ARTICLES

I. General Terms and Conditions:

A. **Governing Law and Venue:** This Contract has been negotiated and executed in the state of California and shall be governed by and construed under the laws of the state of California. In the event of any legal action to enforce or interpret this Contract, the sole and exclusive venue shall be a court of competent jurisdiction located in Orange County, California, and the parties hereto agree to and do hereby submit to the jurisdiction of such court, notwithstanding Code of Civil Procedure

Section 394. Furthermore, the parties specifically agree to waive any and all rights to request that an action be transferred for adjudication to another county.

B. **Entire Contract:** This Contract contains the entire Contract between the parties with respect to the matters herein, and there are no restrictions, promises, warranties or undertakings other than those set forth herein or referred to herein. No exceptions, alternatives, substitutes or revisions are valid or binding on County unless authorized by County in writing. Electronic acceptance of any additional terms, conditions or supplemental Contracts by any County employee or agent, including but not limited to installers of software, shall not be valid or binding on County unless accepted in writing by County's Purchasing Agent or designee.

C. **Amendments:** No alteration or variation of the terms of this Contract shall be valid unless made in writing and signed by the parties; no oral understanding or agreement not incorporated herein shall be binding on either of the parties; and no exceptions, alternatives, substitutes or revisions are valid or binding on County unless authorized by County in writing.

D. **Taxes:** Unless otherwise provided herein or by law, price quoted does not include California state sales or use tax. Out-of-state Contractors shall indicate California Board of Equalization permit number and sales permit number on invoices, if California sales tax is added and collectable. If no permit numbers are shown, sales tax will be deducted from payment. The Auditor-Controller will then pay use tax directly to the State of California in lieu of payment of sales tax to Contractor.

E. **Delivery:** Time of delivery of commodities and services is of the essence in this Contract. County reserves the right to refuse any commodities and services and to cancel all or any part of the commodities not conforming to applicable specifications, drawings, samples or descriptions or services that do not conform to the prescribed scope of work. Acceptance of any part of the order for commodities shall not bind County to accept future shipments nor deprive it of the right to return commodities already accepted at Contractor's expense. Over shipments and under shipments of commodities shall be only as agreed to in writing by County. Delivery shall not be deemed to be complete until all commodities or services have actually been received and accepted in writing by County.

F. **Acceptance Payment:** Unless otherwise agreed to in writing by County, 1) acceptance shall not be deemed complete unless in writing and until all the commodities/services have actually been received, inspected, and tested to the satisfaction of County, and 2) payment shall be made in arrears after satisfactory acceptance.

G. **Warranty:** Contractor expressly warrants that the commodities covered by this Contract are 1) free of liens or encumbrances, 2) merchantable and good for the ordinary purposes for which they are used, and 3) fit for the particular purpose for which they are intended. Acceptance of this order shall constitute an agreement upon Contractor's part to indemnify, defend and hold County and its indemnities as identified in paragraph "Z" below, and as more fully described in paragraph "Z," harmless from liability, loss, damage and expense, including reasonable counsel fees, incurred or sustained by County by reason of the failure of the commodities/services to conform to such warranties, faulty work performance, negligent or unlawful acts, and non-compliance with any applicable state or federal codes, ordinances, orders, or statutes, including the Occupational Safety and Health Act (OSHA) and the California Industrial Safety Act. Such remedies shall be in addition to any other remedies provided by law.

H. **Patent/Copyright Materials/Proprietary Infringement:** Unless otherwise expressly provided in this Contract, Contractor shall be solely responsible for clearing the right to use any patented or copyrighted materials in the performance of this Contract. Contractor warrants that any software as modified through services provided hereunder will not infringe upon or violate any patent,

DocuSign Envelope ID: D58700D4-665F-4437-89E7-C5C0F039B6A2

proprietary right, or trade secret right of any third party. Contractor agrees that, in accordance with the more specific requirement contained in paragraph "Z" below, it shall indemnify, defend and hold County and County Indemnitees harmless from any and all such claims and be responsible for payment of all costs, damages, penalties and expenses related to or arising from such claim(s), including, costs and expenses but not including attorney's fees.

