* OCFA entered into a cost share agreement with the United States Forest Service (USFS), the State of California Department of Forestry and Fire Protection (Cal Fire), and the Riverside County Fire Department for costs related to this incident. Because they are a separate government entity, no additional information is included here; it can be obtained through a request to OCFA.

The County continues to facilitate the submission of County costs and supporting documentation to the Cal OES Recovery Unit in pursuit of FMAG-alternative funding through the California Disaster Assistance Act or Federal Emergency Management Agency Public Assistance. No eligibility determination has been made at the time of this status report submission.

Recovery Efforts

Phase 1 (Hazardous Debris Removal): Completed; no change from previous report.

Phase 1.5 (Watershed Protection): Completed; no change from previous report.

Phase 2 (Private Property Debris Removal [PPDR]): Direct assistance was not available through Cal OES so the County has proceeded with County resources, including contractors and coordinating with volunteer organizations. Below please find an update as of August 8, 2025.

- **OC Debris Removal**
 - Long Canyon debris removal has been completed. Confirmation soil sampling will be completed this week with lab results in approximately 2 weeks. Final site walks and sign-off forms will be completed after receipt of official soil confirmation results.
 - Holy Jim debris removal is pending P5 Permits. The contractor will apply for P5 permits next week with a tentative start date for debris removal in week of 8/18/25, with work estimated to be completed within 10-12 working days.
 - El Cariso debris removal completed early on 7/31/25. Final soil sampling has been initiated and results are pending.
- **Riverside County (RC) Debris Removal**
 - Remaining homeowner pre-job property walkthroughs are ongoing.
 - Contractor has fully assessed 127 parcels with varying states of site conditions.
 - Ongoing debris removal of some properties continues with a tentative completion date for the Riverside County properties set late November 2025.
- **Trabuco Creek Road**
 - The road is closed to the public; it is accessible to maintenance, emergency, and owners only.
 - Forestry cabins and trails continue to be closed.
 - Additional erosion control measures are being deployed throughout site.
 - OCPW staff continues to explore options for final disposition of Trabuco Creek Road.

Post Fire Debris Flow Planning

Watershed Emergency Response Team Report (WERT; private lands)

CalFire and the California Geological Survey published the Watershed Emergency Response Team (WERT) 2024 Airport Fire (CA-ORC-127883) on October 25, 2024. This report presents the results of a rapid evaluation of post fire geologic and hydrologic hazards to life-safety and property (i.e., collectively known as “Values-at-Risk” or “VARs”) for private lands affected by the Airport Fire. These threats can include flooding, debris flows, erosions, and other hazards. The report includes preliminary emergency protective measures needed to avoid or minimize threats to life-safety and property. The full report is available to the public at:
