Subject: Covid Passport!
Attachments: EO-21-81 State of Florida concerning passport for covid.pdf

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

Thank you for taking the time to read this. I believe that more now than more than ever we all need to come together. The division that a Covid Passport will cause has got to be stopped. There are various reasons for people who are not ready to take the shot, and a passport should not be imposed on them. I know that it is elective, but it is totally unfair. Also, how does anyone know when the shot will stop working, and if it will work on variations of the virus. Please note the file that I sent to you. It is from Florida's governor. He is wise to proceed this way.

Thank you for your time.

Ann Tarkington

Huntington Beach, CA.

Sent from [Mail](#) for Windows 10

STATE OF FLORIDA

OFFICE OF THE GOVERNOR EXECUTIVE ORDER NUMBER 21-81

(Prohibiting COVID-19 Vaccine Passports)

WHEREAS, on March 9, 2020, I issued Executive Order 20-52, subsequently extended, declaring a state of emergency for the entire State of Florida as a result of COVID-19; and

WHEREAS, on December 23, 2020, I issued Executive Order 20-315, as subsequently extended by Executive Orders 21-46, 21-47, 21-62, 21-67, and 21-79, directing Florida's initial phase of vaccine distribution and prioritizing seniors first; and

WHEREAS, the State of Florida is leading the effort to distribute the vaccine to elderly and vulnerable populations of the State and has successfully provided vaccines to nearly 3.5 million seniors; and

WHEREAS, many Floridians have not yet had the opportunity to obtain a COVID-19 vaccination, some have infection-acquired immunity, and others may be unable to obtain a COVID-19 vaccination due to health, religious, or other reasons; and

WHEREAS, Florida seeks to ensure that every Floridian who desires a COVID-19 vaccine can obtain one, but such vaccines will not be mandated; and

WHEREAS, no COVID-19 vaccine is required by law; and

WHEREAS, individual COVID-19 vaccination records are private health information which should not be shared by mandate; and

WHEREAS, so-called COVID-19 vaccine passports reduce individual freedom and will harm patient privacy; and

WHEREAS, requiring so-called COVID-19 vaccine passports for taking part in everyday life—such as attending a sporting event, patronizing a restaurant, or going to a movie theater—would create two classes of citizens based on vaccination; and

WHEREAS, it is necessary to protect the fundamental rights and privacies of Floridians and the free flow of commerce within the state.

NOW, THEREFORE, I, RON DESANTIS, as Governor of Florida, by virtue of the authority vested in me by Article IV, Section 1(a) of the Florida Constitution and by the Florida Emergency Management Act, as amended, and all other applicable laws, promulgate the following Executive Order:

Section 1. No Florida government entity, or its subdivisions, agents, or assigns, shall be permitted to issue vaccine passports, vaccine passes, or other standardized documentation for the purpose of certifying an individual's COVID-19 vaccination status to a third party, or otherwise publish or share any individual's COVID-19 vaccination record or similar health information.

Section 2. Businesses in Florida are prohibited from requiring patrons or customers to provide any documentation certifying COVID-19 vaccination or post-transmission recovery to gain access to, entry upon, or service from the business.

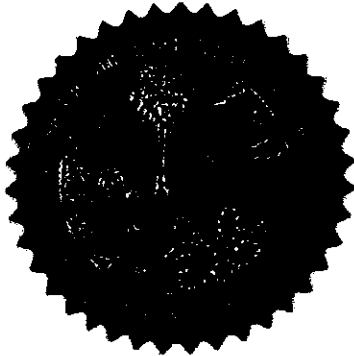

Section 3. All executive agencies under my direction shall work to ensure businesses comply with this order. Any provision of Florida Statutes is hereby suspended solely to the extent it restricts a Florida agency from requiring compliance with this order as a condition for a license, permit, or other state authorization necessary for conducting business in Florida.

Section 4. All businesses must comply with this order to be eligible for grants or contracts funded through state revenue.

Section 5. The requirements in this order do not otherwise restrict businesses from instituting COVID-19 screening protocols in accordance with state and federal law to protect

public health, and nothing herein shall be construed to interfere with individuals' rights to access their own personal health information under federal law.

Section 6. This order is effective immediately and shall remain in effect for the duration of Executive Order 20-52, as extended.

IN TESTIMONY WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Florida to be affixed, at Tallahassee, this 2nd day of April, 2021.

RON DESANTIS, GOVERNOR

Subject: PLEASE READ AT 5/25 BOARD OF SUP MEETING

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

Good morning,

I have some concerns.

1) It is time to end this ongoing "state of emergency" in Orange County. As per CA HSC 101080, "Whenever a local health emergency is declared by a local health officer pursuant to this section, the local health emergency shall not remain in effect for a period in excess of seven days unless it has been ratified by the board of supervisors, or city council, whichever is applicable to the jurisdiction. The board of supervisors, or city council, if applicable, shall review, at least every 30 days until the local health emergency is terminated, the need for continuing the local health emergency and shall proclaim the termination of the local health emergency at the earliest possible date that conditions warrant the termination." Why are we still in this "state of emergency"? Our covid numbers continue to fall and the vaccinations continue to increase. **IT IS TIME FOR THE ELECTED SUPERVISORS TO TAKE THE HELM OF THE COUNTY BACK FROM THE HEALTH DEPARTMENT APPOINTEES.** AB262 authorized the health agency to lead, but now it's time for it to follow,

to regain the public trust. We need to see the virus, and LISTEN to
2) Another transparency issue was revealed in the media today regarding the authorization of contracts with vendors for vaccination expansion without naming those vendors. Why are these names not disclosed to your constituents? Why aren't the local community clinics involved in these decisions? AGAIN, why not fully disclose what your health officials are doing, why they are doing it and how this is being fully communicated to the communities that are affected? The populace is aware, and you are on record stating, that the longer this "state of emergency" continues, the more money the county receives from the state. This windfall of course, is creating credibility issues between the citizens you represent and the non-transparency that you continue to engage in. Yes, we know you voted for transparency moving forward, but we are well aware that the current budgetary issues regarding the health data app contract are still ongoing without full disclosure to citizens.

3) Confidence is waning in Dr. Chau. Not only does he discount the voices of citizens (the "noise") but he, we now find out because we cared enough to dig into his history, failed to disclose over \$150,000 in speaking fees from Big Pharma (including AstraZeneca) in 2014. Dr. Chau, who has a degree in psychiatry, not medicine, is losing credibility. Quickly.

It's time for Orange County to lead the way in the re-opening of California. Time for you, our elected officials, to regain the public trust, be forthcoming in ALL discussions and decisions regarding the virus, and LISTEN to your constituents, whether or not you agree. We elected you. We expect nothing less.

Hello BoS team,

I would like to make a comment at the meeting tomorrow:

Getting the vaccine has helped me feel more secure. I'd like to thank the distribution teams for getting vaccines out faster so we can open businesses and schools.

I'm frustrated by protests against mask mandates and lies that schools are vaccinating children — not a single person has been forced to get vaccinated.

I'd like to thank Supervisor Foley for her work on vaccine distribution.