I. **Assignment:** The terms, covenants, and conditions contained herein shall apply to and bind the heirs, successors, executors, administrators and assigns of the parties. Furthermore, neither the performance of this Contract nor any portion thereof may be assigned by Contractor without the express written consent of County. Any attempt by Contractor to assign the performance or any portion thereof of this Contract without the express written consent of County shall be invalid and shall constitute a breach of this Contract.

J. **Non-Discrimination:** In the performance of this Contract, Contractor agrees that it will comply with the requirements of Section 1735 of the California Labor Code and not engage nor permit any subcontractors to engage in discrimination in employment of persons because of the race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, or sex of such persons. Contractor acknowledges that a violation of this provision shall subject Contractor to penalties pursuant to Section 1741 of the California Labor Code.

K. **Termination:** In addition to any other remedies or rights it may have by law, County has the right to immediately terminate this Contract without penalty for cause or after 30 days' written notice without cause, unless otherwise specified. Cause shall be defined as any material breach of contract, any misrepresentation or fraud on the part of Contractor. Exercise by County of its right to terminate Contract shall relieve County of all further obligation.

L. **Consent to Breach Not Waiver:** No term or provision of this Contract shall be deemed waived and no breach excused, unless such waiver or consent shall be in writing and signed by the party claimed to have waived or consented. Any consent by any party to, or waiver of, a breach by the other, whether express or implied, shall not constitute consent to, waiver of, or excuse for any other different or subsequent breach.

M. **Independent Contractor:** Contractor shall be considered an independent contractor and neither Contractor, its employees, nor anyone working under Contractor shall be considered an agent or an employee of County. Neither Contractor, its employees nor anyone working under Contractor shall qualify for workers' compensation or other fringe benefits of any kind through County.

N. **Performance Warranty:** Contractor shall warrant all work under this Contract, taking necessary steps and precautions to perform the work to County's satisfaction**.** Contractor shall be responsible for the professional quality, technical assurance, timely completion and coordination of all documentation and other commodities/services furnished by Contractor under this Contract. Contractor shall perform all work diligently, carefully, and in a good and workmanlike manner; shall furnish all necessary labor, supervision, machinery, equipment, materials, and supplies, shall at its sole expense obtain and maintain all permits and licenses required by public authorities, including those of County required in its governmental capacity, in connection with performance of the work. If permitted to subcontract, Contractor shall be fully responsible for all work performed by subcontractors.

O. **Insurance:** Prior to the provision of services under this contract, Contractor agrees to purchase all required insurance at Contractor's expense, including all endorsements required herein, necessary to satisfy County that the insurance provisions of this contract have been complied with. Contractor agrees to keep such insurance coverage, Certificates of Insurance, and endorsements on deposit with County during the entire term of this contract. Contractor shall ensure that all subcontractors performing work on behalf of Contractor pursuant to this contract shall be covered under Contractor's insurance as an Additional Insured or maintain insurance subject to the same terms and conditions as set forth herein for Contractor. Contractor shall not allow subcontractors to work if subcontractors have less than the level of coverage required by County from Contractor under this contract. It is the obligation of Contractor to provide notice of the insurance requirements to every subcontractor, and to receive proof of insurance prior to allowing any subcontractor to begin work. Such proof of insurance must be maintained by Contractor through the entirety of this contract for inspection by County representative(s) at any reasonable time.

All self-insured retentions (SIRs) shall be clearly stated on the Certificate of Insurance. Any self-insured retention (SIR) in an amount in excess of Fifty Thousand Dollars ($50,000) shall specifically be approved by County's Risk Manager, or designee, upon review of Contractor's current audited financial report. If Contractor's SIR is approved, Contractor, in addition to, and without limitation of, any other indemnity provision(s) in this Contract, agrees to all of the following:

1. In addition to the duty to indemnify and hold County harmless against any and all liability, claim, demand or suit resulting from Contractor's, its agents, employee's or subcontractor's performance of this Contract, Contractor shall defend County at its sole cost and expense with counsel approved by Board of Supervisors against same; and

2. Contractor's duty to defend, as stated above, shall be absolute and irrespective of any duty to indemnify or hold harmless; and

3. The provisions of California Civil Code Section 2860 shall apply to any and all actions to which the duty to defend stated above applies, and Contractor's SIR provision shall be interpreted as though Contractor was an insurer and County was the insured.

