stating that the agreement shall not be modified or terminated without the approval of the Director.
  - (3) Other Parking Reductions. Use Permits to the Zoning Administrator for a parking reduction that do not involve a shared parking facility shall be approved by the decision-making body only if a finding can be made that special conditions including, but not limited to, the nature of the proposed operation; proximity to frequent transit service; transportation characteristics of persons residing, working, or visiting the site; or because the applicant has undertaken a transportation demand management program shall reduce parking demand at the site below the level of the normal requirement.

(b) Monitoring of TDM Programs. Any project that is granted a parking reduction based on measures that intended to reduce parking demand shall submit an Annual Status Report to the County. The report shall be in a manner prescribed by the Director, and shall describe the implementation and maintenance of trip reduction measures and the parking demand generated by the project. Annual Status Reports shall be reviewed to determine if property owners have implemented and/or maintained the trip reduction program. The Director may request auditable documentation to determine compliance.

#### Sec. 7-9-87.4. - Procedure.

A request for density bonus or other incentives pursuant to State Density Bonus Law shall be processed as part of an application in compliance with and subject to the provisions and requirements of section 7-9-125. No additional discretionary approval shall be required as a result of a request for or the granting of a density bonus or other incentive that is available pursuant to current State Density Bonus Law.

- (a) Required findings. A request for density bonus or other incentives that is consistent with the provisions of State density bonus law shall be approved unless one (1) of the following findings is made based on substantial information in the record:
  - (1) A density bonus has been approved as part of a previous project approval on the same site and that project is still in place.
  - (2) The requested density bonus or incentive is not required to provide affordable or senior citizen housing as defined in Civil Code Sections 51.3 and 51.12, as may be amended.
  - (3) The incentive would have a specific adverse impact, as defined in California Government Code Section 65589.5, as may be amended, upon public health and safety or the physical environment or on any real property that is listed in the California Register of Historical Resources and for which there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact without rendering the development unaffordable to low and moderate-income households.
  - (4) The incentive would be contrary to State or Federal law.

(f) Parking.

The developer may request to utilize the parking requirements set forth in State Density Bonus Law or the County's residential off-street parking requirements for affordable housing projects.
