12 prepared in accordance with the procedure that is provided by ADMINISTRATOR and GAAP.

19 CONTRACTOR shall operate continuously throughout the term of this Agreement with at least the  
20 minimum number and type of staff which meet applicable federal and state requirements, and which are  
21 necessary for the provision of the services hereunder.

23 supplies as required, ADMINISTRATOR may, at its sole discretion, reduce the [Total] Maximum  
24 Obligation [the Maximum Obligation for the appropriate Period as well as the Total Maximum  
25 Obligation]. The reduction to the Maximum Obligation [Maximum Obligation for the appropriate  
26 Period as well as the Total Maximum Obligation] shall be in an amount proportionate to the number of  
27 days in which CONTRACTOR was determined to be unable to provide services, staffing, facilities or  
28 supplies.  
29

30 **XI. INDEMNIFICATION AND INSURANCE**

31 A. CONTRACTOR agrees to indemnify, defend with counsel approved in writing by COUNTY,  
32 and hold COUNTY, its elected and appointed officials, officers, employees, agents and those special  
33 districts and agencies for which COUNTY's Board of Supervisors acts as the governing Board  
34 ("COUNTY INDEMNITEES") harmless from any claims, demands or liability of any kind or nature,  
35 including but not limited to personal injury or property damage, arising from or related to the services,  
36 products or other performance provided by CONTRACTOR pursuant to this Agreement. If judgment is  
37 entered against CONTRACTOR and COUNTY by a court of competent jurisdiction because of the

1 concurrent active negligence of COUNTY or COUNTY INDEMNITEES, CONTRACTOR and  
2 COUNTY agree that liability will be apportioned as determined by the court. Neither Party shall  
3 request a jury apportionment.

4 B. Prior to the provision of services under this Agreement, CONTRACTOR agrees to purchase all  
5 required insurance at CONTRACTOR's expense, including all endorsements required herein, necessary  
6 to satisfy COUNTY that the insurance provisions of this Agreement have been complied with.  
7 CONTRACTOR agrees to keep such insurance coverage, Certificates of Insurance, and endorsements  
8 on deposit with COUNTY during the entire term of this Agreement. In addition, all subcontractors  
9 performing work on behalf of CONTRACTOR pursuant to this Agreement shall obtain insurance  
10 subject to the same terms and conditions as set forth herein for CONTRACTOR.

11 C. CONTRACTOR shall ensure that all subcontractors performing work on behalf of  
12 CONTRACTOR pursuant to this Agreement shall be covered under CONTRACTOR's insurance as an  
13 Additional Insured or maintain insurance subject to the same terms and conditions as set forth herein for  
14 CONTRACTOR. CONTRACTOR shall not allow subcontractors to work if subcontractors have less  
15 than the level of coverage required by COUNTY from CONTRACTOR under this Agreement. It is the  
16 obligation of CONTRACTOR to provide notice of the insurance requirements to every subcontractor  
17 and to receive proof of insurance prior to allowing any subcontractor to begin work. Such proof of  
18 insurance must be maintained by CONTRACTOR through the entirety of this Agreement for inspection  
19 by COUNTY representative(s) at any reasonable time.

33 which the duty to defend stated above applies, and the CONTRACTOR's SIR provision shall be  
34 interpreted as though the CONTRACTOR was an insurer and the COUNTY was the insured.

35 E. If CONTRACTOR fails to maintain insurance as required in this Paragraph XI  
36 (INDEMNIFICATION AND INSURANCE) for the full term of this Agreement, such failure shall

37 //

2 this Agreement.

4 1. The policy or policies of insurance must be issued by an insurer with a minimum rating of  
5 A- (Secure A.M. Best's Rating) and VIII (Financial Size Category as determined by the most current

17 endorsements which shall accompany the Certificate of Insurance:

31 cancellation and within ten (10) days for non-payment of premium and provide a copy of the

33 breach of CONTRACTOR’s obligation hereunder and ground for COUNTY to terminate this  
34 Agreement.

