Project Title: OC Loop Segment H

Project Location: The project site is located at the terminus of the existing El Cajon Regional Riding and Hiking Trail and Bikeway at Fairlynn Boulevard to the existing Santa Ana River Class I Bikeway (1.2 miles). This portion of the OC Loop is located within the Cities of Yorba Linda and Anaheim as well as unincorporated Orange County.

Description, Nature, Purpose and Beneficiaries of Project: OCCR/OC Parks is proposing an improvement project, to OC Loop - Segment H (El Cajon Bikeway Gap Closure). The OC Loop is a planned alternative transportation corridor comprising 66 miles of regional non-motorized recreational/commuter cycling and pedestrian routes that provide seamless connections and an opportunity for people to bike, walk, and connect to some of California's most scenic beaches and inland reaches. Approximately 70% of the OC Loop is already in place and is used by hundreds of thousands of people each year. These existing recreational/commuter cycling and pedestrian segments of the OC Loop include the Santa Ana River Bikeway, the Coastal Bikeway, and several miles of the Coyote Creek Bikeway and San Gabriel River Bikeway. The El Cajon Class I Bikeway is a City, County of Orange and Orange County Transportation Authority (OCTA) master-planned Class I (off-street) Bikeway. The bikeway is the only Class I facility planned through all of the north Orange County cities (in an east-to-west direction). Completing these gap segments along the El Cajon Bikeway will require the installation of on-road bike lanes, sharrows and at-grade grade (mid-block) crossing of Fairlynn Boulevard in unincorporated County. Additional improvements proposed for these gap segments include constructing a Class IV Bike Route within County and city road rights-of-way along a portion of Esperanza Road between Fairlynn Boulevard and the Fairmont Connector and along the Fairmont Connector to Fairmont Boulevard.