If Contractor fails to maintain insurance acceptable to County for the full term of this contract, County may terminate this contract.

The procuring of such required policy or policies of insurance shall not be construed to limit Contractor's liability hereunder nor to fulfill the indemnification provisions and requirements of this contract, nor act in any way to reduce the policy coverage and limits available from the insurer.

P. **Changes:** Contractor shall make no changes in the work or perform any additional work without County's specific written approval.

Q. **Change of Ownership/Name, Litigation Status, Conflicts with County Interests:** Contractor agrees that if there is a change or transfer in ownership of Contractor's business prior to completion of this Contract, and County agrees to an assignment of Contract, the new owners shall be required under the terms of sale or other instruments of transfer to assume Contractor's duties and obligations contained in this Contract and complete them to the satisfaction of County.

Failure to so include this clause voids the Contract's extension to a Cooperative Program and will be considered a material breach of this Contract and grounds for immediate Contract termination. The cooperative entities are responsible for obtaining all certificates of insurance and bonds required. The County of Orange makes no guarantee of usage by other users of this Contract.

As a cost-recovery mechanism for County, a 2 percent administrative rebate on total sales from all subordinate contracts will be paid to the County for any contracts the Contractor agrees to enter into with another agency or entity, other than the County of Orange or a department thereof, under the provisions and pricing of this Contract. The County has partnered with Pavilion, a third-party administrator, responsible for managing all reporting and payments under this Cooperative Program. The Contractor shall provide quarterly Volume Sales Reports about additional sales to other entities under the provisions and pricing of this Contract. The Reports shall include the ordering agency, detail of items sold including description, quantity, and price, and shall include all transactions pertaining to sales under the Contract provisions and pricing for that Reporting Period. Contractor shall provide the Volume Sales Reports regardless of whether or not any sales have been conducted. Failure of the Contractor to provide quarterly reports as required may be deemed by the County as a material breach of the Contract. A late penalty of 15 percent on the value of the rebate may be assessed to the Contractor for each month the payments are not received.

Subordinate contracts must be executed prior to the expiration or earlier termination of this Contract and may survive the expiration of this Contract. This Cooperative Contract provision shall survive expiration or termination of this Contract.

The price paid by County shall be the prevailing market price at the time such purchase is made. This is in addition to any other remedies available under this Contract and under law.

15. **Disputes – Contract:**

Pending the final resolution of any dispute arising under, related to, or involving this Contract, Contractor agrees to diligently proceed with the performance of this Contract, including the delivery of commodities and/or provision of services. Contractor's failure to diligently proceed shall be considered a material breach of this Contract.

Any final decision of County shall be expressly identified as such, shall be in writing, and shall be signed by County Deputy Purchasing Agent or his designee. If County fails to render a decision within 90 days after receipt of Contractor's demand, it shall be deemed a final decision adverse to Contractor's contentions. B. General Pruning Requirements:

1. Unless otherwise directed by the County the “Full Prune” category described in Section C. shall be the standard for all pruning performed under this contract.

2. Trees shall be pruned to prevent branch and foliage interference with safe public passage, generally 8 feet for pedestrian access and 14 feet above roads. Exceptions are allowed for young trees, which would be irreparably damaged by such pruning action.

3. Selectively prune branches that create sight line conflicts with traffic control signs and/or devices.

4. Selectively prune branches that are within five feet of a structure.

5. Clear trees of sprout or sucker growth to a minimum height of ten feet above ground level. Exceptions are allowed for young trees, which would be irreparably damaged by such pruning action.

6. Prune to maintain a balanced appearance.

7. Remove all vines, mistletoe and other parasitic plants growing in trees and on tree trunks. These plants shall be removed without injury to trees.

9. Tools used on a tree known or suspected to contain an infectious tree disease shall be properly disinfected immediately before and after completing work on such tree.