35 M. If CONTRACTOR’s Professional Liability, Technology Errors & Omissions, and/or Network

8 CONTRACTOR does not deposit copies of acceptable COIs and endorsements with COUNTY

10 constitute a breach of CONTRACTOR’s obligation hereunder and ground for termination of this  
11 Agreement by COUNTY.

12 Q. The procuring of such required policy or policies of insurance shall not be construed to limit  
13 CONTRACTOR's liability hereunder nor to fulfill the indemnification provisions and requirements of  
14 this Agreement, nor act in any way to reduce the policy coverage and limits available from the insurer.

15 R. SUBMISSION OF INSURANCE DOCUMENTS

16 1. The COI and endorsements shall be provided to COUNTY as follows:

35 CONTRACTOR’s monthly invoice.

36 4. In no cases shall assurances by CONTRACTOR, its employees, agents, including any  
37 insurance agent, be construed as adequate evidence of insurance. COUNTY will only accept valid COIs

1 and endorsements, or in the interim, an insurance binder as adequate evidence of insurance coverage.

2 S. The performance bond requirement may be secured by one of the following methods, or a  
3 combination thereof.

4 1. Performance Bond issued by an admitted surety licensed in the State of California and  
5 acceptable to the County, provided that the language of such bond shall recognize and accept the  
6 contract requirement for immediate release of funds to the County upon determination by the County,

14 CONTRACTOR is in breach of the contract or County ordinance, and that the nature of the breach is  
15 such that the public health and safety are endangered, and recognizing that any legal dispute by the  
16 CONTRACTOR or the creditor shall be initiated and resolved only after release of the performance  
17 security funds to the County. Real property may be used by a bank to provide the financial resources for  
18 credit required under this section.

19 3. The performance bond or irrevocable letter of credit furnished by the CONTRACTOR in  
20 fulfillment of this requirement shall provide that such bond or letter of credit shall not be canceled for  
21 any reason except upon thirty (30) calendar days' written notice to the County of the intention to cancel  
22 said bond or letter of credit. The CONTRACTOR shall, not later than twenty (20) business days  
23 following the commencement of the 30-day notice period, provide the County with replacement security  
24 in a form acceptable to the County. In the event that the guarantor/surety is placed into liquidation or  
25 conservatorship proceedings, the CONTRACTOR shall provide replacement security acceptable to the  
26 County within twenty (20) business days of such occurrence.

27 4. Failure of the CONTRACTOR to meet these requirements after the CONTRACTOR has  
28 been selected, and prior to the contract start date, shall result in forfeiture of the CONTRACTOR's  
29 contract award.

30 5. Failure of the CONTRACTOR to maintain service and performance requirements during  
31 the term of the Agreement shall be considered a breach and may additionally result in removal of the  
32 CONTRACTOR and forfeiture of performance bond.

20 funds shall be due and payable from one party to the other within sixty (60) calendar days of receipt of  
21 the audit results. If reimbursement is due from CONTRACTOR to COUNTY, and such reimbursement  
22 is not received within said sixty (60) calendar days, COUNTY may, in addition to any other remedies  
23 provided by law, reduce any amount owed CONTRACTOR by an amount not to exceed the  
24 reimbursement due COUNTY.

3. It is expressly understood that this data will be transmitted to governmental agencies charged with the establishment and enforcement of child support orders, or as permitted by federal and/or state statute.

C. CONTRACTOR shall comply with all applicable governmental laws, regulations, and requirements as they exist now or may be hereafter amended or changed.

10 **I. SECURITY REQUIREMENTS AND GUIDELINES FOR APPLICATION VENDORS AND**  
11 **APPLICATION SERVICE PROVIDERS**

12 A. Overview

13 1. This document provides a high-level overview of application security related guidelines and  
14 requirements set forth by the Orange County Health Care Agency (OCHCA), and applies to both  
15 software vendors for County-implemented applications and application service providers who provide  
16 hosted services.

17 2. These requirements and guidelines are consistent with regulatory privacy and security  
18 requirements and guidelines as well as supportive of OCHCA’s position and practices on risk  
19 management in terms of appropriately safeguarding OCHCA’s information assets.