Best regards,

Yvonne Su

Subject: COMMENTS FOR May 25th meeting

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

To the OC Board of Supervisors:

> *I am concerned about the county's proposed policy to allow local businesses to require proof of COVID vaccination for entry into their stores. This policy is to be read today. While the board is invested in creating a safe environment for the community, I do not agree that a policy of mandatory COVID vaccination is a responsible method of protecting the community's health.*

> *First of all, the COVID vaccines do not protect against spread. They therefore do not decrease transmission rates.*

> *Secondly, the COVID vaccines are and will remain experimental for some time. When the FDA fully approves the COVID vaccines and removes their emergency authorizations, institutions will likely feel that it is acceptable to mandate these vaccines. However, even if the FDA does not deem the vaccines experimental, they have only been available for less than a year, and past laboratory tests of different COVID vaccines on rats and cats have resulted in 100% of participants' deaths once the vaccinated animals were subjected to the live virus. -- CA HSC 24171 and 24172 declare that individuals have the right to determine what is done to their own bodies and to refuse consent to medical experimentation without duress, coercion or influence. Community members should be able to decide for themselves if they want to take a new vaccine with relatively new RNA technology into their bodies. I am not even mentioning the numerous cases of severe side effects and even deaths resulting from these vaccines, just in San Diego county this past spring.*

> *I expect that the county feels inclined to enact a mandatory vaccination policy based upon liability concerns. No where is there a precedent for an institution being held liable for an individual contracting a virus. I cannot imagine how such a thing could be proven even if such a*

case were brought to court. Instead of weakening the civil rights of community members, pressuring them to take an experimental vaccine, the OC Board of Supervisors should act to protect civil liberties and leave medical decisions to the sovereign individual.

Subject: BOS meeting 5/23/2021

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

I am a 20 year resident of Newport Beach. I also have 22 family members who reside in Orange County for over 20 years. I tried to attend a BOS meeting 2 weeks ago and even though I am fully vaccinated I was wearing a mask as there was a large crowd. As soon as I got out of my car I was immediately called sheep and was talked down to and intimidated by people who were in the parking lot. I was basically left no choice but, to return to my car and leave. I'm hoping my voice will be heard through my email. Every single one of my 22 adult family members are fully vaccinated and when the information came out that there was going to be an opportunity to have a digital proof of being vaccinated myself and my family were glad that we would be given this option as it would be extremely helpful to have our vaccination record with us at all times. I personally have my complete medical records on my phone as I have a illness that sometimes causes me to become unconscious and the hospital simply can open my phone and see all of my medications and diagnoses. I have 2 siblings that have diabetes and they also have their medical records on their phone. There is absolutely no reason that we as responsible adults who have helped in the elimination process of this deadly virus by being vaccinated should not have this opportunity to have our proof of being vaccinated on a digital app on our phones. Please lift the suspension of this digital passport and allow the over 1.5 million vaccinated people in Orange county to have the option for this app.

Sincerely,

Kim
Newport Beach resident

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

Dear Board of Supervisors,

I'm a single mother of two sets of twins, ages 19 and 23. I recently moved from Newport Coast to San Clemente where I grew up; I'm a lifelong resident of Orange County. My kids and I have watched the recent BoS meetings with increasing horror and embarrassment, with the bombardment of a radical fringe making a mockery of basic, scientific facts regarding a worldwide pandemic. These radical anti-vaxxers/anto-maskers have landed Orange County and our Supervisors on national news as a laughingstock. It's time for the majority to speak up. We are the ones who actually believe in science, got our vaccinations, and want a simple, easy method of accessing our vaccine records on our smartphones; just like in LA county.

I am asking you to allow us to access our own vaccine record on the Othena app *IF WE CHOOSE TO DO SO*. It's not a requirement as the radical anti-vaxx fringe likes to scream about, it's a choice by the clear-headed mainstream who want to show non-counterfeit proof of vaccination whenever needed for concerts, sporting events or large gatherings.

My guess is their main complaint is it's hard to counterfeit a QR code. I'm asking you not to pander to a small but loud fringe minority (many of whom don't even live in OC), and put the needs of the majority first.

Thank you for taking the time to read this request.

Sincerely,
Kristine Kenyon

Subject: Item #38 BOS agenda

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

I am writing in response to item #38 on tomorrow's agenda on COVID.

During the past year +, many of us have sat back and followed the California guidelines to be safe, allow the healthcare workers to do their jobs, and not overburden them regardless of others reckless behavior, denial of facts, or proof of effectiveness of masking.

Meanwhile, we have watched the loud, vocal and misinformed minority hold our BOS hostage by claiming that their "RIGHTS" are being challenged by having to wear a mask, close their businesses for a period of time, and basically being good human beings and members of our community.

I am sick and tired of being on the sidelines, and quiet. However, I do not feel safe around many of these folks due to their confrontational behavior.

I want to BOS to know that I support vaccinations for all, and hope that the board will help ease the financial burden of community clinics and healthcare providers by offering support so that we can get the kids back in school fully in the fall and protect the teachers and staffers.

Dear Supervisors:

I write to remind you that the throngs of people who contemptibly clothe themselves in Holocaust drag at meetings and cravenly threaten violence against you and the employees of the Orange County Health Care Agency do not represent the overwhelming majority of Orange County residents. Rather, our goal is to return to as normal a state of affairs as possible as safely and quickly as possible. We recognize that's a tall order, and that reasonable people can disagree on the best way to go about doing it. But we insist that the Board's decisions be based in reality, not the fever dreams of faux victims and would-be insurrectionists.

Hello, the Sorensen Clan

I am writing in regards to our county's response to Covid.

First, thank you Dr. Chau for the honest and science based updates.

I would like to know if this board has any plans to confront the miscellaneous conspiracy theories that have plagued our county with respect to vaccination and the effectiveness of wearing masks. In a recent meeting, a board member questioned if any of the vaccines contain a microchip. Sadly, many residents in Orange County truly believe they do! Are there any plans to better educate the public?

With some reports of concern that we could see a 4th wave, and even many colleges/universities preparing for such an occurrence, what plans are in place to address such an occurrence, should we see an increase in cases again? What commitments are being made by the entire board to only put forth absolute factual information?

Thank you for your time,
Mellonie Sorensen

Hello. While I have watched the circus of the last few meetings it's really the boards behavior that I'd like to focus on. Katrina is good. The rest of you are amazingly dense for people with educations. The believe that a microchip is going to be inserted with the vaccine, while you're walking around with a smart phone in your hand/pocket is beyond laughable. Continuing to engage the anti mask/antivaxx crowd is ridiculous.

Let's be honest though, I am vaccinated and I will continue to wear my mask because there are those people in our community who can't be trusted to be honest and lack of compassion towards their fellow humans is disgusting. A mask doesn't hurt you. Frontline healthcare workers have worn them for years with no effects. I feel like I'm watching the enquirer tv while watching some of your public comments.

Vaccine passports, I know it's not going to be a thing, but oh god do I wish it was. Being in spaces where I know everyone is vaccinated and has proven it sounds divine.

In close do better for the public, quit acting like the enquirer magazine, and Katrina, great job!

Hello,

As a vaccinated citizen of Orange County, I want to voice my disgust that the board has allowed a loud, small, anti vaccination group to have so much influence over something that should be a convenience for vaccinated citizens of Orange County. What do people that choose not to be vaccinated care about how vaccinated citizens show proof of vaccination. Why is the board allowing those this benefit does not involve to table or withhold this convenience from vaccinated residents of our county. Why does the county continue to foot-drag and get in the way of us moving forward. Vaccinations are the way out of this mess. Let's keep moving forward.

Dear Orange County Board of Supervisors,

END THIS STATE OF EMERGENCY ORDER!! Every 30 days you re-instate this tyrannical emergency order when COVID is 99.9% curable before Vaccines! We have never eradicated any virus to 100%! Re-establish an actual number that defines a Pandemic! Fire Dr. Clayton Chau and eliminate this appointed position. We did not vote for him, we voted for you! Why are you taking orders from a non-medical Doctor of psychology who is alumni of a now-defunct college? Or do you want to get sued? At this point, it also sounds like a case for the Supreme Court using RICO Laws.

The best way out of this quagmire you are all an accessory to is:
1) END THE STATE OF EMERGENCY! NOW!
2) Drop the Digital Vaccine Passport APP
3) Restore our faith in the Board of Supervisors by firing Dr. Clayton Chau and eliminating his position.

