Subject: Item S28D

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

I am writing in support of the resolution against any offshore drilling along the Orange County coast as well as the entire Pacific coast.

Not only would inevitable spills affect our beautiful protected ocean and coastline and shoreline, but tourism, commercial fishing, and the general health of our coastal economies would be adversely affected for generations

As I live just a mile from the cliff above the ocean, any degradation of the quality of our coastal shoreline and waters would adversely impact my property values. Spills would affect property values disastrously.

Just a couple years ago that spill closed the Orange County beaches and cost a lot of money in protecting the coast as the spill moved with the currents.

Living near the sea is expensive but totally worth it for me personally. I swim in the ocean as many months of the year as possible and watch the sun sink into the sea or behind Catalina Island whenever the fog lifts.

Thank you,
Lisa Black