20 3. The sections below are comprehensive and may apply in whole or in part based on specific  
21 implementation and scope of work. The expectation is that vendors will comply with relevant sections,  
22 as necessary. This information will be reviewed, validated and documented by OCHCA Security prior to  
23 any contract being finalized.

24 4. Vendors are required to comply with all existing legal and regulatory requirements as they  
25 relate to OCHCA’s systems and data. Example of regulations, rules and laws include, but are not limited  
26 to, the Health Insurance Portability and Accountability Act (HIPAA), Senate Bill 1386, Payment Card  
27 Industry (PCI) Data Security Standards, and Sarbanes-Oxley (SOX). Vendors must also commit to  
28 ensuring compliance with all future local, state and federal laws and regulations related to privacy and  
29 security as they pertain to the application or service.

30 B. General Security Requirements

31 1. The application/system must meet the general security standards based upon  
32 ISO 17799 – Code of Practice for Information Security and ISO 27799 – Security Management in  
33 Health Using ISO 17799.

34 2. The application must run on an operating system that is consistently and currently  
35 supported by the operating systems vendor. Applications under maintenance are expected to always be  
36 current in regards to the current version of the relevant operating system.

37 //

1 3. For applications hosted by OCHCA, OCHCA will routinely apply patches to both the  
2 operating system and subsystems as updated releases are available from the operating system vendor  
3 and or any third party vendors. The vendors must keep their software current and compatible with such  
4 updated releases in order for the application to operate in this environment.

5 4. Vendors must provide timely updates to address any applicable security vulnerabilities  
6 found in the application.

7 5. OCHCA utilizes a variety of proactive, generally available, monitoring tools to assess and  
8 manage the health and performance of the application server, network connectivity, power etc. The  
9 application must function appropriately while the monitoring tools are actively running.

10 6. All application services must run as a true service and not require a user to be logged into  
11 the application for these services to continue to be active. OCHCA will provide an account with the  
12 appropriate security level to logon as a service, and an account with the appropriate administrative rights  
13 to administer the application. The account password must periodically expire, as per OCHCA policies  
14 and procedures.

15 7. In order for the application to run on OCHCA server and network resources, the application  
16 must not require the end users to have administrative rights on the server or subsystems.

17 C. Encryption

18 1. Application/system must use encryption to protect sensitive data at rest wherever  
19 technically possible (e.g. SQL TDE Encryption).

20 2. All data transmissions must be encrypted using a FIPS 140-2 certified algorithm, such as  
21 Advanced Encryption Standard (AES), with a 128bit key or higher. Encryption can be end to end at the  
22 network level. This requirement pertains to any regulated data in motion such as website access and file  
23 transfers.

24 3. All electronic files, where applicable, that contain OCHCA data must be encrypted when  
25 stored on any removable media or portable device (USB drives, CD/DVD, mobile phones, backup  
26 tapes). The encryption must be a FIPS 140-2 certified algorithm, such as Advanced Encryption Standard  
27 (AES), with a 128bit key or higher.

28 4. All encryption methods used for data storage and transmission must be disclosed by the  
29 vendors.

30 5. Encryption shall be used to protect data whenever technically possible.

31 D. Network Application Documentation

32 1. Vendors must provide documentation related to the configuration of the application  
33 including methods of secure implementation and port requirements.

34 E. Access Management

35 1. Application/system must control access to and within the system at multiple levels (e.g. per  
36 user, per user role, per area, per section of the chart) through a consistent mechanism of identification  
37 and authentication of all users in accordance with the 'Role Based Access Control' (RBAC) standard.

1 2. Application/system must support measures to define, attach, modify and remove access  
2 rights for all classes of users.

3 3. Application/system must support measures to enable and restrict access to the whole and/or  
4 sections of the technology solution in accordance with prevailing consent and access rules.

5 4. Application must have the ability to create unique user accounts.

6 5. Application must support session timeouts or automatic logoff after 20 minutes of inactivity.

7 6. The application must provide functionality to automatically disable or lock accounts after  
8 60 days of inactivity.

