Solicitation Exemption (For purchases with special circumstances, and/or when it is determined to be in the best interest of the County.)								

Sole Source Bidsync # 003-C020388-AZ-SS

## SECTION III - SOLE SOURCE JUSTIFICATION

- Provide a description of the type of contract to be established. (For example: is the contract a commodity, service, human service, public works, or other please explain.) Attach additional sheet if necessary.
   This is a technical services and software license contract.
- 2. Provide a detailed description of services/commodities and how they will be used within the department. If this is an existing sole source, please provide some history of its origination, Board approvals, etc. (This information may be obtained from the scope of work prepared by the County and the vendor's proposal that provides a detailed description of the services/supplies.) Attach additional sheet if necessary.

The County's Performance Budgeting system (PB) is a vital component of the County's infrastructure. PB is an integrated component of the County's current CAPS+ Enterprise Resource Planning suite of software, which includes the Finance and HR\Payroll systems. The County is currently on version 3.10, which was implemented in 2014.

PB is required for the County to manage and report financial functions in an efficient, cost-effective, and responsive manner. The County Budget Office uses this web-based application for the following:

- Long-range strategic financial planning
- Preparation of the County's annual operating budgets
- Preparation of quarterly budget adjustments
- Preparation of year-end expenditure, revenue and fund balance projections

The Performance Budgeting system is a proprietary system licensed to the County by CGI Technologies and Solutions Incorporated (CGI). The implementation services to upgrade PB from version 3.10 to 4.1 services supplied under this fixed price agreement include the following:

- Project planning and management services
- Knowledge transfer to and technical training for the County's project team on functional and operational components of PB 4.1
- Technical environment setup and application installation\configuration\testing
- Data conversion
- Production environment cutover
- Post-implementation support
- 3. Explain why the recommended vendor is the only one capable of providing the required services and/or commodities. How did you determine this to be a sole source and what specific steps did you take? Please list all sources that have been contacted and explain in detail why they cannot fulfill the County's requirements. Include vendor affidavit and/or other documentation which supports your sole source. (Responses will include strong programmatic and technological information that supports the claim that there is only one vendor that can provide the services and/or commodities. Your response will include information pertaining to any research that was conducted to establish that the vendor is a sole source, include information pertaining to discussions with other potential suppliers and why they were no longer being considered by the County.) Attach additional sheet if necessary.

Sole Source Bidsync # 003-C020388-AZ-SS

4. How does recommended vendor's prices or fees compare to the general market? Attach quotes for <u>comparable</u> services or supplies. Attach additional sheet if necessary.

This is a fixed price contract with CGI for bundled professional services provided for its proprietary product that the County currently utilizes. There are no other vendors that can provide comparable service for this proprietary product. As compared to the general market, the County would have to replace the budgeting existing system at a major cost with a longer project duration. Upgrading PB from 3.10 to 4.1 is considered a minor upgrade with a short project duration. Many of CGI tools and technologies (e.g. Finance and HR\Payroll systems) are already employed by the County and integrate with the Performance Budgeting system. The County currently has knowledge, expertise and experience with PB. A new budgeting system would require extensive knowledge transfer and a learning curve, which would require additional vendor support.

The Department has fully negotiated the price with the vendor. The negotiated amount is less than the prior fixed price contract with CGI for bundled professional services to upgrade to PB 3.10.

5. If the recommended vendor was not available, how would the County accomplish this particular task?

Attach additional sheet if necessary.

If the recommended vendor is not available, the County would have to spend resources on researching other options or investing in some other budgeting system. Most likely, this would require soliciting a new contract with another vendor utilizing the Request for Proposal process.

6. Please provide vendor history - name change, litigation, judgments, aka, etc. for the last 7 years.

CGI has not changed its name in the last 7 years. Currently, there are no pending dispute during the last 7 years that could have an adverse impact on the Vendor's financial condition or its ability to perform services under contract with the County.

	contract with the C	ounty.				
7.	If vendor is a retired, former employee, has the vendor previously been rehired as a contractor within the last					
	three years?	☐ Yes	⊠ No			
	If yes, provide explanation/support for hiring the retired, former employee as a vendor and provide contract dates, scope of work, and total amounts paid under each contract.					
	None					
8.	Explain (in detail) v	why a reques	t for Solicitation Exemption is needed. (Only applicable for Solicitation Exemption)			

Explain (in detail) why a request for Solicitation Exemption is needed. (Only applicable for Solicitation Exemption)
 Attach additional sheet if necessary.

 None
