Subject: John Wayne airport expansion.

Dear OC Supervisors,
Please:

- No more than two (2) full-service Fixed Base Operators.
- One (1) new and one (1) existing limited-service Fixed Base Operators.
- No General Aviation Facility (for processing international general aviation passengers).
- Increased hangar space for small general aviation planes.
- Maintain the current "GA mix", meaning, keep the current ratio of light general aviation aircraft (single and twin engine) and general aviation jets.

Health of the environment cannot fall victim to Corp profits.