9 F. Password Management

10 1. Application must support password management measures including but not limited to  
11 password expiration, account lockout and complex passwords.

12 2. Passwords expiration must be set to 90 days and the system must prevent the use of the  
13 previous 4 passwords.

14 3. Accounts must be locked after five unsuccessful login attempts.

15 4. The password must be at least 8 characters in length and a combination of letters, numbers,  
16 and special characters with at least 3 of the four following categories.

17 a. Uppercase letters (A through Z)

18 b. Lowercase letters (a through z)

19 c. Numeric digits (0 through 9)

20 d. Special Characters (! @ # \$ % ^ & etc.)

21 G. Audit Capabilities

22 1. Auditing and logging capabilities will permit HCA to identify, and possibly reverse,  
23 unauthorized or unintended changes to application.

24 2. Application must support the identification of the nature of each access and/or modification  
25 through the use of logging.

26 3. Application must employ audit capabilities to sufficiently track details that can establish  
27 accountability for each step or task taken in a clinical or operational process.

28 4. All audit logs must be protected from human alteration.

29 5. Access to logs must be limited to authorized users.

30 6. The application must employ basic query tools and reports to easily search logs.

31 7. OCHCA record retention policies must be followed. Currently OCHCA requires that this  
32 period be at least six years from the time the record was initiated.

33 8. Logging and auditing functionality must include the following:

34 a. Record of who did what to which object, when and on which system.

35 b. Successful/unsuccessful log-in and log-out of users.

36 c. Add, modify and delete actions on data/files/objects.

37 d. Read/view actions on data classified as restricted/confidential.

- e. Changes to user accounts or privileges (creation, modification, deletion).
- f. Switching to another users access or privileges after logging in (if applicable).

H. Protection from Malicious Code

- 1. For cloud hosted solutions, vendors must utilize antivirus/antispyware software on servers and monitor to prevent malicious code which may lead to a compromise of OCHCA’s data.
- 2. For local hosted solutions, vendors must ensure that the application appropriately supports the use of antivirus/antispyware software.

I. Remote Support Functionality

- 1. Provider must conform to OCHCA Vendor Remote Access Policy.

J. HCA Data Usage

- 1. During the course of any implementation and subsequent support and life cycle management, any OCHCA data that the vendors have access to in any manner shall be considered confidential unless otherwise designated in writing.
- 2. Vendors must not use or disclose OCHCA’s data other than as permitted or as required by contract or law.
- 3. The vendors must agree to use appropriate safeguards to prevent the unauthorized use or disclosure of OCHCA’s data during any time that the data is stored or transported in any manner by vendors.
- 4. After the end of any appropriate use of OCHCA’s data within the vendors’ possession, such data must be returned to OCHCA or securely destroyed unless otherwise permitted by contract or law.

K. Cloud Solutions

- 1. Application Service Providers hosting OCHCA data must meet the following additional requirements and are required to comply with and provide deliverables noted below:
  - a. SSAE 16. SSAE 16 SOC 2 Type 2 or SSAE 16 SOC 1 Type 2 compliance certificate.
  - 2. Network Intrusion Detection and Prevention. All systems that are accessible via the internet must actively use a network based intrusion detection and prevention solution.
  - 3. Workstation/Laptop Encryption. All workstations, laptops and mobile devices that process and/or store OCHCA data must be encrypted using full disk encryption that uses a FIPS 140-2 certified algorithm, such as Advanced Encryption Standard (AES), with a 128bit key or higher.
  - 4. Jurisdiction and Location of OCHCA Data. To protect against seizure and improper use by non-United States (US) persons and government entities, all data / information stored and processed for OCHCA must reside in a facility under the legal jurisdiction of the US.
  - 5. Patch Management. All workstations, laptops, and other systems that access, process and/or store OCHCA data must have appropriate security patches installed. Application Service Providers must utilize a documented patch management process which determines installation timeframe based on risk assessment and vendor recommendations. At a minimum, all applicable patches must be installed within 30 days of vendor release.

1 6. Application Access. All systems accessible via the internet must employ security controls  
2 to prevent access to the application via an asset not approved or owned by the county.

