- D. **Taxes:** Intentionally omitted.
- E. **Delivery:** Time of delivery of services is of the essence in this Contract. 1. Contractor shall:

- a) Ensure services shall be in accordance with standards set by the American National Standards Institute (ANSI) and Association for Information and Image Management (AIIM) and Government Code section 26205.1.
- b) Provide to County samples of documents converted to appropriate media within 30 working days of contract award for the purpose of establishing Quality Benchmarks. Additionally, prior to the start of any new Agency/Department engagement or project, representative samples as specified above will be provided to Agency/Department. County and Contractor will meet and jointly agree as to the subjective measurement(s) for acceptable image quality.
- c) Return scanned media on no less than a weekly basis.
- d) Provide County with a weekly report that indicates work received from each Agency/Department. This report shall include the time received, the type and volume of work.
- e) Perform adequate quality assurance so that the index data is 99 % accurate at the field level.
- f) Be subject to random quality checks of all Services. When the image quality encountered by County during a random inspection is poor or marginal, County shall compare this image to the previously accepted benchmark sample. If the document image in question is equal to or of better quality than the benchmark sample then the document will be accepted; if not, the document (image) along with all images contained in the same file folder will be rejected and re-scanned by Contractor. If Contractor is repeatedly unable to produce acceptable image quality from documents determined to be acceptable in the benchmark test, County shall issue a cure notice asking Contractor to explain how they are going to rectify the problem. If Contractor's response is not satisfactory, County shall have the right to terminate the contract for default. After rejecting a file, the applicable Agency/Department representative may inspect at least ten (10) additional document scans both before and after any corrective actions have been taken. If this inspection results in another rejection of an image or file, then the entire batch may be rejected.

- g) Ensure that any document that is regarded as poor quality will be compared to the quality sample provided by County. Images not meeting this quality level may be cause for rejection by County unless Contractor can prove that it has provided the best image possible based upon the original document.
2. Contractor must provide a Quality Assurance Plan. This plan must be accepted by County prior to commencement of Services. The plan shall, at a minimum, include the following:
- a) An acknowledgement that all images must be equal to or better than the benchmark samples submitted and accepted by County. Contractor must provide a method for handling missing images, multiple images, and incorrect or poor-quality images. The County may elect to receive or reject the product at no cost to the County. County may reject product and require Contractor to reproduce product to meet Minimum Quality Level (MQL).
 - b) Description of how the production process will produce consistent quality on a regular basis.
 - c) Formal documentation of all production procedures.
 - d) Description of the document preparation process.
 - e) Description of the indexing process for data entry and for Optical Character Recognition (OCR) processes which can meet the MASLs.
 - f) Written quality assurance procedures for image and index data.
 - g) A description of how document and file index integrity will be maintained throughout the conversion process.
 - h) Legal certification documenting the creation date, imaging staff and job tracking.
 - i) Method for monitoring the number of documents and/or microfilm picked-up, the number of documents prepared for imaging, the number of pages imaged, and the number of documents returned.
 - j) Methods for maintaining the integrity of the data extracted and assuring the clarity of the scanned images.
 - k) Method for achieving ninety-nine percent (99%) accuracy of converted/scanned images.
 - l) Method for providing searchable text from full page OCR that is 99% accurate on a page basis.
 - m) Method for ensuring that PDF index file formats are 100% compatible with County imaging and document management system (including Hyland OnBase).
 - n) Description of method/solution for conversion/scanning of the remaining percentage (no greater than one percent (1%) of non-scanned/non-converted images.
 - o) Description and sample of Exception Report that identifies, lists, and explains each document that was not successfully scanned or indexed or otherwise failed contractor's internal quality control process. The report will also include the sample size of the batch that was reviewed and the number of packages in error.
3. Upon request, Contractor shall provide to County a Summary Exception Report, including a record of all inspections conducted by Contractor, corrective actions taken, the time a problem was first identified, a clear description of the problem, and the time elapsed between identification and completed corrective action

These procedures shall include a documented media destruction strategy compliant with County regulations as required.

