Subject: Digital vaccine record

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

I want a convenient digital record (that can't be counterfeited) to make it easy for venues to determine that I have been vaccinated. Those who don't want one don't have to get one. There ARE types of people in this County - those who are protected and protect others, and those that still present a danger that COVID-19 will mutate and spread again. I don't intend to patronize indoor venues that can't assure me that the other people around me are also free of this disease. If a person wants to get tested every time that they go to the theater or ballgame, they have that option. Either way, the disease spreads indoors in confined spaces. If you want full re-opening and a revival of the economy, then everyone needs to do their part to ensure that COVID-19 continues to decline until it vanishes. Either people are part of the solution or they are part of the problem.

Subject: Vaccine Passports

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

A vaccine passport discriminates against those who do not have a smart phone, and those who those who got Covid and recovered, who likely obtained the best level of immunity that can be had, and don't need the experimental jab. It also discriminates against those who, after a process of Informed Consent, decided against receiving it for any reason.

Requiring an experimental injection for Covid using novel technologies as a condition to participate in society or portions of it amounts to UNLAWFUL COERCION according to CA law, US law, UNESCO Declaration and Nuremburg Code. Does the OC Board of Supervisors really want to be implicated in facilitating crimes against humanity??

The OC Board should be aware that a recall effort is afoot. You just might get yourselves recalled over this:

These injections being given now are probably the most dangerous that have been offered the public during my lifetime, with already over 4100 deaths in the US according to VAERS. And these numbers are probably quite low since reporting is voluntary.

Additionally, these injections don't even claim to stop infections or transmission of the Covid virus. They only claim to reduce symptoms. How people receiving these jabs will handle variants is still somewhat unknown, as is any long-term safety, for which THERE IS NO DATA.

Adequate Vitamin D and Ivermectin would be as or more effective at saving lives and reducing the number of severe cases than these largely untested experimental injections. But they won't make a ton of money for big Pharma.

Vaccine passports are not returning to any kind of normal that I want to have anything to do with. That would be an unjust Orwellian technocratic system with a dramatic and unacceptable loss of privacy.

Orange County must enact clear measures prohibiting this discriminatory practice from any government entity or business operating within its bounds.

Thank you.

We want our schools and entire county open freely: no mandatory masks, freedom in schools from masks, mandatory Covid tests, vaccines. Have plenty of places to wash hands at schools and have cleaning protocols. Protect adults who are at risk and leave kids alone. Also, Absolutely NO vaccine "passports" or similar nonsense.

Thank you, The Halsavers (Orange, CA)

I am writing this email as an active resident of Orange County, California. I am a homeowner, business owner, mother, and play an active role in my community. On behalf of myself, my family, and MANY residents in Orange County, we are demanding that the Orange County Council BANS digital vaccine passports. You must immediately suspend the county's state of emergency! There is no emergency. Not to mention, there has been next to no accounting for over \$550 million in 2020 CARES funding. It is time for Orange County to DROP the Covid19 scam and STOP being played by Big Government and Big Tech.

Digital Identifications are a HUGE Constitutional infringement and if this goes through, YOU WILL HAVE BROKEN YOUR OATH TO UPHOLD THE CONSTITUTION AND PROTECT WE THE PEOPLE and are eligible for arrest. County Council works for THE PEOPLE of Orange County, if you have forgotten.

Subject: Fauci Admits COVID May Have Been from a Lab — ADMITS TO FUNDING CHINESE LABS!

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

SOURCE He's coming clean slowly? Why? So he can plea bargain for leniency at a military tribunal? His treasonous and insidious lies have cost the US and the world dearly during his imposed lock-down and social restrictions.

Fauci just admitted:

- ** The virus may not have originated naturally — something he refuted earlier until now
- ** The US DID FUND Chinese research at the Wuhan Labs
- ** The US funded this research through NIH grants under his leadership

Fauci's recent real estate acquisitions in the United Kingdom, Argentina, and Panama, heightening concerns that the Deep State doctor might flee the country ahead of being served an arrest warrant for crimes committed against America and its people.

What is truly going on with COVID-19 and the global pandemic? Check out **this website**, and to satisfy your thirst for the truth, please read as much of the information in the menu starting with "*Pandemic Facts*".

Or was this the real reason for the faked pandemic? Blow your mind **HERE**.

The Board of Supervisors need to enact a vaccination confirmation system of some sort. Those of us vaccination need to feel safe. Don't let a vocal minority dictate your actions.