3 7. Risk Assessment. Application Service Providers hosting data for HIPAA covered services  
4 must conduct an accurate and thorough Risk Assessment as required by HIPAA Security Rule, Security  
5 Management (§ 164.308(a)(1)). Further, they must follow the risk assessment methodology, based on  
6 the latest version of NIST SP 800-30 ([http://csrc.nist.gov/publications/nistpubs/800-30-](http://csrc.nist.gov/publications/nistpubs/800-30-rev1/sp800_30_r1.pdf)  
7 [rev1/sp800\\_30\\_r1.pdf](http://csrc.nist.gov/publications/nistpubs/800-30-rev1/sp800_30_r1.pdf)). Upon request, the Risk Assessment findings and remediation strategy must be  
8 shared with OCHCA.

9 8. NIST. To ensure compliance with HIPAA, Application Service Providers shall implement  
10 appropriate security safeguards by following National Institute of Standards and Technology (NIST)  
11 guidelines.

12 L. Policies

13 1. Vendors must have formal, published IT security policies that address how they manage  
14 and maintain the internal security posture of their own or sub-contracted infrastructure. The vendor shall  
15 also clearly demonstrate that additional security features are in place to protect systems and data in the  
16 unique environment of the service provider model: namely, security issues associated with storing  
17 County-owned data on a remote server that is not under direct County control and the necessity of  
18 transferring this data over an untrusted network.

19 2. Vendors must provide, to the extent permissible, all relevant security policies and  
20 procedures to the County for review and validation. All documentation must be provided in electronic  
21 format for the County’s review.

22 3. These policies must include, but not be limited to, the following:

23 a. IT Staff Usage Agreement. All vendor employees performing services for the County  
24 must sign and agree to an IT usage agreement within their own organization as part of an overall  
25 security training and awareness program. At a minimum, vendor employees must sign a statement of  
26 understanding within their own organization regarding Internet dangers, IT security, and IT ethics and  
27 best practices,

28 b. IT Security Policies and Procedures. The vendor shall provide its IT security policies  
29 and procedures for review by the County.

30 c. IT Operations Security Policy. Written standards for operational security for any  
31 facilities where the County data, staff or systems shall exist. These documents must include, but not be  
32 limited to, physical security, network security, logical security, systems/platform security, wireless  
33 access, remote access, and data protections.

34 d. Data Management Security Policy. Policy for the safeguarding and management of all  
35 data provided by the County or accessed by vendor as part of implementation and ongoing maintenance.  
36 This policy must, at a minimum, include check-in, check-out, copy control, audit logs and separation of  
37 duties.

1 e. Security Incident Notification and Management Process. A detailed document that  
2 outlines the contact names and order and escalation of events that will occur in the case of a security  
3 breach concerning the County staff, data, or systems. This document must be updated immediately upon  
4 any change. The vendor shall be held liable to the time-tables and protections outlined in the document.

5 4. In addition to developing, maintaining, and enforcing the above named policies, the vendor  
6 must:

7 a. Bear the cost of compliance for any required changes to security infrastructure, policies  
8 and procedures to comply with existing regulations, unless such change is unique to the County or  
9 customarily paid for by the vendor’s other customers.

10 b. Comply with reasonable requests by the County for audits of security measures,  
11 including those related to identification and password administration.

12 c. Comply with reasonable requests by the County for onsite physical inspections of the  
13 location from which the vendor provides services.

14 d. Provide the County with any annual audit summaries and certifications, including but  
15 not limited to HIPAA, ISO or SOX audits, as applicable.

16 e. Designate a single point of contact to facilitate all IT security activities related to  
17 services provided to the County, with the allowance of appropriate backups. Such contact(s) must be  
18 available on a 7/24/365 basis.

19 M. Business Continuity / Disaster Recovery Plans

20 1. Application Service Providers must have a viable risk management strategy that is formally  
21 documented in a Business Continuity Plan (BCP) and/or a Disaster Recovery Plan (DRP). This  
22 BCP/DRP plan(s) must identify recovery strategies within the application service areas, outline specific  
23 recovery methods and goals, and provide the mutually agreed upon recovery time and point objectives.