K. Transition Plan

In the event that the County wants Matrix to stop working on an existing project and return everything to the County, the County only needs to notify Matrix and we will provide the County with their options. We can either: stop immediately wherever we are with the project, return the boxes and any images converted but not yet delivered, to the County. Or we can complete the boxes we currently have at our location, deliver back the images and boxes and then not pick up any further boxes related to the project.

Matrix is local and will address any emergencies right away. Matrix will send a Manager on-site (we can be there within a couple hours) to discuss the emergency with the County and come up with a solution immediately.

16. **Contractor's Expense:** The Contractor will be responsible for all costs related to photo copying, telephone communications, fax communications, and parking while on County sites during the performance of work and services under this Contract. The County will not provide free parking for any service in the County Civic Center.
17. **Contractor's Power and Authority:** Contractor warrants that it has the full power and authority to grant the rights herein granted and will hold County hereunder harmless from and against any loss, cost, liability and expense, including reasonable attorney fees, arising out of any breach of this warranty. In the event a Contract has been issued, failure of the Contractor to comply with all federal, state, and local reporting requirements for child support enforcement or to comply with all lawfully served Wage and Earnings Assignment Orders and Notices of Assignment shall constitute a material breach of the Contract. Failure to cure such breach within sixty (60) calendar days of notice from the County shall constitute grounds for termination of the Contract.

22. **Debarment:** Contractor shall certify that neither Contractor nor its principles are presently debarred, proposed for debarment, declared ineligible or voluntarily excluded from participation in the transaction by any Federal department or agency. Where Contractor as the recipient of federal funds, is unable to certify to any of the statements in the certification, Contractor must include an explanation with their bid/proposal. Debarment, pending debarment, declared ineligibility or voluntary exclusion from participation by any Federal department or agency may result in the bid/proposal being deemed non-responsible.
23. **Default:** In case of default by Contractor, the County of Orange may procure the goods and/or services from other sources. If the cost for those goods and/or services is higher than under the terms of the existing Contract, Contractor will be responsible for paying the County the difference between the Contract cost and the price paid, and the County may deduct this cost from any unpaid balance due the Contractor.  - A. The Parties shall deal in good faith and attempt to resolve potential disputes informally. If the dispute concerning a question of fact arising under the terms of this Contract is not disposed of in a reasonable period of time by the Contractor's Project manager and the County's Project Manager, such matter shall be brought to the attention of the County Purchasing Agent by way of the following process:
 1. The Contractor shall submit to the agency/department Deputy Purchasing Agent a written demand for a final decision regarding the disposition of any dispute between the Parties arising under, related to, or involving this Contract, unless the County, on its own initiative, has already rendered such a final decision.
 2. The Contractor's written demand shall be fully supported by factual information, and, if such demand involves a cost adjustment to the Contract, the Contractor shall include with the demand a written statement signed by a senior official indicating that the demand is made in good faith, that the supporting data are accurate and complete, and that the amount requested accurately reflects the Contract adjustment for which the Contractor believes the County is liable.
 - B. Pending the final resolution of any dispute arising under, related to, or involving this Contract, the Contractor agrees to diligently proceed with the performance of this Contract, including the delivery of goods and/or provision of services. The Contractor's failure to diligently proceed shall be considered a material breach of this Contract.

Any final decision of the County shall be expressly identified as such, shall be in writing, and shall be signed by the County Purchasing Agent or his designee. If the County fails to render a decision within 90 days after receipt of the Contractor's demand, it shall be deemed a final decision adverse to the Contractor's contentions.

Failure to comply with these requirements may result in suspension of payments under the Contract or termination of the Contract or both, and the Contractor may be ineligible for award of any future County Contracts if the County determines that any of the following has occurred:

- a. The Contractor has made false certification, or
 - b. The Contractor violates the certification by failing to carry out the requirements as noted above.
