**Subject:** JWA Airport

Governors,

I wanted to share with you that both my wife and I are fundamentally opposed to the expansion of the JWA airport. We are both frequent flyers and truly enjoy the convenience of JWA and in no way want to hurt the airport. That being said we are also not in favor of any additional expansion of the airport. It's important you understand that we find this issue significant enough that we are both prepared to inform you that our votes in upcoming elections will be 100% influenced if you choose to vote for airport expansion.

We will pull a list after the vote and those that vote no to expansion will get our vote and those that vote yes will automatically have us vote against them in all future elections. Unfortunately it appears that the only way to have your constituents voices heard is by real promises to vote you out of office. I certainly hope you take both of our opinions seriously because we are serious. I urge you to listen to those affected by JWA expansion and vote no.

I look forward to watching the upcoming vote.