Cease & Desist the Othello Digital Vaccine Passports!! This APP is discriminatory against people who have allergies or injuries from Vaccine drugs. It is also discriminatory against Religious people who don't believe in taking experimental, non-labile drugs for their immunity. There are so many more successful immunity products that work better than the failure of Vaccine drugs. These drugs are made by the same drug companies that gave us the Opioid Crisis and the Vioxx Crixix! Why does this Digital Vaccine APP even exist? We don't have APP's for any other drugs, why would you choose to have an APP for the only drug on the market that you can not sue for injury or death? This makes no sense and is legally Medical Malpractice. Why would the Orange County Board of Supervisors use Coercion to monitor immunity? Stop Pushing Drugs for the Pharmaceutical industry!

This Digital Vaccine Passport will segregate people in places of business! This is the very definition of discrimination! This is against the 5th and the 14th Amendments to our Constitution. It is also against Commerce Law, US Code 13 "It shall be unlawful for any person to discriminate in favor of one purchaser against another purchaser" This creates Prisoners out of "Free" people who decide to use other immunity products! Stop pushing Western Allopathic

Pharmaceutical Drugs as the only way to immunity! Stop pushing Big Tech onto your constituents who prefer to live a life free of Big Tech. Health Freedom is our protected right by the Constitution, by Nuremberg Law, and the Bill of Rights.

Get rid of this intrusive and discriminatory Digital Vaccine Passport Contract immediately! Adopt a resolution to outlaw and prohibit stores and businesses from using this discriminatory tech! Outlaw these passports as a condition of entry!

You are all in violation of your oath to the Constitution. Many are now filing affidavits against all 5 of you. This can all end peacefully if you do the 3 items above. It's really very simple. Just do it.

Regards,

Shannon Jachetta

I'm writing in regards to Item 38 and my frustration and embarrassment about how our county is perceived by those outside. If we want to attract high-end jobs and innovators we cannot keep debating what is proven science: masks work, vaccines are safe, and that COVID-19 is deadly to a percentage of our population.

Stop litigating the past and look forward. What do we need to do move get through this as quickly and safely as possible? Why are we not seeing county ads on vaccine safety and availability? Why are we depending on Uber to transport people to vaccine sites and restaurants to bribe the reluctant with free food and drinks?

TAKE A LEADERSHIP POSITION on this. Accept the science, and encourage everyone who can safely be vaccinated to do so.

Hopefully we can begin to tell others we live in Orange County without an eye roll or a chuckle from them.

Dear OC Supervisors;

Thank you for this opportunity to share my thoughts on Covid-19 in Orange County.

My name is Kelli Bourne and I am a long time resident of Orange County.

I would like to express my support and gratitude for maintaining vaccination sites throughout OC, including a move to community-based vaccine disbursement in high-impact communities.

Additionally, maintaining the mask mandate until at least summer is over is crucial until data demonstrates herd immunity in OC has been reached, as well until vacationers traveling to OC - whose vaccine status is unknown - have declined.

The 5,000 OC residents who died from Covid-19 didn't have to die. You failed them. You have the opportunity NOW to make up for that by using science - and not conspiracy - to guide public health investment, services & policy.

Please invest resources in science-driven health policy & services via community-based providers and the OC Health Care Agency, not social controls like jail and sheriff staffing. You & I both know incarcerations in OC are at a historic low - but people are still struggling to survive, some with rent, food, and even Covid-19. Please do your job and help THEM.

Thank you again for your time,
Kelli Bourne

I realize that the cdc us erred and lifted mask mandates however the pandemic still exists and I believe that masks should remain a part of everyday life. They cause no harm to anyone and are necessary to continue to get rid of this horrible virus.

When the general public has been largely vaccinated that is the time to remove mask mandates. When the new covid exposures numbers have dropped to below 1%, that is when mask and social distancing regulations should be dropped.

The board dropped the ball early in the pandemic by not following the science. Let's not make that mistake again Thank you Kim totman Ps Katrina Foley is awesome and you guys should check your egos and listen to her.

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

Board of Supervisors,

I am a single mother of 2 children that are under the age of 12 and hence not eligible for the vaccine. I am very concerned and have been for over a year regarding the county's response to the COVID pandemic. I feel it is reckless and ill advised to fully reopen any county while there is a vulnerable population that is not eligible for the vaccine yet. I am tired of seeing politics being played with people's health and safety. Stop listening to the loudest most obnoxious voice in the room and do the right thing.

Subject: #38 Public Comment - COVID

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

Those who have been speaking at the BOS meetings lately do NOT represent all of OC. They are only the reckless blowhards that are willing to show up without a mask during a pandemic - selfish individuals who do not care about others in their community, including the BOS. Kids under 12 cannot yet receive the vaccination. Are we really going to just "get back to life" without keeping them safe?

If OC wants to get back in the game, I 100% support schools and businesses requiring proof of vaccination. And to enforce mask wearing. I will not go to any business that has subverted the mask requirements or will not take steps to protect their employees/patrons. Trader Joe's was my favorite store, but I will not shop there anymore if they don't enforce mask wearing. There are several restaurants in Dana Point who have flagrantly ignored all safeguards during the pandemic - I will never eat there again.

I have wanted to attend other BOS meetings to share my concerns, but have not for several reasons. I have a high-risk medically fragile 16 yo and will not expose myself to the anti-mask/anti-vaxx crowds that usually attend. Seeing how they have harassed Dr. Chau, I am not exposing myself to that. Frankly, it is not safe to mix in any way with that nutty crowd.

Vaccine Passports/Verification are NOT unconstitutional and do NOT violate HIPAA. The BOS must have legal counsel to verify this.

OC has become a national laughing stock because of its past actions on the pandemic. It is embarrassing to live here at this moment.

Dear Members of the Board,

I've read about the recent protest opposing voluntary online covid vaccination registration. I am sorry to read about the abuse directed towards our elected officials. I am in the majority of 65% vaccinated senior Americans and I wanted to say THANK YOU. I do believe you are trying to make decisions that benefit the public in very challenging situations.

I just wanted to affirm my support. I do hope you keep in mind, for every negative comment there is a positive comment from residents who appreciate what you are doing on behalf of our community.

Thank you for your service.

Kathryn Anderson
70 year Orange County Native
(I was born at St. Joseph's in 1951.)

RE: MAY 25, 2021 OCBOS MEETING; HEALTH CARE AGENCY - AGENDA ITEM #38

Supervisors,

Today I'm addressing Agenda Item #38.

For over a year, I have watched Supervisors Wagner, Do, and former Supervisor Steel, ask questions and make statements seemingly designed to specifically encourage a small but violent fringe group of disinformation spreaders. I have watched Supervisors Bartlett and Chaffee offer their tacit approval by choosing to be mute. I have watched as you encouraged hurting the majority of citizens and business by your indulgence of the disinformation spreaders as they have said things like:

There is a large majority of Orange County that does not agree with your actions. You have been very successful in making sure to only hear one side, by creating an unsafe and hostile environment for meeting attendees. Congrats?

- minimizing and dismissing the deaths of 5,049 of our neighbors
- threatening fellow citizens and county employees like Dr. Chau, Supervisor Foley and before them, Dr. Quik andees can make decisions virtually. This makes it possible to hear from all citizens, including those of us who work, have children, have limited transportation, etc. Is there a reason that you don't want to do this other than not wanting to hear from more than the violent fringe group you have been courting?

You have allowed this loud and violent fringe group to purposely misconstrue facts and then endorse them by choosing not to correct the disinformation but worse, by kowtowing to it. Two recent examples of this are "forced" vaccinations and vaccine "passports".

Supervisor Wagner, your first COVID press conference you made very clear that the priority of the OCBOS was *not* citizens but businesses. You may not know this but dead people don't spend money. Sick people's budgets are drastically reduced by having to pay for healthcare rather than dining out, clothing, and the like. It's time to step up for business and stop holding vaccine data hostage FOR THE CITIZENS WHO WANT THEIR OWN DATA simply because the violent fringe wants you to. This will help businesses thrive, something that you claim you want. Why not take the opportunity to finally prove it?

