Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

Good morning,

I can't believe where we are as society. Where an opinion that goes against the narrative is dangerous. First of all COVID-19 is a lie a hoax.

John Hopkins and the Bill and Melinda gates foundation held "event 201" an event to discuss a pandemic. And then a month later we have one. Coincidence?

If it was not for all these restrictions to keep this lie alive we would not even know that there is a deadly virus lurking in the corners. What happened to my body my choice?

Being forced to have something to identify who we are "vaccinated or not" sounds awfully familiar.

This is wrong on so many levels.

I would like to express my complete opposition to any vaccine passports or even a pilot program of such, in Orange County. Proof of vaccination is a complete infringement on my personal rights. My rights are not provided by the government, it is only your job to protect them.

If Dr. Chau intends to use AB262 to require citizens of Orange County to be vaccinated, I ask that the board remove him power immediately. Dr. Chau has a background in behavioral and mental health, perhaps he should focus his energies on solving the mental health issues (suicide, substance abuse, depression etc), plaguing our county as a result of the draconian lockdowns and the stripping of individual freedoms.

Orange County needs to take the lead in California, not follow the state level. Put a full stop on any pilot program for digital vaccine permissions. Do not even entertain this "first step". This is AMERICA. It is completely asinine for the government to control what I am allowed to do and where I am allowed to go.

COVID tested. It is clear the next step in the conditioning of people that you must do this, show this, wear this in order to conduct business to buy or sell is here with these vaccine passports.

Novel Coronavirus Report

"He causes all, both small and great, rich and poor, free and slave, to receive a mark on their right hand or on their foreheads, 17 and that no one may buy or sell except one who has the mark or the name of the beast, or the number of his name." Revelations 13:16-17.

It is not to say that a face covering was the first tool utilized to condition people that in order to enter a store, a business or any indoor entity a condition to conduct business we were told and have been told almost a year now first in this county then by statewide order that we must wear a face covering. Now various businesses want proof of covid vaccination in order to enter a business establishment to conduct business. California Department of Public Health released a Blueprint for a Safer Economy dated April 2, 2021. https://www.cdph.ca.gov/Programs/CID/DCDC/CDPH%20Document%20Library/COVID-19/Dimmer-Framework-September_2020.pdf This document is a clear path towards a vaccine passport or some kind of pass in our state where by various tier levels you can have more capacity at private events such as conferences and meetings, live events such as concerts and performances if guests show proof of full vaccination or are COVID tested. It is clear the next step in the conditioning of people that you must do this, show this, wear this in order to conduct business to buy or sell is here with these vaccine passports.

In Orange County public health director Clayton Chau announced a pilot program in the county for vaccine passports. This is quite disturbing and discriminatory towards those that live work and play in this county.

This is not to say that these passports or passes are the mark of the beast as spoken of in the book of Revelations in the Bible. These are conditioning tools, precursor steps if you will, priming the populace as well as indoctrinating them towards this.

Dr Leana Wen on CNN stated: "We have a very narrow window to tie reopening policy to vaccination status," she said. "Because otherwise, if everything is reopened, then what's the carrot going to be? How are we going to incentivize people to actually get the vaccine?"

"We need to make it clear to them that the vaccine is the ticket back to pre-pandemic life."

"So that's why I think the CDC and Biden administration needs to come out a lot bolder and say, 'If you are vaccinated, you can do all these things. Here are all these freedoms you have.'" https://www.realclearpolitics.com/video/2021/04/02/cnns_dr_leana_wen_make_it_clear_to_people_that_the_vaccine_is_their_ticket_back_to_pre-pandemic_life_and_freedom.html

Division is already rampant in our society and the powers that be including in government, public health and media have ramped up intentional division and separation. We are told there is rampant racism and hate towards certain minority groups. We are told that those that wear masks and get a COVID vaccine are virtuous and care about others while those that choose not to or cannot don't care about others and are selfish. Now a new division point comes forward with the vaccine pass. This involves those that are vaccinated and those that are not. Those that are not will be excluded from participating in society, from buying or selling and conducting business. It will create and is creating an underclass as well as a societal rift. For all our resolutions and proclamations in the county, our state constitution and laws as well as our federal constitutional laws stating we are opposed to discrimination and exclusion and all of the discussions on the importance of equity and equal access, these vaccine passes contradict these principles.

Again what can this body do? Educate yourself on these issues. Push back and challenge the state including CDPH and your public health director Clayton Chau. Your very narrow window is closing to fight for the constituents you serve in this county. If you are a believer, pray! If not now is a good time. Ask God, Jesus and the Holy Spirit to guide you and remember 2 Timothy 1:7 For God has not given us a spirit of fear but of power and of love and of a sound mind.

Subject: Comments for upcoming Board meeting 4/13 - Agenda item #28

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

I am incredibly concerned to hear that there is the possibility of removing parental consent for the covid-19 vaccine and turning OC school campus into vaccination centers. Children are not capable of informed consent to be able to agree to this - that's the job of the parents as adults. Some children may not even realize things as basic as the full extent of their own allergies. This would not only be a violation of their rights, but it could be incredibly dangerous to their health.

And I strongly discourage digital vaccine passports with Composite Apps Inc or any other company or in any other format. Not only does this discriminate against those who can't afford smart phones or required technology, but it infringes on multiple individual liberties and will also encourage discrimination against those who can't be vaccinated. Shall I also start wearing the yellow star of David on my arm like my family had to wear during the Holocaust???

