Customer: John Wayne Airport (JWA)
Project Name: BHS Controls Service & Support
Proposal Type: Budgetary Pricing
Location: SNA Airport, Santa Ana, CA

Dear Sir or Madam,

Oshkosh AeroTech is pleased to submit a budgetary proposal for Brock Solutions Service & Support for a three-year extension on the existing Operations and Maintenance. This supplemental three-year period would begin on January 13, 2025 and end on January 13, 2028.

This proposal is based upon pricing received from Brock Solutions on October 24, 2022 during the upgrade proposal for the Upper-Level Controls of Terminals A/B/C at John Wayne Airport (BH1157 - SNA Terminal A-B-C Upper Level Replacement_rev11) and includes the following scope of work:

Scope of Work

The basic Scope of Work includes the following items:

- Basic Service and Support Administration (including monthly Microsoft Patches, cybersecurity testing & remediation and quarterly remote health checks on associated BHS equipment)
- Veeam Disaster Recovery (configuration and licensing of existing BHS equipment)
- SentinelOne Antivirus (configuration, licensing and updates on existing BHS equipment) – up to 54 licenses
- Third-party software patching (monthly basis)

Fixed price portion: \$1,140,840.

The three-year fixed-price portion is broken-down per year as:

- Year 1: \$371,309.
- Year 2: \$361,469.
- Year 3: \$408,062.

Hourly Rate Portion:

For each service ticket or support request created, hourly fees will be assessed for each type of service:

- Emergency Support: \$220/hour
- System Enhancements: \$176/hour

Minimum billable time per call is 30 minutes. If travel is required, expenses will be billed at cost + 15% (per Brock Solutions' proposal). Costs will be determined based on a combination of a per diem allowance for meals and actual receipts for all other expenses. Materials will be billed at cost + 15% (per Brock Solutions' proposal). JWA Management approval will be obtained prior to initiating support or upgrade site travel.

Optional:

Operating System & Software Revision Updates

In order to keep the operating systems up to date for a five-year period and third-party software within two major revisions (within 13 months of initial release), we anticipate at least one software upgrade will be necessary due to a scheduled mainstream end-date of Microsoft Server 2022 on October 13, 2026. Due to inflation and unexpected future costs, we cannot provide a firm price at this time for an anticipated future upgrade. We would expect a future budgetary single software upgrade to cost at approximately \$1,550,000 (if a hardware refresh is elected at this time, the hardware cost would be approximately \$525,000).* This option requires a written agreement between both parties.

Clarifications/Exclusions

- 1) This proposal from Oshkosh AeroTech is based on the terms and conditions of the Master Service Agreement (MA-280-19010940) and the associated change-orders approved to date.
- 2) This proposal is based on US Dollars. Taxes have not been included. All costs incurred are billable via the Oshkosh Master Service agreement based on a mark-up of 10%.
- 3) Monthly progress billing will be submitted in accordance with a mutually agreed upon Schedule of Values. All invoices are net 30 days.
- 4) Scope of based upon Upper-Level Controls and associated equipment installed as a part of BH1157 completed in June 2024. Any supplemental equipment or equipment added by another contractor is not supported under this proposal.
- 5) This proposal is limited to documents the Scope of Work (above). Any work that Oshkosh AeroTech is requested or directed to perform that is considered outside of its base contract requirements will require a fully executed Change Order for a mutually agreed upon lump sum price, or written agreement to proceed on a price and proceed or time & material basis.
- 6) All service and support charges will be invoiced on a monthly basis. Due to the implementation date of the support contract with Brock Solutions starting on July 1, 2024, the fixed portion of the support costs are not equal per month and cannot be divided by twelve months to obtain a monthly cost.

Thank you for the opportunity to bid on this project and I look forward to hearing from you soon.

Sincerely,

Ryan Pulis