On May 11th, after Supervisors Do, Wager, Bartlett and Chaffee caved to the fringe's purposely misconstrued and racist fear-mongering by halting the COVID-19 vaccine digital records project, Supervisor Foley asked how much that was going to save us in the Othena contract. While I shouldn't have been, I was stunned to watch Chairman Do and CEO Kim first try to brush it off and then scramble, unsuccessfully, for an answer. Unacceptable. You are supposed to be acting in the County's best interest. If you can't properly account for the money that you are spending, how can you claim to be acting in our interest?

There is a large majority of Orange County that does not agree with your actions. You have been very successful in making sure to only hear one side, by creating an unsafe and hostile environment for meeting attendees. Congrats?

It's time to listen to Supervisor Foley and bring the meetings into the 21st century. Let's have digital meetings where attendees can make comments virtually. This makes it possible to hear from all citizens, including those of us who work, have children, have limited transportation, etc. Is there a reason that you don't want to do this other than not wanting to hear from more than the violent fringe group you have been courting?

Thank you,
Nonia

Dear members of the OC Board of Supervisors,

As a resident of Orange County and an employee of Capistrano Unified School District, I urge you to keep mask mandates in place for inside business and public buildings. I am vaccinated, but know 4 of my coworkers are not. Additionally, members of the community come into our administration office throughout the day. Many of these people are statistically not vaccinated. We need to maintain our vigilance to ensure we do not succumb to the dangers of COVID 19 or its new variants again. Please use common sense and keep Orange County safe.

Sincerely,

*Patty Robinson

Subject: Item #38

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

I am a 44-year old, grew up in Orange County, and currently raising 3 children in OC. Since the start of the COVID-19 struggles, I have grown increasingly frustrated with the small but annoyingly-loud minority of fellow OC residents. And that has created a feeling of embarrassment to be a resident of OC myself. I have loved Orange County, but the past year and some, has caused me and my family to consider relocating. I feel appalled by those residents who are trying to compare the COVID restrictions and guidelines to the horrors that so many endured during the Holocaust. I want to continue to raise my children in Orange County. But, I will not if the decision-makers are choosing to silence the toxic, self-centered minority by caving to the demands that are not for the greater good of the residents of Orange County.

Thank you.

Subject: Regarding Item 38

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

Let me start by first thanking the board for making it possible for ALL OC residents' voices be heard.

For too long a small, but loud, minority has been hijacking the conversation around Covid and the county's response. The hate, vitriol, and antisemitism displayed has been reprehensible. The conspiracy-driven rhetoric has made a mockery of this county and this board.

The threats against Dr. Chau and his family are reprehensible. And I'm calling on the board to take action to unequivocally dispel misinformation, condemn hate speech, and stop the harrassment of our County Health Director.

Thank you.

Subject: Agenda Item #38 - COVID

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

Dear Supervisors,
In regards to Agenda Item 38 -

Please do not let a small group of very loud and delusional commenters distract you from making such an important decision for the county. This decision should be made with public health in the forefront of your thinking, and with the best interests for ALL of Orange County in mind.

Anti-vaccine conspiracy theories have no place in this conversation.

But, here we are 15 months later, struggling to get our vaccine numbers up because the information we have been poisoned, and our leadership is failing to effectively counter the disinfo machine that has been allowed to thrive in OC.

The BOS meetings have become hijacked by a coordinated operation of people who travel throughout the state, spreading misinformation and propaganda related to anti-mask, COVID denial, and more.

Many of these same people attended the Capitol insurrection on January 6. These are professionals with an agenda, and the public's health is not it.

It's more than unfortunate, and it's actually dangerous, that they been given such a large platform & audience for these lies.

As a lifelong OC resident it's embarrassing that this nonsense could even be taken seriously by our county leadership.

I hope that you will take my comments to heart, and thank you for your service to the community.

To the Orange County Board of Supervisors,

I am writing today to ask that you stop letting a vocal minority intimidate you into keeping law-abiding, tax-paying residents from our own medical information. For those who have received the vaccine, it is within our right to access that information physically and digitally. It is our information and we expect a way to access it.

We know that some of this vocal minority are opportunists that prey on their supporters by selling fraudulent vaccination documentation. We know they see an opportunity to make money and cause chaos, in order to make more money. They are incentivized to make sure we cannot access our own information. This type of blatant fraud must end.

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

I am a 25 year Huntington Beach resident, and have health factors that place me at increased risk of complications from Covid. This past year has been very difficult for my family as we took extra measures to stay safe.

Knowing that so many in my county genuinely didn't care whether I survived this pandemic has been a real eye opener. I've been told that I should stay home because people do not even want to wear masks to the grocery store. A covid denier was elected to my city council. I have not felt like this county cared about the safety of people like me.

Thankfully my family is all vaccinated now but because I am immune suppressed I still am not sure whether it will be safe for me to be around unmasked people knowing that unvaccinated people don't care whether they infect me. Please know that there are many people like me in Huntington Beach, who watch what's happening in this county and feel betrayed by our neighbors.

Subject: Item 38 OC Supervisor Meeting

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

Hello OC Board of Supervisors,

I would like to address Item 38 on the agenda. My whole family, 2 adults, 1 teen and 1 tween, have been vaccinated. My kids received their first dose and are eagerly waiting for their 2nd. Being fully vaccinated has allowed me to be a better caretaker for my elderly parents. Before, I would wear a mask in their house, or in the car when taking them to doctor appointments. Now that we are all fully vaccinated, I'm able to go barefaced, and my kids are looking forward to doing that too.

We wore masks all year, did school from home, then hybrid school and now full in-person. Thankfully, the school required safety precautions like masks to keep everyone safe. I appreciate that others are doing their part to keep the community safe, too.

Please ask the residents to allow Dr. Chau to do his job in peace. He is trying to keep the county safe and his personal safety should not be jeopardized by speaking science.

Thank you for all you do!

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

The science is clear:

If you are vaccinated against COVID19, you are safe. The vaccines work. You can take off your mask & are not at risk of severe disease or hospitalization.

If you are not vaccinated, you are not safe. Please get vaccinated or continue to wear a mask.

Let's not let the vocal few set our county back AGAIN! We paid for last Memorial Day for 6+ months. Please require masks and vaccines. Please help educate the public. Do not make this a political issue. There are no 2 sides to this. It's public safety. Do your job!!!!

Supervisors:

I believe we must remain cautious in opening up after covid closures to prevent the resurgence of cases. We have watched many countries around the world open too quickly and too completely, only to have a resurgence of cases...frequently of more virulent variants. We have come this far and need to be cautious. We need to wear masks and limit indoor activities. We need to press for everyone to get vaccinated (including children as approval is given for each age group). We need to protect each other. It has been a rough 15 months and no one wants to return to the most deadly times. Let's all show care and concern for each other; let's take care of each other. We can do this! We need to do this!

Subject: May 25 Meeting agenda item #38 public comment

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

Good morning;

I've been lucky to be able to work from home the last ~14 months. Not everyone has been that lucky. Many who were not that lucky died. Died from ignorance. Died from fear. Died from a sense of entitlement for those residents of our County who feel rules and consideration for others are weaknesses. Died from lack of action by the Board of Supervisors. Died from the Board of Supervisors decision paralysis. Died from lack of support from the Board of Supervisors for the County Health Officer.

One CHO has already resigned from this lack of support. It's time to rein in the angry mob who refuse to believe in science, reason, decorum, or civility. This mob has been coddled and enabled by most of our County Supervisors over the last 14 months by leveraging their ignorance and anger for their political or personal gain.

Science hasn't even figured out the long term ramifications of contracting covid-19, yet we're already trying to remove all the protections which have kept our County death count relatively low.