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links. I am a resident of Orange County and I am very cautious with what and how I give vaccines to my children as well as myself. I am a law abiding citizen who pays taxes to live in this free country and this idea of needing to prove that I am vaccinated with a vaccine that was fast tracked and not even studied for a year yet is ludicrous and not OK. I strongly disapprove of this and I see many legal actions ahead of this gets passed. Amie Quintana

I have been a resident of Orange County for all my life. I wish I could be there for this meeting in person, however I have 2 small children and run my own company and could not make it for the 9:30 time this morning. I strongly disagree with the idea of mandating Vaccine Passports in order to attend particular events. It is unconstitutional and immoral to mandate a vaccine that is not even passed by the regular FDA guidelines. This is the equivalent of mandating a flu shot for the same instances. As a mother of an autistic son, I am very cautious with what and how I give vaccines to my children as well as myself. I am a law abiding citizen who pays taxes to live in this free country and this idea of needing to prove that I am vaccinated with a vaccine that was fast tracked and not even studied for a year yet is ludicrous and not OK. I strongly disapprove of this and I see many legal actions ahead of this gets passed. Amie Quintana

I am a business owner in Irvine. I write in opposition to any vaccine passport program or program of a similar nature. Health and safety is of paramount importance, but the data shows that the worst is behind us. Even the NY Times recently recognized that the chance of contracting COVID19 from a public surface is 1 in 10,000. There is no need for any "papers" of any kind should be required for good, tax paying members of the community to use public and semi-public areas like our fair grounds.

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

Dear Chairman and Supervisors.

My name of Cathy Schlicht from Mission Viejo.

I just learned that this was on yhis morning's agenda, so time is short to make comments.

This is another step towards globalism and gives the United Nations another opportunity to

Please vote no on on this unconstitutional proposal.

Since when, as Americans do we need papers to travel? Why are we marching towards being more like China?

This virus is 99% curable. Many of the unnecessary deaths were due to government actions such as putting the vulnerable together in nursing homes.

Sent from my iPhone

This is a backdoor way to make vaccines mandatory.

This is another step towards globalism and gives the United Nations another opportunity to destroy our Constitution and take away our sovereignty.

Please stand up for the rights of the individual which is so uniquely American and vote no to vaccine passports

Cathy Schlicht

Subject: public comment for Orange County Board of Supervisors regarding proposed "Vaccine Passports"

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

Members of the Orange County Board of Supervisors,

That "vaccine passports" are even being considered for use in Orange County is highly alarming. You all must be aware how this is a terrible affront not only to personal privacy (hello? medical information is PERSONAL. My decision to vaccinate or not vaccinate is private medical information that I do not have to share with anyone), but also, and more importantly, to bodily integrity.

I would like to remind you that the United States Constitution is the Supreme Law of the land. You swore an oath to uphold the Constitution. Every citizen's Fourth Amendment rights to privacy is violated if a "vaccine passport" were needed in order to access any public or private or governmental building, business, land, event, gathering, or place of venue. Furthermore, the 14th Amendment protects individuals' rights to live their life without invasive governmental interference: "...nor shall any State deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the EQUAL PROTECTION of the laws."

When Individuals are restricted from participating in society or entering places of PUBLIC ACCOMMODATION (most private businesses qualify as places of "public accommodation" and certainly federal and state lands, parks, and most buildings) because they choose to not participate in Emergency Use Authorized medical products and procedures ("vaccines," testing, and face masks) they are not enjoying the EQUAL PROTECTION afforded to those who do choose to utilize these products and procedures.

It is the job of the Supervisors to ensure to their utmost that EQUAL PROTECTION for all is vigilantly upheld. This means not allowing places of public accommodation to DISCRIMINATE against members of the public!! It is grievous that I must be reminding you about this.

Our right to bodily sovereignty is the most sacred of all rights and must never, never, NEVER be violated. This includes violation by the inability to participate in some or all aspects of society unless one consents to medical procedures or to sharing their private medical information.

Subject: No vaccine mandate on children

We have no idea of the long term ramifications of this vaccine. Too many studies have concluded there could be worse side effects in the future. How can we possibly feel good about giving this to our children?

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

Dear Board,

Thank you for taking the time to read my email. It is absolutely ludicrous that Dr. Chau is suggesting all children be vaccinated & a travel passports be imposed.

It is my understanding that this vaccine is not FDA approved. If anyone chooses to vaccinate themselves, they are signing up to be an experimental test subject. I've also heard that if a person dies within one year of receiving the vaccine, their life insurance will not be valid, since this vaccine has not been approved.

Children are not even effected by the virus. They have zero to slight symptoms. If we are protecting teachers & grandparents, they should get their vaccine should they feel led to.

We have no idea of the long term ramifications of this vaccine. Too many studies have concluded there could be worse side effects in the future. How can we possibly feel good about giving this to our children?

We live in a country founded on freedom. May I suggest we follow that ideal & let each individual choose?

Thank you,
Susie

Subject: For the 9:30 am meeting

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

To the OC Board of Supervisors:

Millions of people do not want to get this experimental vaccine and should not have to. It is UNLAWFUL and UNCONSTITUTIONAL to enforce that people get this vaccine. We live in America and should have the freedom to decide what we want put in our bodies. Even if we were in an emergency situation (which we are not), this is tyranny to enforce everyone to be vaccinated. Deaths have gone down drastically since January with 4,290 deaths in the United States to 920 deaths on April 8th. Our rights can not be taken from us! I know there is money behind this and an agenda to get everyone to submit. PLEASE PLEASE PLEASE do what is right for our county, NO MANDATORY VACCINES PASSPORTS!

From an OC citizen,
Mindy Harney