10. Tools and saws used in tree pruning shall be kept sharpened to result in final cuts with a clean, smooth wood surface and secure bark remaining intact.

11. Trees six inches in diameter or less shall be pruned with hand tools only.

12. Tree limbs two inches in diameter or less shall be pruned with hand tools only.

13. Climbing spurs or spike shoes in the act of pruning trees is prohibited, unless specifically directed by County to aid in the safety of climbers performing the removal of a tree.

C. Full Prune:

1. Unless otherwise directed by the County "Full Prune" shall be the standard for all pruning.

2. A Full Prune is performed when conditions within the crown of a hardwood tree are such that the entire tree needs to be fully pruned.

3. Complete pruning is recommended when the primary objective is to maintain or improve tree health and structure and includes pruning to reduce overall canopy mass and excessive wood weight.

4. A Full Prune typically consists of <u>one or more</u> of the following pruning treatments:

   a. Crown Cleaning: Removal of dead, diseased, crowded, weakly attached and low-vigor branches and water sprouts from the entirety of the tree crown. Care must be used to avoid stripping branches of all foliage at the interior of the tree crown.

   b. Crown Thinning: Includes crown cleaning and the selective removal of branches to increase light penetration and air movement into and through the crown. Care must be used to avoid stripping branches of all foliage at the interior of the tree crown. When thinning the crown of mature trees, up to 25 percent of the live foliage may be removed unless directed otherwise by the County.

   c. Crown Reduction: Used to reduce the height and/or spread of a tree. Crown reduction varies from topping, a destructive practice, in that cuts are not made indiscriminately, resulting in large stubbed off limbs that are subject to decay. While reducing a crown, tree workers must adhere to basic tree trimming practices involving limb/branch size relationships and use of the branch bark collar in avoiding the onset of decay at cut sites.

   d. Crown Restoration: Corrective pruning used to restore the form of crowns that have been previously damaged by topping or other extenuating circumstances.

D. Crown Raising/Clearance Prune:

1. A crown raising or clearance prune does not involve the detail of work found in a full prune.

2. Crown Raising: Consists of removing the lower branches of a tree in order to provide clearance for buildings, vehicles and pedestrians. It is important that a tree have at least one-

DocuSign Envelope ID: D58700D4-665F-4437-89E7-C5C0F039B6A2

half (½) of its foliage on branches that originate in the lower two-thirds (⅔) of its crown to ensure a well-formed, tapered structure and to uniformly distribute stress within the tree.

3. Clearance Prune: Employed as a means of eliminating limbs from the crown of a hardwood tree when an entire pruning of the tree is not warranted.

4. Removal of hanging and down limbs are included in this line item.

E. Specific Pruning Requirements for Conifers and Broadleaf Trees:

1. General Trimming and Shaping of Conifers:

a. Two basic classes of conifers can be found in County facilities, those with branches radiating out from the trunk in whorls such as Pine trees or Cedar trees and those that sprout branches in a random manner such as Juniper or Taxus.

b. Typically, up to 25 percent of the live foliage may be removed unless directed otherwise by the County.

c. Contractor shall avoid damaging the central leader on all conifers. In specific cases the County may direct the Contractor to remove the central leader in an effort to limit the height of specific trees.

d. At the time of pruning, the County shall determine which trees shall have the new growth pinched back in an effort to control canopy size.

e. To control the growth of large, mature conifers Contractor shall be required to prune the new growth of lateral limbs.

f. Typical pruning of conifers shall generally consist of removing crossed limbs, deadwood or unwanted branches from the interior of the canopy.

2. General Trimming and Shaping of Broadleaf Trees:

a. Follow the shape indicated by the natural growth habits of each tree species.

b. Cut to laterals to preserve the natural form of the tree, leaving the head open enough for the branching system to show and permitting the dead material to be easily cleaned out and light to show through the head.

c. Tree foliage may be reduced by up to thirty (30) percent.

d. Trim to remove dead wood or weak, diseased, insect-infested, broken, low, or crossing limbs. Branches with an extremely narrow angle of attachment should normally be removed.

e. Small limbs, including suckers and waterspouts, shall be cut close to the trunk or branch from which they arise.

f. Heading cuts and/or topping will not be allowed under any circumstances.

g. Heading, rounding over, or stubbing shall not be an accepted practice for reducing the size or the framework of any tree.