Be brave. If not for yourselves, for our children and grandchildren. Consider the consequences of the Board beyond the next 2 or 4 years.

Thank you for your time.

Subject: Item 38 (general comments about covid/masks/vaccines and emergency orders

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

I'm a resident of orange county and I'm currently studying to be in healthcare. It pains and infuriates me when I hear that many residents refuse to get the vaccine, refuse to wear a mask because of "their rights" but feel it is perfectly fine to threaten and violently protest outside of doctors and OC supervisors residences. All over decisions that benefit everybody.

While stores and businesses have the right to require a face mask to be properly worn to enter and while shopping, a few people attempted to make a social media spectacle against these businesses. If they are confronted by a store employee to put on a mask, they threaten the employee that does not make store policy with a lawsuit. If they are not let in, they liken the actions to bring in Nazi Germany. All over wearing a small piece of cloth for a few minutes.

Until we are much closer to herd immunity in the county, we must keep masks and distancing as we have for as long as we can. We also need a vaccine passport as proof to ensure businesses and residents can remain safe. Vaccines are required for many aspects of our lives but none more immediate and important as this one is today. And nobody has the right to threaten decision makers' lives to force a change in policy or make them quit in favor of different leadership. Thank you.

Lyndsey Lefebvre

It is depressing that a small group of far-right zealots have hijacked any reasonable conversation about Covid for the past year. One of those issues this group has hijacked is the access to digitized vaccine records - which those who have vaccinated should have access to - are being stopped by a smaller group of discontents with false fears about buying groceries - all the while live streaming their arguments at Trader Joe's.

Please reconsider providing this access and encourage our large scale venues like Disneyland to use them.

Subject: Co Vid 19 concerns and public healthcare safety

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.
To the CC Supervisors,

I am a healthcare worker who has been accused of being fearful and irrational owing to my adherence to public health recommendations when it comes to Co-Vid 19. I have been vaccinated and I wear my mask when necessary. It is how I can be part of the solution of putting an end to this pandemic.

Never in my 15+ years of treating patients have I been accused of being irrational and fearful when I washed my hands, wore gloves, mask and gowns to be able to safely treat a patient. What person would want any of their personal healthcare providers to "cut corners" se. Nowadays, I am accused of being fearful, being a labrat and of being misinformed of those who are unwilling to follow safety practices for one reason or a other.

The doxing and bullying of our Healthcare advisers need to stop. What can we do to ensure their safety as they serve our community? We don't go into healthcare wanting to harm people but rather quite the opposite. We want to help people. It is a sad day to feel threatened by the very same public we are trying to protect and treat when they become in need.

I am asking you do your part in coming together to help secure the safety and well-being mentally and physically of our healthcare leaders and their loved ones.

Thank you for your time, service and consideration during a most crucial time in our lifetime. Thank you for all you have done and are doing to help heal our community.

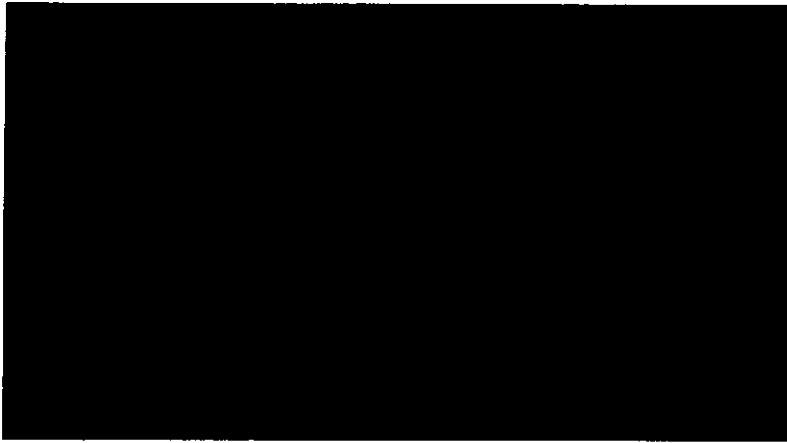

God bless.

Sincerely,
Zirna Luistro, PT, DPT

Colorado bans doxxing of health workers, officials

By Nathaniel Weixel

Colorado this week outlawed sharing online the personal information of public health workers, officials or their families as a way to harass or intimidate them, responding to a massive increase in such threats during the coronavirus pandemic.

Directed to the meeting. Item 38.

This past year and a half majority of us have had to live with many of the Antimaskers, disrupting our lives in more than one way. The majority of us have done the right thing. Wear masks, social distance and are not Vaccinated. It's time to move forward with the vaccine passport so the Antivaxers cannot fraudulently create a vaccine card for themselves. Early on, I had covid. Took me 5 months to finally recover, but not with long term health issues. My children have been virtual learning and will continue this next year because of parents like Tito Ortiz feeling he's above the rule of science. I trust no one because of the mistrust we've had to endure this past year and a half.

You never met half way with is about mask mandates, you sided with the "antis" every time. Especially Don Wagner. It's time to move forward away from them, it's time to give us, the majority the right to breath. We need boundaries in place, we need a vaccine passport. The Anti crowd should not be rewarded for their bad behavior, or be able to cheat and lie, any longer.

The immature behavior outside of Dr. Chau's house needs to be addressed, and to anyone who harassed purposely, needs to be arrested. Enough is enough!

Don Wagner has lost trust in both sides by his reckless attitude towards covid, encouraging the anti crowd to continue with their fight. It's wrong. It needs to stop!

We the MAJORITY are tired of being let down continuously and now we need everyone to step up and put a stop with this or we'll be back to step one again.

Vaccine passports, right to shop while vaccinated, or those who honestly cannot prove they are vaccinated. Need to mask up or stay home!

I hope we are being heard, enough is enough!

To protect myself and the rest of the community, and so that I could safely return to work without endangering the little ones and their families with whom I work, I received my vaccines as soon as I was able to do so. Unfortunately, I have cancer of the blood, and the vaccines often do not produce antibodies for those with this and many other diseases. It is not asking much for people to simply wear a mask and keep their distance when out in public among strangers, many of whom have unknown conditions. After losing my brother to Covid-19 a year ago, my family doesn't need to go through any more tragedy, nor do families with similar situations. I appreciate the leaders in this community who follow the science and enforce the regulations and laws made to protect everyone. It is tragic that so many selfish people disparage the sense of civic and community responsibility that others show to protect the people we love and live among.

Good morning,

I'm a nurse and mother of 2. I live in Donald Wagner's district. He is an embarrassment, a complete failure a BOS. I can understand individuals that buy into misinformation but I can not accept elected officials to spread misinformation in order to keep their constituents. We all have been affected by Covid one way or another. My concern at this point is my unvaccinated child. I want mask mandate in school until all age groups are able to vaccinate. I want people to stop harass people that want to continue to wear their mask. I want mask mandate at indoor settings. I will continue to wear my mask because I need to protect my unvaccinated child at home. Thank you for listening

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

Good Morning,

I am writing to you to show support for those of us who have followed federal, state, and county guidelines in regards to masks, social distancing, getting vaccinated. We following our scientists, doctors and local community leaders that encourage us to help our selves, our families, and our communities.

We have a voice and would like to be heard as well, but many of us do not want to attend the B.O.S. meetings where loud conspiracy theorists, antivaxers, grifters, and in some cases, insurrectionists from Jan. 6 at the U.S. Capital, are there in loud numbers and verbally attacking anyone who goes against their so called beliefs.

I am extremely disappointed that all but one supervisor, Katrina Foley, caved to this minority group of people. These people do not represent us in the least.

I would like to attend these meetings in the future, but don't feel it is safe.

As of reports on social media, I am aware of members of this group showing up at Dr. Chau's home and pulling the same shameful acts they did to Dr. Birk. I am aware that they are planning on doing this to my supervisor, Katrina Foley, and I am completely disgusted. This is in no way ok! No one should feel threatened or unsafe in their own home with their own family. Or ever, for that matter!