24 N. Backup and Restore

25 1. The vendor must provide their routine Backup and Restore policy and procedure which  
26 includes their backup data security strategy. These procedures shall allow for protection of encryption  
27 keys (if applicable) as well as a document media destruction strategy including media management tasks  
28 (i.e., offsite vaulting and librarian duties).

29 O. Staff Verification

30 1. For any employee a vendor contemplates using to provide services for the County, the  
31 vendor shall use its standard employment criteria as used for similar services provided to other  
32 customers in evaluating the suitability of that employee for such roles.

33 At a minimum, subject to the requirements of applicable law, such criteria must include the information  
34 as outlined below for each employee:

35 a. Relevant Skills, Licenses, Certifications, Registrations. Each service employee must  
36 possess the educational background, work experience, skills, applicable professional licenses, and  
37 related professional certifications commensurate with their position. The County may, at any time and at

1 its sole discretion, request that the vendor demonstrate compliance with this requirement as applicable to  
2 the nature of the services to be offered by the vendor's employee. The County may, at its sole discretion,  
3 also request the vendor's certification that the vendor employee has undergone a chemical/drug  
4 screening, with negative results, prior to granting access to the County facilities.

5 b. Background Checks. In accordance with applicable law, the vendor must, at the  
6 County's request, obtain as a condition of employment, a background investigation on any vendor  
7 employee selected to work for the County. The security and background investigation shall include  
8 criminal record checks, including records of any conviction in the U.S. or other relevant jurisdiction  
9 where the employee resides. Costs for background investigations must be borne by the vendor.

10 c. At a minimum, subject to the requirements of applicable law, the vendor must:

11 1) Ensure that all vendor service employees performing applicable services or  
12 supporting the vendor's duties and obligations under a County agreement: (i) have not been convicted of  
13 any crime involving violence, fraud, theft, dishonesty or breach of trust under any laws; and (ii) have not  
14 been on any list published and maintained by the Government of the United States of America of  
15 persons or entities with whom any United States person or entity is prohibited from conducting business.

16 2) Follow such verification procedures as may be reasonably specified by the County  
17 from time to time. If either the vendor or the County becomes aware that any vendor employee has been  
18 convicted of a crime involving violence, fraud, theft, dishonesty or breach of trust, or has been included  
19 on any such list of persons or entities convicted of such crimes, then the vendor shall promptly remove  
20 the employee from providing services to the County and prohibit that employee from entering any  
21 facilities at which services are provided.

22 3) Annually certify to the County that, to the best of its knowledge, none of the  
23 service employees have been convicted of any felony involving fraud, theft, dishonesty or a breach of  
24 trust under any laws.

25 P IT Physical Security and Access Control

26 1. The vendor must establish processes and procedures for physical access to and control of  
27 their own facilities that are, at a minimum, consistent with relevant industry-specific best practices.

28 2. Vendor employees are expected to:

29 a. Comply with facility access procedures, using procedures such as sign-in/sign-out  
30 requirements and use of assigned ID badges.

31 b. Scan ID badges, where applicable, at any secure door and/or entrance and exit gates,  
32 including any door or gate that may already be open.

33 c. Refrain from using recordable media in conjunction with County-owned equipment.

34 d. Comply with check-in/check-out requirements for materials and/or equipment.

35 e. Adhere to the facility's established emergency, safety and evacuation procedures.

36 f. Report any unsafe conditions to the facility's safety representative.

37 //

1 g. Report any access violations or security threats to the facility's local security  
2 administrator.

3 Q. IT Security Compliance and Training

4 1. The vendor must ensure that all vendor employees comply with security policies and  
5 procedures and take all reasonable measures to reduce the opportunity for unauthorized access,  
6 transmission, modification or misuse of the County's data by vendor employees.

7 2. The vendor must ensure that all vendor employees are trained on security measures and  
8 practices. The vendor will be responsible for any costs related to such training.

9 a. At a minimum, the vendor is expected to:

10 1) Ensure that a formal disciplinary process is defined and followed for vendor  
11 employees who violate established security policies and procedures.

