Grants Report

County Executive Office/Legislative Affairs

January 28, 2014

Item No. XX

Vol. XIII, No. 2

County of Orange Report on Grant Applications/Awards

The Grants Report is a condensed list of grant requests by County Agencies/Departments that allows the Board of Supervisors to discuss and approve grant submittals in one motion at a Board meeting. County policy dictates that the Board of Supervisors must approve all grant applications prior to submittal to the grantor. This applies to grants of all amounts, as well as to new grants and those that have been received by the County for many years as part of an ongoing grant. Receipt of grants under \$50,000 is delegated to the County Executive Officer. Grant awards greater than \$50,000 must be presented to the Board of Supervisors for receipt of funds. This report allows for better tracking of county grant requests, the success rate of our grants, and monitoring of County's grants activities. It also serves to inform Orange County's Sacramento and Washington, D.C. advocates of County grant activities involving the State or Federal Governments.

On January 28, 2014, the Board of Supervisors will consider the following actions:

Awarded Funding Amount:*	\$200,000				
Notification Date of Funding Award:*	October 3, 2013				
Is this a Retroactive Application? (If yes, explain why)					
No.					
What Type of Grant is this?	Competitive	X	Other Type		Explain:
Grant Background Information:	Provide background information on the grant application purpose, including, but not limited to, date Agency/Department received grant application materials, date of the anticipated grant award notification, and amount of grant funding being requested.				
The Southern California Association of Governments (SCAG) announced on April 4, 2013 that its Sustainability Program is making available a new "local assistance planning program" that would provide jurisdictions from between \$20,000 to \$200,000 in value of consultant services. Jurisdictions were required to submit an application and be selected through a competitive process to receive this assistance. If selected, SCAG through its procurement process will issue an RFP and hire a consultant, who will work directly with (and under direction of) project sponsor. SCAG will be responsible for contract administration and will make the progress payments. This application was approved by the Board on June 18, 2013.					
<u>Recurrence of Grant</u>	New	X	Recurrent		
Explain: SCAG has established a Sustainability Program and new Local Assistance Program.					
<u>Purpose of Grant Funds:</u>	Provide a brief summary of the services that will be provided through this grant.				
Update of the County's Zoning Code to incorporate sustainable policies and practices.					
<u>Impact on County:</u>	Provide information regarding the impact of the grant on the County. Specific information should include:				
<i>Operations:</i>	Briefly describe how the department will provide the grant funded services. Include how many new positions will be necessary, if any.				

County staff would act as Project Manager and manage consultant staff. No new positions will be necessary.	
Costs:	Identify the amount of any County match that will be required under the grant. If there is a required County match, indicate if this amount is already included in the Agency/Department budget.
No match is required. County staff time will be necessary to manage the project.	
Collaboration:	Identify if the grant funded services involve collaboration with other County Agency/Departments. If yes, describe the potential impact on the other Agency/Departments, and indicate if this grant application has been coordinated with the impacted Agency/Departments.
Other County departments will be asked to review and comment on proposed revisions. Would not result in a significant impact.	
<u>Special Instructions</u>	Include requirement for a Board Resolution or authorization to accept the grant award without further Board action. Provide language for Resolution, and the name of County Counsel staff who reviewed the language/ *or County Counsel who have reviewed other documents. Please specify.
<u>How did you learn about this grant?</u>	SCAG staff provided information and handouts at the Orange County Council of Governments (OCCOG) Technical Advisory Committee meeting.

Ruby Maldonado 714-667-8855, ruby.maldonado@ocpw.ocgov.com	
Grant Award Information:^{*i}	<p>On October 3, 2013, SCAG informed the County that OC Public Works/OC Planning Services had been awarded a Sustainability Program grant valued at approximately \$200,000. This will be a one-time grant to complete an update to the County's Zoning Code. SCAG will manage the consultant selection process, award contract, manage the contract, and -make progress payments. OC Planning Services will manage the project and supervise the consultant work. The consultant selection process is expected to begin in February 2014 and the project will begin in June or July 2014. The project is expected to take approximately 12 months to complete.</p> <p>This grant will be used to update and "green" the County's Zoning Code. The regulations and practices in the current version of the Zoning Code do not reflect sustainable practices or current best management practices (BMPs), nor do they allow for technological advances. For example, State-issued water quality permits require the use of BMPs that facilitate infiltration on a site. However, not every type of commonly used infiltration BMP</p>

	<p>could be implemented on the site under current Zoning Code regulations. Applying the current Zoning Code requirements would make it difficult for an applicant to comply with this permit requirement. To address these inconsistencies, OC Planning is currently undergoing an update to its General Plan to incorporate watershed protection policies and is planning to do the same to the County's Zoning Code. Assistance from SCAG would allow OC Planning to update the entire Zoning Code to not only address water quality issues but also incorporate sustainable practices related to land use, public health, active transportation, energy efficiency, and conservation.</p>
