Orange County Supervisors

Dear Orange County Supervisors,

Hello, my name is Lynda Crawford Schultz. I was born in Southern California and have remained here for 76 years. I have witnessed homeless citizens and tax payer's frustrations swell in numbers.

Over the years, discussions regarding the homeless with my four children occurred often. In October 2014, I decided to walk the walk and stop the talk. As a fortunate retiree, I began my three year odyssey to investigate and inspect the situation first hand, **as a homeless person.**

One of my "client's", (homeless lady) told me she read in the library, "not all crazy people become homeless-however, most homeless people become crazy."

I began a Q and A survey to solve the riddle. The overwhelming consensus was the lack of proper nutrition, sanitation, human contact, peace and quiet, a good night's sleep, and of course drugs and alcohol complete the recipe. My plan of attack then emerged.

Enclosed, please find my outlined proposal and prototype diagram plan.

I would like to meet face-to-face to discuss the proposal, requested land, and for any questions you may have, after the summer vacations . The restrictive 3 minutes during a board of Supervisors Meeting is neither conducive or appropriate.

I would like to give a special recognition to Walmart and McDonalds who open their hearts and doors to the homeless. A special nod to the Orange Police dept.,it's officers, and the Heart Division.

In kind regards,

Lynda Crawford Schultz

PROPOSAL

ELIMINATE HOMELESSNESS IN ORANGE COUNTY

Objective

A solution to help eliminate homelessness in Orange County.

Goals

Lessen the strain and costs of tax payers, free Orange County cities of clutter and return all businesses, Civic Center, libraries, parks, riverbeds and bus benches to each resident.

Solution

A plan of attack for the less fortunate: to provide a safe and secure community for a chance to regroup; to begin a journey of hope and self worth, regain dignity, recover health-wise, and eventually take control of an independent life with purpose-instead of just existing (time after time I discovered wasted talent that could be tapped.)

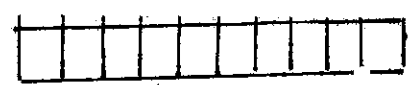

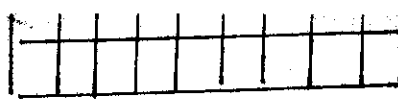

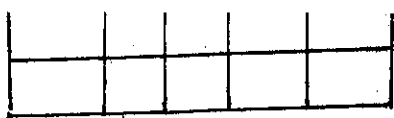

Project Outline

A Win Win for both sides:

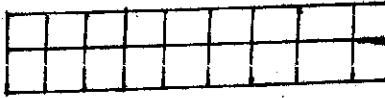

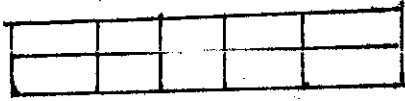

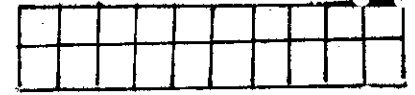

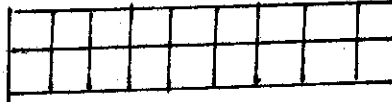

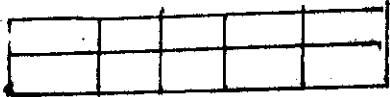

A "Pilot Program" which could be used as a prototype for the state and nation instead of the scattered bleak band-aids for a temporary fix.

I propose; RADICAL SURGERY. One centralized low cost economic off the grid homeless facility on county land to house and help the county's homeless. A first step to the county's resources.

At a scheduled meeting, I will request county land.