12 2) Proactively manage and administer access rights to any equipment, software and  
13 systems used to provide services to the County.

14 3) Define, maintain and monitor access controls, ranging from physical access to  
15 logical security access, including a monthly review of vendor employees' access to systems used to  
16 provide services to the County.

17 3. The vendor shall monitor facilities, systems and equipment to protect against unauthorized  
18 access.

19 a. At a minimum, the vendor is expected to:

20 1) Monitor access to systems; investigate apparent security violations; and notify the  
21 County of suspected violations, including routine reporting on hacking attempts, penetrations and  
22 responses.

23 2) Maintain data access control and auditing software and provide adequate logging,  
24 monitoring, and investigation of unusual or suspicious activity.

25 3) Initiate immediate corrective actions to minimize and prevent the reoccurrence of  
26 attempted or actual security violations.

27 4) Document details related to attempted or actual security violations and provide  
28 documentation to the County.

29 5) Provide necessary documentation and evidence to the County in connection with  
30 any legal action or investigation.

31 R. Security Testing Recommendations

32 1. The vendor should perform a series of steps to verify the security of applications, some of  
33 which are noted below. This section will not be validated by the County, but reflects best practices that  
34 the vendor should consider and follow.

35 a. Look for vulnerabilities at various layers of the target environment. In the lowest layer,  
36 the vendor's testing team should look for flaws in the target network environment, including any routers  
37 and firewalls designed to control access to the web server and related target components. The team

1 | should attempt to determine whether such filters provide adequate protection at the network layer of the  
2 | target hosts that the team can reach across the Internet.

3 |           b. Look for flaws in the Internet-accessible hosts associated with the target infrastructure,  
4 | including the web server. This host-based component of the test will analyze which network-accessible  
5 | services are available on the target hosts across the Internet, including the web server process. The  
6 | testing team should look for incorrect configuration, unpatched or enabled services, and other related  
7 | problems on the target hosts.

8 |           1) This review performed by the vendor should include but not be limited to:

9 |           a) The web application (i.e., the software that interacts with users at their web  
10 | browsers; typically custom-crafted code created by the web development team)

11 |           b) The web server application (the underlying software that sends and receives  
12 | information via HTTP and HTTPS, typically off-the-shelf software such as Microsoft’s IIS or the open-  
13 | source Apache software)

14 |           c) Any separate backend application servers that process information from the  
15 | web application

16 |           d) The backend database systems that house information associated with the web  
17 | application.

18 |           e) Infrastructure diagrams.

19 |           f) Configuration host review of settings and patch versions, etc.

20 |           g) Full code review.

21 |           h) Identification and remediation of well-known web server, code engine, and  
22 | database vulnerabilities.

23 |           i) Identification and remediation of any server and application administration  
24 | flaws and an exploitation attempt of same.

25 |           j) Analysis of user interface, normal application behavior, and overall application  
26 | architecture for potential security vulnerabilities.

27 |           k) Analysis of data communications between the application and databases or  
28 | other backend systems.

29 |           l) Manual analyses of all input facilities for unexpected behavior such as SQL  
30 | injection, arbitrary command execution, and unauthorized data access.

31 |           m) Analyses of user and group account authentication and authorization controls  
32 | to determine if they can be bypassed.

33 |           n) Identification of information leakage across application boundaries, including  
34 | the capability to enumerate other users’ data and “show code” weaknesses that reveal internal  
35 | application logic.

36 |           o) Identification of areas where error handling is insufficient or reveals too much  
37 | sensitive information.

- 1 p) Identification of opportunities to write to the host file system or execute
- 2 uploaded files.
- 3 q) Identification of product sample files, application debugging information,
- 4 developer accounts or other legacy functionality that allows inappropriate access.
- 5 r) Determination as to whether or not fraudulent transactions or access can be
- 6 performed.
- 7 s) Attempts to view unauthorized data, especially data that should be confidential.
- 8 t) Examination of client-side cached files, temporary files, and other information
- 9 that can yield sensitive information or be altered and re-submitted.
- 10 u) Analysis of encoded and encrypted tokens, such as cookies, for weakness or
- 11 the ability to be reverse engineered.