I expect the other Board of Supervisors to speak up and condemn this asinine behavior and not only to speak up, but arrest or fine them. There seems to be no accountability with these people, and the rest of us rational, educated people are sick of it.

Also, regarding I expect transparency with the vendors for the vaccines. Who got the contracts? Why is this kept from your constituents? Too many community groups that have been giving the vaccines have been left out of the process involving what seems to be secretive contracts. I hope this is addressed at the meeting.

Thank you for taking the time to listen to my concerns.

Sincerely,

K.B.

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

It is really disappointing that the supervisors cater to and feed the nonsense that has been present at several of the last board meetings. I would like the board to address these people instead of letting them carry on about false information as though they are stopping something that was never a thing to begin with. The supervisors need to speak up. YOU are allowing the danger toward Director Chau. YOU are feeding this energy by refusing to address these people and instead penning letters that act like these misinformed people that show up have swayed your opinions in any way.

I would especially like my supervisor, Don Wagner, to stop catering to crazy, stop writing silly letters that serve no purpose, and get to work for the people of his district.

Enough is enough. Put this to rest before someone gets hurt. Get to work for the people of Orange County. This has gone on long enough.

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

Dear Orange County Board of Supervisors,

My wife and I have been residents of Orange County the last 35 years, 42 of the last 49 years. We've raised our children here, and now they are raising their children here. Sadly, a consistent topic of discussion among our family, as well as several of our friends and neighbors, has been the mismanagement of the pandemic by the Board of Supervisors, our elected representatives. Those of us who have occasionally 'tuned in' to watch Board meetings, have witnessed how most of the people there making public comments, are those who have denied the seriousness of COVID-19 and vehemently protested the public health guidelines put forward by the local, state, national, and even global public health experts. These public health officials (e.g. Dr. Nichole Quick), who have been elevated to their positions specifically to protect the public, and their recommendations are derived from ongoing data provided by our nation's leading epidemiologists, virologists, infectious disease specialists, and emergency doctors. Unfortunately, this small segment of the public – the only ones who felt emboldened to gather indoors to attend Board meetings, apparently wielded influence on the Board's decisions through several of the early months of the pandemic; and their continued preponderance of science-denying rhetoric is driving unfounded rumors and propaganda that not only continues to do notable damage to the reputation of Orange County (as we hear all about it from our relatives and friends across the country), but is now causing the Board additional work in trying to shut down these rumors (e.g. forced vaccinations, mandatory vaccine passports, etc.).

Neither my wife or I are doctors, but on our short cul-de-sac of only 20 homes, there are at least 7 medical professionals that we know of (doctors, nurses, pharmacists), and every single one of them we've spoken to has taken the Coronavirus pandemic very seriously, as have our primary care doctors and specialists. And as such, we've all strictly followed the guidelines of social distancing, masking in public, no gatherings (even with family indoors, etc). And like most people we know, the first priority for every member of our family this year was to schedule and receive the vaccine as soon as possible – to help ensure the safety of each other and our community. And we recognize and believe what the vast majority of the experts have said, that our schools, businesses, careers, and personal lives will not return to what we remember as 'normal' until at least 70% to 80% of our nation's population is vaccinated.

As infections, hospitalizations and deaths continue to fall and our county and state move towards opening, we truly believe we should all have and need access to digital proof of being vaccinated; as the vaccine cards issued don't fit in a wallet, are not durable, and more importantly – are easily forged. As international travel begins to open up, most nations are requiring proof of vaccine (or current COVID test results), and many businesses (airlines, sports venues, concert halls, theaters, etc.) are actively considering requiring proof of vaccination in order to protect their employees, their clientele, and their business from any further shutdowns.

As such, we urge the Board to ignore the noise from the fringe minority, eliminate any further delays, by expeditiously taking the appropriate action of approval for Cura-Patient, the developers, to add this vital, necessary, and valuable feature to the Othena app; as Los Angeles County and other counties have already done.

With kind regards,

Subject: BoS Meeting 5/25/21

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

To Whom it May Concern:

I am writing because I am sickened by the amount of selfish, narcissistic individuals in our county who believe that their opinions are the only ones who count. I am tired of seeing people claim a mask is taking away their freedom. I am tired of seeing people like Peggy Hall knowingly spread lies and fear throughout our community.

Masks save lives. Vaccines save lives. We need people to support science, not give in to loud, uneducated sociopaths who think they are more important because they scream louder. We need your support to stop these people from preventing our schools from being safe. We need you to stop them from attacking and harassing our essential workers who are just trying to do their jobs. We need you to stop them from picketing the houses of our health directors. We need you to do your job so we can do ours.

I am so tired of seeing air time given to these self-serving people. Most of us can't take a day off to yell at reporters at a board meeting in a Tuesday morning. Instead, I hope you realize that the vast majority of people living in Orange County are not represented by Peggy Hall and her anti-vaxxer ilk. The majority of us are just are trying to be decent people and get through the pandemic the best we can. I hope you make your decisions for the majority of us, not the few psychotic individuals who do whatever they can just to get attention.

Thank you,

Hello,

I express my concern over truth and misinformation. We are in a state of distress, trust in public office has been compromised in the past. We are in the process of rebuilding with no middle ground. The anti-vaxers refuse the vaccination. Yes, it's not forced. We're in America. We have that freedom. We're in the middle of a pandemic. With over 500,000 american lives lost can we doubt covid? Digital vaccine passports have been shut down in our local government. Are we stripping away the freedom of the business owners, employees of corporations, and institutions when we eliminate key information of that holds safety information during a global pandemic? Don't want vax, then mask up. Why do we need multiple variables?

Also, in our community, we have the safety of Dr Chau at risk. There are news reports of people jeopardizing the safety of him and his family. Why isn't there anything being done about this? Words have circulated that Supervisor Katrina Foley is next? Dr Chau is the sitting public health officer. Why isn't oc capable of supporting an independent office without compromising their physical safety. Also, with supervisor Katrina Foley? Are we providing safety for our elected officials or do they get physically bullied over coercion and misinformation? Let's work together.

Thank you,
Concerned citizen

Subject: OCBOS Meeting - Agenda Item #38

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

I ask that the Board vote to approve the continuance of the local health emergency related to the COVID-19 pandemic. When the pandemic began, my family and I took every health precaution advised, we pulled our children out of school and had them attend virtually, we worked from home, wore masks when we went out for essential supply runs only, and did not see family or friends. Unfortunately, a medical situation required that I have a surgical procedure in mid-December 2020, and I ended up contracting COVID. Within 72 hours of my symptoms, my husband and 11 year old daughter started having symptoms. Thankfully, our 17 year old daughter was asymptomatic, and was able to take care of the three of us during this time. Not only did we have to deal with our symptoms, we were also aware that the hospitals were surging, there was no room at any of the ICUs, and Orange County was running out of ventilators. Our youngest daughter recovered within a week, but it took me 7 weeks until I felt somewhat normal. However, my husband, who prior to COVID was in near perfect health, is still trying to recover all these months later. He is now asthmatic, still deals with bouts of exhaustion, and has other "long hauler" symptoms.

Three out of the four of us have been relieved to receive the vaccine, and our youngest daughter will be getting the vaccine in August when she turns 12, but until then, we need to keep her safe. By approving the continuance of the health emergency, this will help us, and many other Orange County parents, keep our kids safe until OC's youngest residents are able to be vaccinated and protected against this cruel virus that has already claimed the lives of nearly 600,000 Americans, and nearly 63,000 Californians. Thank you.

