

Here we believe HOUSING is a HUMAN RIGHT

Shelters Are Not Homes

Everyone Deserves A Home

"Housing First" Works

Homes End Homelessness

Housing Builds Community

Housing Is Healthcare

Housing Saves Lives

FROM:

[REDACTED]

Considering the severe upcoming Federal budget cuts and their direct impact on State pass-through grants/funding, I urgently request the board in all upcoming budget work to immediately commit to increasing the use of discretionary funds for Housing First (housing), Healthcare, and Community Services to fill imminent and life-threatening gaps. This would require a significant redirect of Discretionary Fund money away from Public Protection.

To meet funding needs, I urge you and ALL the supervisors to prioritize, fund, and implement the Housing First strategy by:

- Substantially increasing the use of discretionary funds (Net County Cost) for Housing First (housing), Healthcare, and Community Services.
- Agendizing and voting to place a housing bond or tax measure on the ballot.
- Being proactive and a better financial partner with cities in your district(s) to create critically needed housing for the unhoused and housing insecure throughout the county.

I demand the Supervisors immediately implement virtual real-time public access for all county meetings.

The public has a right to participate!