12 S. Vendor Deliverables

13 1. The following items are to be provided by the vendor:

10 **I. BUSINESS ASSOCIATE CONTRACT**

11 **A. GENERAL PROVISIONS AND RECITALS**

12 1. The parties agree that the terms used, but not otherwise defined below in Subparagraph B.,  
13 shall have the same meaning given to such terms under the Health Insurance Portability and  
14 Accountability Act of 1996, Public Law 104-191 (“HIPAA”), the Health Information Technology for  
15 Economic and Clinical Health Act, Public Law 111-005 (“the HITECH Act”), and their implementing  
16 regulations at 45 CFR Parts 160 and 164 (“the HIPAA regulations”) as they may exist now or be  
17 hereafter amended.

18 2. The parties agree that a business associate relationship under HIPAA, the HITECH Act,  
19 and the HIPAA regulations between the CONTRACTOR and COUNTY arises to the extent that  
20 CONTRACTOR performs, or delegates to subcontractors to perform, functions or activities on behalf  
21 of COUNTY pursuant to, and as set forth in, the Agreement that are described in the definition of  
22 “Business Associate” in 45 CFR § 160.103.

23 3. The COUNTY wishes to disclose to CONTRACTOR certain information pursuant to the  
24 terms of the Agreement, some of which may constitute Protected Health Information (“PHI”), as  
25 defined below in Subparagraph B.10, to be used or disclosed in the course of providing services and  
26 activities pursuant to, and as set forth, in the Agreement.

27 4. The parties intend to protect the privacy and provide for the security of PHI that may be  
28 created, received, maintained, transmitted, used, or disclosed pursuant to the Agreement in compliance  
29 with the applicable standards, implementation specifications, and requirements of HIPAA, the HITECH  
30 Act, and the HIPAA regulations as they may exist now or be hereafter amended.

31 5. The parties understand and acknowledge that HIPAA, the HITECH Act, and the HIPAA  
32 regulations do not pre-empt any state statutes, rules, or regulations that are not otherwise pre-empted by  
33 other Federal law(s) and impose more stringent requirements with respect to privacy of PHI.

34 6. The parties understand that the HIPAA Privacy and Security rules, as defined below in  
35 Subparagraphs B.9 and B.14, apply to the CONTRACTOR in the same manner as they apply to a  
36 covered entity (COUNTY). CONTRACTOR agrees therefore to be in compliance at all times with the  
37 terms of this Business Associate Contract and the applicable standards, implementation specifications,

1 and requirements of the Privacy and the Security rules, as they may exist now or be hereafter amended,  
2 with respect to PHI and electronic PHI created, received, maintained, transmitted, used, or disclosed  
3 pursuant to the Agreement.

15 in a manner not permitted under the Privacy Rule.

16 2) Any inadvertent disclosure by a person who is authorized to access PHI at  
17 CONTRACTOR to another person authorized to access PHI at the CONTRACTOR, or organized  
18 health care arrangement in which COUNTY participates, and the information received as a result of  
19 such disclosure is not further used or disclosed in a manner not permitted under the HIPAA Privacy  
20 Rule.

21 3) A disclosure of PHI where CONTRACTOR or COUNTY has a good faith belief  
22 that an unauthorized person to whom the disclosure was made would not reasonably have been able to  
23 retain such information.

24 b. Except as provided in paragraph (a) of this definition, an acquisition, access, use, or  
25 disclosure of PHI in a manner not permitted under the HIPAA Privacy Rule is presumed to be a breach  
26 unless CONTRACTOR demonstrates that there is a low probability that the PHI has been compromised  
27 based on a risk assessment of at least the following factors:

28 1) The nature and extent of the PHI involved, including the types of identifiers and  
29 the likelihood of re-identification;

30 2) The unauthorized person who used the PHI or to whom the disclosure was made;

31 3) Whether the PHI was actually acquired or viewed; and

32 4) The extent to which the risk to the PHI has been mitigated.