> Dear OC BOS,

> Although covid death and infections have decreased significantly, its success can NOT be credited to the Board due to your defiance with CDC guidelines and politicizing mask mandates. A majority of the board allowed and even encouraged divisive rallies that questioned the validity of anything that had to do with covid 19 and your arguments were not based on science but conspiracy theories that are pervasive in your districts. You have an obligation as public officials to coordinate and help stem this public health crisis and you failed, miserably. Supv Foley is the sole board member who can demonstrate respectable leadership with common sense and rational discussion. An opportunity arose for the board to redeem itself with the optional digital vaccine passport and it was missed. Not only did the board entertain the conspiracy theories, you also remained silent when people equated optional digital vaccine passport with the Holocaust! No one came out to condemn such an egregious offensive analogy except Supv Foley. I question the remaining board members' ethics and morals and hope for the sake of our county you start doing better. Thank you Supv Foley for your persistence in getting the word out on vaccinations and being a true supporter of public health, if only the rest of your colleagues can recognize and be one as well!

NOTE: at my age, 75+, I'd rather not attend a live meeting.

Dear Supervisors:

Words fail me. Last year you did almost nothing when Dr. Nichole Quick was publicly attacked and harassed, leading to her resignation. At the time, some of you mildly objected while at the same time refusing to robustly endorse measures designed to protect all of us from Covid-19. Actually, it was worse than that: some of you outright opposed such measures, despite the fact that they were proposed by experienced epidemiologists and public health doctors.

Now Dr. Chau and Supervisor Foley are targets. And finally some of you are coming out with a statement objecting to the behavior. Except that it is a year too late. You have all but condoned the behavior you now find objectionable.

Let us not forget that you are also the object of a harsh review of the Covid response by the current Grand Jury.

Subject: Agenda Item 38 - Covid Update

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

Hello Board of Supervisors,

This is my first time writing in, because for the past year you let the mob seize control of your meetings. It has been a disheartening display of weakness in your leadership roles. Now they are targeting Dr. Chau and Supervisor Foley's homes to harass them merely for doing their job. You cannot let this continue.

After adhering to all the health guidelines as best I could from the very beginning, I am fully vaccinated and starting normal life again. It seems those that disregarded public health will have the same reward, but I don't regret at all my decision to put my community before myself. Still, I know we aren't out of the woods yet. Less than half the county is fully vaccinated, more than enough to spread and potentially mutate the virus. In this home stretch you need to do all you can to promote vaccinations prior to June 15, while carefully listening to the medical community respectfully and honestly. Specifically, Supervisor Wagner, you have to stop muddying the waters and pushing political narratives in order to sow confusion.

Please be leaders, stand up to the irrational minority, and put your community first.

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

Hello -

First, thank you to the residents and public servants who have done their part to move us in the right direction with COVID-19 by vaccinating, staying home, masking, socially distancing and following good COVID safety protocols.

Unfortunately, a small but very vocal minority has not only refused to follow protocols, but are also spreading misinformation and influencing the COVID response here in Orange County.

Some board members have given a platform to the misinformation and have not supported the enforcement of safety protocols, which has made it much less safe for the majority of us who care about protecting ourselves, our families and our communities.

The vocal minority who is opposed to COVID safety measures should not have the power to make things unsafe for the vast majority of us who are getting vaccinated and behaving safely.

Public safety needs to be the priority and policy needs to be based on science, not conspiracy theories and false information.

Children ages 12 and up are just now eligible for their first dose of the vaccine and not fully vaccinated. Younger children are fully vulnerable.

Those of us who have been behaving safely are why OC COVID-19 numbers are heading in the right direction and policy needs to encourage more of this.

The loud minority that is spreading false information at board meetings and at the homes of our public servants should not have the ability to make things less safe for all of us.

Subject: I am very upset. I support your recall if this goes through.

To the Board:

Forcing a medical experiment upon an individual as a condition to participate in society is illegal, unlawful and immoral and reprehensible and it is a violation of our God-given, Natural, and Common Law rights, as expressed and confirmed in the American Declaration of Independence, and as reflected in the constitution of this state and the constitution of the United States.

It doesn't matter what you say.

1. There is no emergency. There never has been one. The numbers don't support it.

2. This board is perpetuating the notion of an emergency to get money, to impose tyranny and to unlawfully force medical experimentation upon the populace. This so-called vaccine has only gotten an emergency use authorization under the guise of an emergency; otherwise the EUA is null and void (by the way, masks and covid tests are EUAs as well.)

3. Even if this could be called an emergency, no emergency suspends one's rights. Rights cannot be taken from you.

4. This board is perpetrating fraud, and fraud is a felony and a felony carries a prison sentence. You are hereby notified that if you engage in harassment, intimidation and/or retaliation against any member of the public including me, for this statement of truth, such actions will be reported to the FBI.

It doesn't matter whether vaccines work or not.

It doesn't matter whether this is even a vaccine or not.

What matters is that each individual has sovereignty and authority over their own body.

We know what this board is doing.

We know exactly what this board is doing.

Here's the real truth:

These so-called vaccine can never be required as a condition for commerce.

Among many laws that protect individuals from the excess power of government tyrants, here are just a few...

1. EMERGENCY USE AUTHORIZATION LIMITATIONS on All COVID-19 vaccines , which are under an Emergency Use Authorization (EUA) and cannot be made mandatory.

On its website, the U.S. Food and Drug Administration (FDA) notes the following: "...Recipients must be informed... that they have the option to accept or refuse the vaccine ."

2. Forced vaccination violates the right to privacy, which is protected, secured and guaranteed by the 4th Amendment of the US and the constitution of this state.

3. Forced vaccination is unlawful DISCRIMINATION, discriminating against those who have cell phones or want to participate in AI.

Further, forced vaccination is a violation of:

- CA GOV Code 51, which protects FREE AND EQUAL access to ALL PUBLIC ACCOMMODATIONS: Public Accommodations are "private businesses engaged in commerce." That means retails stores, banks, restaurants, recreation, transportation – and entity, location or establishment that is open to the public is prohibited from discriminating against the entry of a member of the public.

- CA GOV CODE 12926 (q) protects one's religious liberty and practice, including the ability to NOT PARTICIPATE in practices that violate one's sincerely held religious beliefs

- CA GOV CODE 37100 – prevents any creation, application or enforcement of a law or policy that violates the California Constitution or the Constitution of the United States.

-- CA HSC 24171 and 24172 declare that individuals have the right to determine what is done to their own bodies and to refuse consent to medical experimentation without duress, coercion or influence

WARNING TO ALL GOVERNMENTAL, PUBLIC AND PRIVATE ENTITIES AND PERSONS

Based on the above, and on behalf of all those named and referenced herein:

(a) No business or organization, including any governmental agency has the authority to force me or anyone else to take any and all COVID-19 vaccines, as well as any other vaccine;

(b) No business or organization, including any governmental agency, has the authority to deny me any and all services provided to COVID-19 vaccinated individuals;

(c) Denial of any such services, will be a violation of our God-given, Natural, Common Law, state and federal constitutional and international rights not to be vaccinated in any way or form without our consent, this includes our right not to be tracked based on our vaccination status; and

(d) Any such government agency, business or organization, person's acting as offices of such entities, man and/or woman, violating our right not to vaccinate against COVID-19 will be liable under tort law and for deprivation of rights under color of law, and will be subject to lawsuits, accordingly.

A tort, in common law jurisdiction and otherwise, is a civil wrong that causes a claimant to suffer loss or harm, resulting in legal liability for the person who commits the tortious act. It can include intentional infliction of emotional distress, negligence, financial losses, injuries, invasion of privacy, and many other things. In summary, no COVID-19 vaccination can be required in order to operate in community and social

life, whether it is to go shopping, to work, to visit recreational areas, to visit persons in medical establishments, to travel, to visit restaurants or any business, or to enjoy are God-given right to go about our lives without government or corporate interference.