2. Non-Canary Island Date Palms shall be trimmed using sanitized equipment before and after the equipment is used to cut the fronds of any other palm tree.

3. Canary Island Date Palms (*Phoenix canariensis*) shall be trimmed using a new handsaw blade. This is to prevent the spread of fusarium. The Contractor may use a sanitized chainsaw in forming and/or shaping the pineapple of the Canary Island Date Palm.

4. Except for date palms, fronds shall be pruned to an angle of 45 degrees or 10 & 2.

5. Date Palm fronds shall be pruned to an angle of 90 degrees or 9 & 3

4. Contractor will ensure they are removing the correct tree; errant removal of trees shall be penalized.

5. Contractor shall maintain control of the tree and its parts at all times. At no time shall branches, limbs or tree trunks be allowed to freefall and create damage of any type. Loss of control incidents shall be penalized.

6. Stumps including root flare shall be ground to a depth of no less than eighteen (18) inches. Surface roots shall be traced and ground to a depth of no less than eight inches.

7. Debris generated by stump grinding and root removal shall be removed from the site and replaced with a topsoil mix. Chips and stump grinding shall not be used as a backfill material. If stump grinding takes place in turfgrass, grass seed will be incorporated into the topsoil either of the existing species or if unknown annual ryegrass.

8. If stump grinding does not follow within same work day as removal, tree trunk shall be left five (5) feet above grade until stump grinding is complete.

9. Stumps to be left in place shall be cut at three (3) feet above grade.

Root pruning cuts shall be four (4) inches wide, sixteen (16) deep as measured from top of sidewalk, curb or adjacent improvement and extend eight (8) feet in each direction from centerline of tree (sixteen (16) feet total length).

2. Root pruning equipment shall be specifically designed for this purpose with cutting teeth sharpened adequately to sever roots in a clean manner and equipped with padded tracks or rubber tires to prevent scraping or marking of sidewalks.

3. All cuts shall be backfilled immediately upon completion of root pruning at each location. Backfill material shall consist of dirt and/or mulch from root pruning and shall be free from rocks. All debris generated by these operations will be immediately removed from site and properly disposed of outside right-of-way.

4. Contractor shall repair or replace all utility service connections, sprinkler systems and any other assets which are damaged or removed as a result of root pruning operations. Repairs shall be implemented immediately and completed by end of next working day. Repairs and replacements will be equal to existing improvement and shall match them in finish, dimensions and manufacturer.

5. Root barriers will be installed only at County request.

I. Hourly Work/Crew Rental:

1. County may request Contractor to perform tree and/or vegetation operations outside of scope of previously listed work items. Contractor shall furnish a crew with equipment necessary to perform the requested work.

2. County shall determine if crew rental charges are justified and will provide Contractor with written approval.

3. Line item pricing shall not apply or be “stacked” with hourly charges.

J. Tree Pest Treatment:

1. Contractor shall have an “in-house” CDPR Qualified Applicator apply pesticides in accordance with the recommendations from the “in-house” CDPR Agricultural Pest Control Adviser (PCA) and applicable product labels, Federal, State and local regulations.

2. Applications will be made by soil injection, trunk injection or spray as requested by the County. OC Parks’ favored method of application is sub-surface soil injection (not drench).

3. All drills, tools and equipment used for trunk injection shall be sanitized between each individual hole or injection point.

4. Emamectin benzoate application rate shall be 6ml per diameter inch at breast height. All other treatment application rates shall use the high rate as listed per label unless otherwise requested by OC Parks.

In difficult sites or conditions, a 3 stake method can be used following the same guidelines noted above.

b. The stakes shall be installed an equal distance from the trunk of the tree and shall be installed perpendicular to the street or sidewalk and shall be installed so that one stake is orientated to be one hundred eighty degrees opposite the other.
