**Subject:** NO John Wayne Airport Expansion

Orange County Board of Supervisors,

I am a Newport Beach resident who has the blessing of making time for a daily walk on the beach early in the morning. The noise and air pollution from the current airplane flights is already a detrimental not only to Newport Beach but also to the neighboring cities of Costa Mesa, Orange, Tustin.

If I had a better camera in my smart phone I would be sending you a picture showing a grey "plume" behind each of the airplane turbines. All that air pollution is falling on us, the residents of the cities under the JWA flight paths.

**I respectfully ask you to vote for Alternative 3, or as a minimum for the "Modified Alternative 1" proposed by Board Supervisor Do.**

Regards,  
Carmen Rawson