Failure to respect this, and any intent to violate anyone's right not to receive any vaccine for COVID-19 or any other disease may and will result in legal action against those involved:

(1) In the case of government officials, coercing and forcing any person to take such vaccines is a violation of your Oath of Office, your obligation to protect our constitutional rights, and will strip you of any and all governmental immunity for acting outside of your authority; and

(2) In the case of any business and organization, man or woman, coercing and forcing any person to take such vaccination in order to provide any services or to provide access to your establishment, will be considered a violation of constitutional rights, subjecting your business or entity, and you as a private citizen, a man or a woman, to legal action against all of your assets. Business and organization policies are not above the law.

LEGAL NOTICE: If I am compelled or forced to vaccinate to receive your services and I am injured, it will be considered coercion, duress and against our will, and you will be held liable for any such injury. I note here that we are not refusing vaccination, we are simply declining such vaccination for the reasons noted herein, and as mandated by God, the highest legal authority.

Please read this to the board as an ADA ACCOMODATION

It is time to end the county state emergency and get the masks off the kids while they are in school!

Friendly reminder you work for us – we will vote you out!

Subject: Board of Supervisors Meeting Comment for Agenda Item #38

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

My name is Liam Ferris, and I am a resident of Garden Grove. This past Sunday, I attended the funeral of a good friend of mine who died from COVID. My friend Brian died on December 30th, 2020 after spending a week in the hospital. He left behind a wife, three amazing kids, a brother, his mom, and many others who will never be the same again. He was 48 years old.

I am sad to lose my friend, but I am angry. I'm so angry. I'm angry at the citizens of our county who are preaching anti-vax nonsense - none of which is backed by science. And I'm even more angry at the Board of Supervisors members who are enabling these irresponsible people to spew their garbage.

If you truly care about reopening the economy, and going back to school in person, get vaccinated. If you care about kids under twelve who cannot yet get vaccinated, get vaccinated. If you care about your fellow human beings, get vaccinated. I wouldn't wish the pain and suffering that the families of the nearly 600,000 COVID victims have endured on even my worst enemy. Stop the nonsense, and get vaccinated.

Thank you.

Subject: Public comment for board meeting 5-25-2021

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

Hello, I am a concerned citizen/voter of Orange County and would like for this comment to be read to the board as an ADA accommodation:

-End the county state of emergency now. There is no emergency. Never had been one. It's been based on inconclusive positive results from the PCR method, which is not designed to detect infection of any type and can easily be manipulated or controlled to create a "positive result".

-Cancel the composite/cura patient contract and get a complete refund of our tax dollars.

-Pass a county resolution that prohibits any sort of vaccine verification system. It is illegal and discriminatory.

-Immediately fire Clayton Chau. He does not work for the people and obviously has an agenda with pharmaceutical companies and was caught not disclosing money received by these companies for "speaking fees". The vaccines, wether they are vaccines or not, are experimental and therefore break many state laws, federal laws and also Nuremberg codes. Chau wishes this upon the people of Orange County and is not working for us but against us. He should be held accountable for his actions, fired, and tried in court for fraud, corruption, and conflict of interests.

- We know what this board is up to and we will not allow this board to continue to do what they want. This board belongs to the citizens, not the pharmaceutical companies and not Clayton Chau. There are acts of immorality happening and we will not stand for it anymore. This board belongs to the citizens of Orange County.

Thank you!

Concerned citizen,

Lorenzo V.

Subject: Today's meeting, masks

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

You need to stop the TERRORISTS who are gathering at the HOMES of our elected reps and the employees of our Health Dept. There is no 1st admendment rights to terrorize people in their homes. If you do not take action we will be organizing similar protests at all of your homes. They are also guilty of terrorizing SENIOR CITIZENS WHO PAY TAXES when we shop. It is our choice to continue wearing masks in public. One of the leaders brags about harassing mask wearers as he walks in San Clemente.

Love and Light,

Juli Kremer
juli.kremer@me.com

I agree with Juli 100%. Please do something about this!

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

Hello,

I am writing to express my shame and disgust at the individuals "protesting" at the private residences of Supervisor Foley and Dr. Chau. I cannot believe that in 2021 I have to point out to grown adults that it is WRONG to HARASS public figures (or anyone else) at their private homes, where they live with their FAMILIES. If you want to ensure that no smart, qualified people run for local office, this is a great way NOT to recruit top talent! Who would want to sign up for a job where "harassment by mob" is part of the job description?! These "protesters" are the same people who spent the last 15 months harassing minimum-wage retail workers over masks. These are the same people who traveled to DC to take part in the 1/6 insurrection. These are the same people "protesting" in front of elementary schools. These people don't care about the status of the county's Covid emergency order - they have NEVER ONCE followed any of the guidelines, anyway! Haven't we all had enough?

I am DONE listening to the constant whining from the Covid Crybabies, who have spent the last year+ making everything harder for everyone. Their voices have been heard. Enough.

Sara, HB

There is no pandemic. Stop abusing your power and end it. Continue to reject vaccine passports. They are never necessary. Vaccines hurt some people and should never be forced on them.

Subject: Item 38

Respectfully,

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

I'm writing in response to item 38 on today's agenda. I'm tired of the narrative of the anti mask, anti vaccine crowd taking over these meetings. This very small group does not speak for the majority of the county and it's frustrating that their voice has become louder (and frankly, crazier) over recent months. I ask that the board take action keeping careful consideration of the science supporting opening up rather than the conspiracy and pseudoscience driven agenda of a select few.

Respectfully,

N. S.

Subject: Tuesday board meeting concerned citizen ADA

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links. Please read this email aloud at the board meeting in compliance with the accommodations of ADA.

Dear Board members,
As our elected officials, please make it herby known that we as citizens of Orange County implore you to do the following to uphold our rights:

1. End the state of emergency as required by CA Health and Safety Code 101080
2. Cancel Composite/Cura contract. Vaccine passport is NOT authorized by your constitutents.
3. Fire Clayton Chau. The people of OC are NOT his Nuremberg experiment.
4. Pass resolution banning vaccine passports and any other like document used to discriminate with ADA and HIPAA

Do not forge your oaths to uphold the law. CA Civil Code 51; CA Health and Safety Code 24171; and CA Health and Safety Code 24172. These are additional protections in addition to the Nuremberg Code to keep citizens of CA safe and protect our rights.

We will not back down until a correct course of action has been taken. Don't ignore the facts. PCR cycling. Virus survival rate. Let's save our county.

Guillen, Dora

Subject: Item #38 BOS Agenda Item

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

As of today, 50% of the US population is now vaccinated against COVID -19. Some Orange County cities have vaccination rates well above 70% with the majority of OC seniors being fully vaccinated. Based upon the national news coverage Orange County has received over the past year, one might come to the conclusion that despite living in a county with a top notch medical school and highly ranked University, the majority of Orange County residents reject both mask wearing and vaccinations. This is simply not true.

Unfortunately, during the past year the Board of Supervisors has allowed a small vocal minority a platform to spread misinformation about Covid. These people have profited from selling fraudulent medical and religious exemptions documents and solicit online donations. They have encouraged people to harass store employees who simply ask people to wear masks when shopping. These are the same people who have doxxed our former Medical Director and have demonstrated at the homes of other Orange County leaders. The demonstrations have been led by con-artists and insurrectionists who do not represent the majority of our citizens.

By comparing mask wearing to Jews being forced to wear yellow stars leading up to the Holocaust is beyond reprehensible. It only fans the flames of anti-semitism that has been on the rise in Orange County however always quietly bubbling just under the surface. These assertions repeatedly made at the microphone at board meetings should be immediately challenged and corrected by members of the entire Board. This goes well beyond "freedom of speech" and borders on yelling "fire" in a crowded theater.

I applaud the comments and leadership of newly elected Supervisor Katrina Foley, but it's time for the rest of the Board to step up and lead or step aside.

I would have made these comments in person, however I feel unsafe in the current environment. Please consider holding the Board of Supervisors meetings virtually in the future.

Karen Cohn
